I champion families, community development, diverse community views, promote volunteers and am passionate about work life balance and respectful working relationships. I believe in giving back to the community and want to see the Shire of Ashburton grow and thrive for our current and future generations.

I understand the difficulties of living remotely and will work hard to maintain and improve our facilities and services because remote and rural doesn't have to mean missing out. I will work with the community to provide what they want and not what I think they want, engagement is key. I will ensure community perspectives are heard and considered in decision making.

I have learned so much being on council for the last two years and am now ready to take the next step and represent the entire Shire of Ashburton as the Shire President. Lets make the Shire of Ashburton the greatest place to live.

A vote for me is a vote for your everyday community member.
