## **LYNCH, Matthew**

My family and I have called Tom Price home for 16 years. I have immersed myself in our community, by being part of many community groups and am a life member of the Drive In, Men's Softball and am a NTPPS board member.

I believe that diversity is the key to growing our communities and remaining relevant beyond mining. Over the last 5 years as Councillor I have advocated for a new daycare, emergency services hub and hospital. I have also seen upgrades to play grounds and sporting facilities, with more to come, like the upcoming Netball/Basketball court roof.

I also believe that more than monetary investment is required, to strengthen our communities. We need to continue to invest ourselves, to ensure our community thrives.

I will continue to advocate for our community.
