My name is Karen (Tess) Tesoriero and I am standing for local council in Paraburdoo because I care deeply about the future of our town for all the residents that call it home.

Although I am a newer resident, what began as a professional opportunity quickly turned into something more- a genuine connection to a town I now proudly call home.

I bring with me a long history of community involvement, including many years of volunteering and sitting on committees. This has given me a deep understanding of the power of community-driven action and the importance of listening to local voices.

Having worked for local businesses here, I have seen the vital role they play keeping our town strong.

If elected, I will be a proud voice for the people. I am passionate about contributing to a more connected community where everyone has the opportunity to thrive. I believe in practical solutions, open and transparent communication, and making sure that council decisions reflect the real needs of our residents.
