Summary

Council is required to complete a Compliance Audit Return for the period 1 January to 31 December annually.

The 2020 Compliance Audit Return was endorsed by the Audit and Risk Committee at its March 2021 meeting.

The purpose of this report is to present a status update on the areas of non-compliance and the measures taken to mitigate future non-compliance.

The Audit and Risk Management Committee is requested to accept the Compliance Audit Return Non-Compliance Status update report.

Background

In accordance with the *Local Government (Audit) Regulations 1996* a local government is required to complete a Compliance Audit Return for the period 1 January to 31 December each year to be submitted to the Department of Local Government, Sports and Cultural Industries (DLGSC) by 31 March.

The 2020 Compliance Audit Return was presented and endorsed by the Audit and Risk Committee at its March 2021 meeting. As part of its acceptance the Chief Executive Officer was requested to address the areas of non-compliance and report back to the Audit and Risk Committee on the measures taken to mitigate the non-compliance no later than 20 June 2021.

A status update report was presented to the Audit and Risk Committee meeting at its July 2021 meeting.

Comment

The following is a summary of identified issues and the action taken to mitigate these matters in the future.

Identified issue.

1. Delegation of Power/Duty
2. Receipt of Auditors Report
3. Councillor Continuing Professional Development of Policy
4. Annual Financial Statements submission requirements.
5. Regional Price Preference Policy

Except for Item 1 Delegation of Power/Duty, all items have been addressed and steps have been taken to ensure compliance is met in the future.

Item 1 Delegation of Power / Duty involves the implementation of a new platform to assist with the management and record keeping requirements associated with delegations, and therefore requires additional timeframe to ensure that the implementation delivers best practice and the desired outcomes for the shire.

1. Delegation of Power/Duty (13 compliance areas)

Keeping written records by persons exercising a delegated power or duty has been identified as an area for improvement.

Progress update

Record Keeping of delegated power has already been identified as an area requiring system improvements including training. In September 2020, a new platform Attain was implemented along with the review of the Delegated Authority Register.

The high level of staff turnover presents a training and development challenge, meaning system implementation process need to be robust and continuous. Processes to achieve this is currently under development.

The position of Manager of Legal and Governance has been appointed with the incumbent commencing in the role on the 1 November 2021.

Date report written	8 December 2021
Previous meeting reference	Item 7.3 (Minute 32/2021) – Audit and Risk Management Committee 28 September 2021

Summary

This report provides a progress update on the findings of the internal audit conducted by Moore Australia that focused on matters identified in the 2019 Financial Management Review, procurement systems and controls, risk management practices, grants application, payments and acquittals, and records management compliance.

The Audit and Risk Management Committee is requested to accept the status report on the findings of the internal audit.

Background

To improve the effectiveness of its risk management, governance and control processes, Councillors endorsed the Audit and Risk Management Committee's role in preparing a three-year internal audit plan at the September 2020 Ordinary Meeting of Council. Further, Council acknowledged the Chief Executive Officer was undertaking an internal audit on key areas of concern in accordance with the Chief Executives obligations for the Financial Management Regulations 1996 as amended for the year ended 30 June 2021 was to focus on the following areas:

- Identified matters in the 2019 Financial Management Review;
- Procurement systems and controls;
- Risk management practices;
- Grants applications, payments, and acquittals; and

- Records management compliance with regulations and systems review.

Comment

Moore Australia were engaged to undertake an internal audit in accordance with the Institute of Internal Auditors 'International Standards for the Professional Practice of Internal Auditing' as contained in the 'International Professional Practices Framework', with the following objectives:

- Examine and evaluate actions implemented in response to matters identified in the 2019 FMR review;
- Review the appropriateness and effectiveness of internal controls pertaining to processes key to procurement activities, including credit card expenditure and tenders in accordance with statutory requirements;
- Determine the compliance, efficiency, and effectiveness of the risk management framework with legislative compliance requirements and its consideration of better practice principles;
- Review the appropriateness and effectiveness of systems and internal controls pertaining to management of grants;
- Assess the systems for records capture and retrieval, retention and disposal, risk of loss of vital information, and to identify potential improvements.

The Ashburton Internal Audit Report – 2020-2021 was endorsed by the Audit and Risk Committee on the 16 March 2021.

Moore Australia summarised the findings in the following table.

Review Area:	Summary of Findings			Total
	High	Medium	Minor	
Identified Matters – 2019 FMR	-	3	-	3
Procurement Systems and Controls	12	12	-	24
Risk Management Practices	4	9	5	18
Grants Management	-	6	5	11
Records Management	7	7	-	14

Management have made a commitment to address the matters raised within this report, including meeting best practice principals.

The below is an overall summary of the approach management are taking to address matters raised, a detail report is provided within a separate attachment.

1. Observations and Recommendations – 2019 Financial Management Review

All matters raised from the 2019 Financial Management Review have been or are currently being addressed.

A financial end of month checklist has been developed which incorporates numerous tasks, including items raised.

Continual improvements are being developed, including upgrading the Shire's financial management system from Itvision Synergy Soft to Itvision Altus. This upgrade will be carried out over the 2021/2022 financial year as modules are developed and made available.

2. Procurement systems and controls;

Several improvements have been identified within this section ranging from system improvements, record keeping, training, improved workflow, and compliance. As a result, it is recommended that a complete review of the Shire's procurement system and controls be conducted that incorporates all aspects of procurement, from planning, and approaching the market, evaluating, awarding contracts and contract management right through to payments and evaluations.

Robust systems are required to accommodate the complexity of the Shire's procurement requirements. This includes investigating platforms that will incorporate and enforce the Shire's policies and processes to ensure that best practice principals and legislative requirements are met.

The Shire is currently investigating ITvisions Altus Procurement and Altus contract management as platforms to manage procurement and contracts to be implemented in 2021/2021.

The system implementation will incorporate the review and/or development of various council policies, processes and directives, that will be inbuilt into the system to ensure compliance.

3. Risk management practices;

The internal audit stated that Risk Management Capability and Culture for the Shire is assessed as inadequate. Furthermore, the report noted that there are no dedicated resources and regular review of the resourcing of the risk management function. The de-centralised model for risk management effectiveness is limited by this the lack of dedicated resource to ensure a consistent approach.

Management has identified that Risk Management is an organisation priority. The funding of a new Audit and Governance position has been included in budget considerations and incorporated in the organization review discussions.

This new position is imperative for the shire to improve its Risk management practices and address the matters raised within the report.

4. Grants applications, payments and acquittals;

The internal audit identified several improvement opportunities within the Shire's Grant Management processes.

Improved systems and controls are required for the high-level monitoring of compliance with grant programs to detect any potential issues in a timely manner to reduce the shire's risk of non-compliance of funding conditions.

A complete review of the grant management process has been identified and will incorporate the development of suitable reporting system to collate, monitor and report funding performance.

5. Records management compliance with regulations and systems review.

The internal audit assessed several the Shire's Record Management Practices as inadequate.

Improvements to the Shire's record keeping management has already been identified as a priority by staff. At the September 2020 ordinary meeting, Council endorsed a five-step approach to access historical records and provide industry standard record keeping platform to ensure optimum performance in the future.

A project management plan for the implementation and migration of an electronic record keeping system has been developed and currently being implemented.

The Shire's Record Keeping Plan is being reviewed in conjunction with the implementation of the Shire's new EDRMS and will incorporate requirements and strategies that align to the new systems capabilities.

Staff are in regular contact with the State Records Office regarding the review status as well as ensuring that the shire's approach and implementation meets legislative and best practice requirements.

It is envisioned that the Record Keeping plan will be finalized within the next 6 months. The plan will incorporate systems for continual monitoring and self-evaluation strategies.

A detailed status update report for the period ending 30 November 2021 is provided for consideration.
