Report Purpose

The purpose of this report is to establish an effective internal audit function by setting a roadmap with a time plan. This roadmap also identifies important concepts and core principles of internal audit, in compliance with the risk management and internal audit requirements outlined in:

- The *Local Government Act 1995* and related Regulations;
- The Operational Guidelines provided by the Department of Local Government, Sport, and Cultural Industries (DLGSC);
- The International Professional Practice Framework of the Institute of Internal Auditors - International and Australia;
- Various other Acts and Regulations related to local government;
- Industry Best Practices, including those recommended by the Office of the Auditor General-WA and others; and
- International Standards (ISO).

Audit and Risk Management committee is requested to review and recommend Internal Audit Roadmap 2023-2026 to Council.

Council is requested to receive and adopt the Internal Audit Roadmap 2023-2026.

Background

Previous Regulation 17 Reviews have highlighted that Shire doesn't have an Internal Auditor/function. As response to this finding management had agreed to establish an Internal Audit function internally. As per the Organisational Structure, the position "Internal Auditor" has been created and recruited with effect from 15 February 2023. As per the position description, the Internal Auditor is to autonomously conduct the Internal Audit function.

This Internal Audit Roadmap 2023-2026 has considered the recent past and ongoing discussions of requirements in risk management and expectations of establishing the Internal Audit function as a drive to risk management, internal audits and process improvements.

Comments

The Internal Audit Roadmap 2023-2026 identifies as follows.

Internal Audit Core Principles and Concepts

- The Internal Audit function is established in compliance with the International Professional Practice Framework of the Institute of Internal Auditors, both in Australia and internationally, as well as with various other statutory and best practices
- In the three lines of defence model of governance and risk management, Internal Audit function is considered to be the 3rd line of defence.
- The Internal Audit function is an independent function that operates separately from operational responsibilities and management.
- If the Internal Audit function or an Internal Auditor report to an Operational Manager or Internal Auditor involved with the design and implementation of operational controls, the independence of Internal Audit is impaired. In such cases, Internal Auditors may not be objective enough to provide an independent opinion.
- The Internal Audit function will administratively report to the Chief Executive Officer or a delegate and functionally report to the Audit and Risk Management Committee. (DLGSC Operational Guideline 9).
- Internal auditors can only be involved in a consultative capacity to support management for any management responsibility to preserve the independence of the Internal Audit function.
- Any concern about the independence of the Internal Audit function will be directly discussed with relevant staff, managers, directors, and the Chief Executive Officer. In the absence of a solution, the concerns will be discussed with the Audit and Risk Management Committee in a confidential meeting annually or as appropriate.
- The Internal Audit function has direct access to the Audit and Risk Management Committee and any information required for audit purposes over Shire.
- The implementation and operation of risk management is a responsibility of management. Internal Auditors can assist management in managing risk in a consultative capacity.
- Fraud risk management is a responsibility of management, and not of Internal Auditors. It is not assumed that Internal Auditors have knowledge of managers who primarily manage operational functions, nor is it assumed that they have the skills required to mitigate fraud risk. The role of Internal Auditors is to assess and consult on the implementation of effective fraud risk management throughout Shire. However, if auditors find any indications of unusual activity, they must report them appropriately as part of their internal audit function. Additionally, Internal Auditors may investigate incidents of fraud and provide factual findings as necessary.
- For an effective Internal Audit function based on the risk profile, risk management must be implemented and operated by management. In the absence of an effective risk management function, Internal Audit will base its perceived risk assessment on available information for audit topic selection. However, in such cases, Internal Audit cannot guarantee the effective mitigation of risks, and it will not have a risk-based approach to prioritize areas and resources, which in turn means that it will not be effective or value-added.

- The formal documents for establishing the Internal Audit function, including the Internal Audit Charter and Strategic Internal Audit Plan, will be established within the timeframe mentioned in the Roadmap. (June-August 2023)
- An annual internal performance review on the quality of internal audit work will be provided to the Audit and Risk Management Committee.

Time Plan Summary

- Management Responsibility – establish risk management by the end of August 2023 – minimum need to update existing risk registers – last updated 2019.
- Internal Audit Responsibility – assess the control environment of Shire by the end of May 2023.
- Internal Audit Responsibility – establish Internal Audit Charter June to August 2023.
- Internal Audit Responsibility – establish Strategic Internal Audit Plan with outsourcing requirements for 2023-2024 (with the view up to 2026) June to August 2023.
- Commence 2023-2024 internal audits by September 2023.

Internal Audit Progress Update

The following works have been progressed during the period February-April 2023:

- Regulation 17 Review scope approved by Chief Executive Officer – to be completed by August 2023.
- Financial Management Review 2023 commenced – to be completed by June 2023.
- Review of Risk Management Framework.
- Review of Fraud Risk Policy.
