MLADENOVIC, Tina

As a mother of 3 boys, I have strong connections to Tom Price through relationships with community groups, sporting clubs and families.

I want to see our council show leadership by advocating for our residents, create opportunities for real community consultation, be transparent and build relationships that are transformative rather than transactional.

We need to invest resource supplied funds into supporting our schools, small businesses, access to medical services, early intervention programs as well as community groups who are already trusted and supported by the community.

It's time to invest in our families for a sustainable future beyond mining with a financial commitment to housing, cultural tourism, affordable airfares, education and healthcare.

I believe we are more than mining.
