EXPERIENCE EXTRAORDINARY WESTERN AUSTRALIA

19 May 2014

Mr Neil Hartley CEO, Shire of Ashburton PO Box 567 Tom Price WA 6571

gent out still

Dear Mr Hartley,

#### 2014 Australasian Safari and the Shire of Ashburton

The Australasian Safari has long been recognised as Western Australia's toughest motorsport event. Known for tackling the spectacular terrain of outback Western Australia, we are a long distance, endurance, off-road rally event which will see our competitors and crews traversing over 3,500km, over seven tough days.

The purpose of writing this letter is first to thank you and the Shire of Ashburton for your support of the event and also to outline our plans for 2014.

This year will be the eighth year that the Australasian Safari will take place in WA. It is a big event to organise – taking into account all the competitors, the support crew, media and organizing staff there were approximately 550 people travelling from town to town last year, along with air support, a field hospital and a fleet of campervans that double as event headquarters. Enclosed is a document titled 'Facts and Figures' which provides some more detailed information about the event.

#### **Onslow Town – Requested Areas for use**

Onslow Town Oval -- Onslow Bivouac Bump In: Sunday 21<sup>st</sup> September @ ETA 12.00pm Bump Out: Monday 22<sup>nd</sup> September @ ETD 10.00am As part of the venue use, we request the use of the following on-site facilities:

- Onsite toilet blocks
- Lighting towers
- Power
- Water

Also:

- · Sewerage points or access to a local contractor
- Additional Waste/Rubbish removal
- Owners consent for the sale and consumption of alcohol see below heading 'Liquor Consumption'

Australasian Safari C2/4 King Edward Road Osborne Park WA 6017 T: 61 (0)8 9445 2645 F: 61 (0)8 9446 9629 W: <u>www.australasiansafari.com.au</u> E: info@australasiansafari.com.au

The organisers will provide the following:

- Showers
- Additional Toilets
- Catering
- Security

#### **Marketing Opportunities**

In return for the support of the event, Safari is able to offer the following opportunities:

- Promotion of the town to over 120 countries during the TV Highlights broadcast
- Support to local businesses by bringing over 550 travellers to the area

#### <u>Fees</u>

As the Australasian Safari brings to the City a large community following, we would request all fees associated with the event application process including facility hire charges, aircraft landing fees, additional rubbish and waste oil removal to be waived or paid for by the Shire.

We are requesting the Shire of Ashburton to please waive the following fees:

- Caravan and camping fees
- Building approvals
- Trading in Public Places fees
- Aircraft and Helicopter Landing fees
- Additional waste removal fees

#### **On-Site Catering**

As per our previous years, we will again be contracting Crawford's Catering to supply catering for those who've requested to be catered for on event. The rest of the Safari family will be purchasing their own meals from local restaurants and supermarkets in town.

We will provide Crawford's Insurance and Licences in due course.

#### Camping

We would request the use of the Onslow Town Oval for designated camping facilities. We would also request any camping fees be waived.

#### Liquor Consumption

We will be obtaining an Occasional Liquor Licence is due course and will be submitted for your reference. We would also request the owner's consent to:

- Allow the consumption and sale of alcohol in our designated licenced area
- · Allow the consumption of alcohol in our designated camping area

#### **Electrical Compliance**

Prior to the start of the event, an electrical contractor will be commissioned to tag and test all of the events electrical equipment and power cables/boards.

#### Page 72

#### <u>Route</u>

At present the proposed route is as follows:

Monday 15<sup>th</sup> September – Friday 19<sup>th</sup> September Saturday 20<sup>th</sup> September Sunday 21<sup>st</sup> September Monday 22<sup>nd</sup> September Tuesday 23<sup>rd</sup> September Wednesday 24<sup>th</sup> September Thursday 25<sup>th</sup> September Friday 26<sup>th</sup> September Saturday 27<sup>th</sup> September based at Wanneroo Showgrounds, Perth Geraldton Murchison Gascoyne Junction Gascoyne Junction Onslow Exmouth Carnarvon Kalbarri

The final route will depend on approvals from local government, landholders, mining companies and indigenous land councils.

#### Insurance & liability

The event is insured by the Confederation of Australian Motorsport (CAMS) & Motorcycling Australia (MA), and Certificates of Currency will be provided in due course.

We are looking forward to maintaining a mutually beneficial relationship between the Shire of Ashburton and the Australasian Safari and thank you for taking the time to discuss our plans for 2014. I look forward to receiving your response with our request for the waiving of Shire hire fees and waste removal.

If you have any queries at all with relation to our Events Application or general Safari information, please feel free to contact the office and we would be happy to assist.

With kind regards,

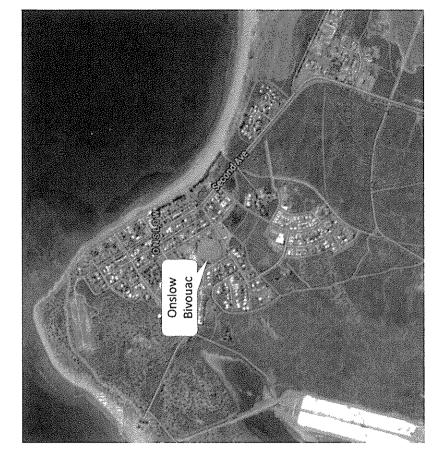

Justin Hunt Event Director Australasian Safari E: <u>Justin@australasiansafari.com.au</u> M: 0415 100 992

Paraburdoo Inc.

1 May 2014

Chief Executive Officer Shire of Ashburton Paraburdoo, WA, 6754

To whom it may concern:

I am writing in response to a letter sent on 22 April 2014 by Executive Manager Community Development, Deb Wilkes, requesting The Lifestyle Centre Paraburdoo Incorporated put forward a business proposal to relocate to the Paraburdoo Sports Pavilion in the future. This opportunity was met with excitement from members as all believe this could have a significant positive effect on the Paraburdoo community. Gymnasiums in metropolitan areas now target members from 16 – 80 years of age with structured programs, state of the art facilities and have a direct impact on long term health consequences of society. The Paraburdoo community could benefit greatly from supporting such a proposition as the health concerns are widely known and hard to address. I would like to provide some context first on this proposal before attempting to address the concerns you have raised in your letter.

The Lifestyle Centre Paraburdoo Incorporated is a not for profit organisation that has been running in Paraburdoo for the past 6 years. In the 2012-13 financial year, the Lifestyle Centre had 144 single memberships and a further 94 family memberships, totalling 345 paid members. On average the Lifestyle Centre was accessed 1236 times per month (41 people per day), controlled by our swipe card security access system. The Lifestyle Centre is a 24 hour gym, with peak operational periods between 4:30am – 9am and 4pm – 8pm. The Lifestyle Centre is self-funded, it is responsible for the care and maintenance of all gym equipment and supporting infrastructure. The Lifestyle Centre funds wages of two employees who manage the memberships, programs and inductions on a casual basis. Rio Tinto support the Lifestyle Centre by providing the building and electricity free of charge, along with building maintenance and they also support the ESS cleaning contract, this involves cleaning the toilet and a basic clean of the facility during the week.

Throughout 2013 the Lifestyle Centre held discussions with Councillor Ivan Dias regarding the Paraburdoo Community HUB project that has been earmarked for Paraburdoo for some time. At some point in 2013 we were informed that plans had been tabled that possibly involved The Lifestyle Centre having an opportunity to relocate into a new, purpose built facility should the HUB project go ahead. On 29 October 2013 the Lifestyle Centre wrote to Councillor Dias to express ongoing support and interest in this proposal. Since this letter was tabled we were informed verbally that the scope of the project had changed and there would not be a suitable location for the gym to relocate into.

On 11 March 2014 I contacted Brian Cameron via email to request the Shire's assistance regarding the current facility we occupy. Rio Tinto has kindly provided the Lifestyle Centre this facility and even

#### Page 81

supported an expansion at the end of 2011 however there are some concerns during peak periods and we have been considering for some time what expansion opportunities may be possible after we were informed that the opportunity to move to the Community HUB was no longer. We were hoping Brian may be able to clarify what building code requirements are required if we were to alter the current building. To date, I have not received a response.

On 3 April 2014, at the request of Councillor Dias, I met with Ivan and another representative from the Shire. We completed a basic inspection of the Sports Pavilion and both agreed that whilst the building needed some improvements the opportunity to relocate into this facility would be great for the community, the gym members and also the Shire. It would provide a bigger floor space, improved toilet facilities and better utilisation of the sports pavilion. More than that, we both agreed that this change would create a real buzz in the community given it would bring together the sports oval, swimming pool, gymnasium, squash and tennis courts, basketball and netball courts and the bowls club. At the completion of this meeting I was informed that the Shire would be in a position to assist with sourcing information and quotes on the concerns we raised.

The Lifestyle Centre committee arranged a meeting on Wednesday 9 April and performed a more thorough inspection of the facility. The committee agreed that this proposition was exciting and one that we should investigate further, some of the reasons are detailed below.

- the opportunity to move into a bigger building to spread the equipment properly
- a facility that supports new starters, young adolescents, experienced gym users and those recovering from illness, injury or simply keen to make a lifestyle change
- improved male and female toilet facilities
- a separate area with the potential for exercise classes
- a space for ladies and mums to feel comfortable exercising
- opportunities to possibly use a space and offer a crèche to encourage mums in town with children under school age to have a facility that supports health and wellness
- a facility that could offer targeted exercise sessions or programs to young people during school holidays
- better utilisation of the Sports Pavilion
- a gymnasium that would be equal quality to those available in metropolitan cities
- start the creation of the HUB feeling given the increased traffic
- better utilisation of the Paraburdoo Pool given the location of the gym post workout

The Committee tabled a response to Councillor Dias indicating there were a number of concerns that would need to be addressed hopefully with the support of the Shire, Rio Tinto and also The Lifestyle Centre. The concerns are tabled below.

Concern	Issue	Proposed Solution
Air-conditioning	Up to 20 members may access the	Complete upgrade of the air
	facility at one time	conditioning system in the front and

Power supply	Can current power supply handle air-con	Review power supply to building

Additional power	Some additional power points will be	Install power points
points	required to run equipment	· · ·
Internal access to ladies toilets	Currently a copper pipe restricts access to ladies toilets from inside building	Relocate copper pipe and open ladies toilets up
Condition of ladies toilets	It was reported that ladies toilets will block and do not function well	Review condition and functionality of ladies toilets and provide feedback
Large cracks in walls	Significant cracks noted in structural wall – is building sound?	Patch, repair, paint, reinforce?
Doors in rear room blocked over	No natural light, ugly	Replace with glass panel tinted doors

Power	What is the cost of the power	Proposed power costs
Maintenance	Who pays for building maintenance	Agree to terms
Cleaning of space & toilets	Who pays for this service	Agree to terms

Whilst the committee recognises there is a cost associated with the items listed above the committee is not in a position to scope or rectify a solution to most of the major items tabled. The committee was of the understanding that the Shire was committed to providing feedback on what some or all of the major items would require prior to any discussions on who may be responsible to pay for any modifications. The committee feel that as the Shire owns the structure and as we would be required to pay rent for the facility that the Shire should provide a building fit for purpose. I have commenced discussions with Michelle Mitchell from Rio Tinto and she has offered to provide some support. Until we understand what the costs are associated with the proposed changes it is difficult to progress.

In response to your specific questions I will do my best to answer them with the limited information that is currently available.

1. Why the gym wishes to relocate, the benefits to the community, and the anticipated timeline for doing this. In addition, an indication of how long the gym believes they would be operating from the new premises

Relocating the gym to a new facility that is built to metropolitan standards will provide substantial incentive to people considering moving to Paraburdoo, people in today's society are members of gyms, they are aware of their own personal health, they are educated on

the television, at work and via social media, providing them a facility that is of a similar standard offered in Perth will have a direct impact on the overall health of the community.

As discussed above, the current gym facility meets the needs of current members, that being said, the toilet facilities do not meet 2013 building standards for operation of a gymnasium, at peak periods the gym is cramped and some members will simply leave if it becomes too busy. There is no opportunity to further promote the gym as the current member levels during peak periods mean the gym is at maximum usage.

2. What upgrades are required at the Sports Pavilion, and who will be responsible for these costs, including engineering and other reports that will be required to determine the suitability of the building for this purpose. Does the gym committee see these costs would be funded separately to, or as part of, the current plans for the Paraburdoo Community HUB?

The Lifestyle Centre was approached by the Shire to consider relocating, the Shire has proposed a facility that may suit the community needs for a local gymnasium. Given the Shire own the facility and the resources they have to support addressing the concerns we have raised, the committee feels that the Shire would be best positioned to address the concerns raised. This commitment was given when the original discussions about potentially moving were raised.

The Lifestyle Centre understands these costs could be quite substantial so discussions with all parties should be considered once we are in a position to do so.

I have commenced discussions with representatives from Rio Tinto and they can also see the potential such a move could have on the community. Representatives from Rio Tinto Accommodation and Towns Management have offered their support in this project.

As for allocation of funds from the Paraburdoo Community HUB we are not in a position to comment.

3. What costs each party (the Shire of Ashburton, RTIO and the gym) will bear moving forward (eg cleaning, rental of premises, electricity, insurances of building and contents, purchase of future equipment etc). This includes who will be responsible for building maintenance. This will also include what the gym committee believes is a fair and reasonable rental cost, based on what ongoing/up front costs they should pay for.

I will attempt to address each of the concerns listed above individually.

**Cleaning:** at present the toilets of the Sports Pavillion are likely to be used by multiple entities that access the facility (squash club, toy library, Lifestyle Centre), as such the costs either need to be divided or built into the cost of renting the facility.

**Electricity:** prior to committing to leasing this building a cost needs analysis must be performed, one substantial cost will be the associated costs from air conditioning the building. Again, given it is a shared facility, costs need to be broken down.

Insurance: Building insurance I would imagine would be covered by the owner of the building.

**Contents insurance** would be something the Lifestyle Centre should consider.

**Purchase of future equipment:** gym equipment and maintenance has always been covered by the Lifestyle Centre.

Building maintenance: the owner of the building is responsible for building maintenance

**Rent:** It is impossible to commit to a rental cost, if the Shire committed to providing a building fit for purpose the Lifestyle Centre must understand that this comes with an associated cost. It would be interesting to look at what other leases are in place for similar sized spaces in Paraburdoo and attempt to build a costing schedule using this model.

I have commenced discussions with representatives from Rio Tinto and they can also see the potential such a move could have on the community. Representatives from Accommodation and Towns Management have offered their support in this project.

#### 4. What arrangements the gym will make to rehouse groups who currently use the facility (including how additional costs incurred by these groups – eg. In moving costs or in ongoing increase rental costs – will be dealt with

The Lifestyle Centre is excited to be presented with the opportunity to move into the Sports Pavilion. The Lifestyle Centre has zero knowledge or influence of who currently utilises the facility, where they would move or what the costs of relocating or ongoing rental costs may be. The Lifestyle Centre Committee are of the understanding the building is currently not at 100% utilisation, something the gymnasium can provide. The Lifestyle Centre's current facility would obviously be vacated, if we can progress the possibility of relocating further, conversations with Rio Tinto personnel should commence and considerations on how the current facility may be used in the future and whether this may provide a suitable alternative.

#### 5. Details of how a combined gym/pool membership could operate and the benefits to both parties (the Shire and the gym) in moving forward with this proposal.

This idea is something that has floated amongst the committee for the past few years. We believe that the community of Paraburdoo stand to benefit from the opportunity to have a combined membership. The FIFO and residential community of Paraburdoo are currently expected to pay \$4 per visit to the pool along with a gym membership. Pool exercise after a gym workout (especially if they are located next to one another) is beneficial to recovery, it would also boost known revenue to the Shire should a new structure be adopted. By providing the community options to exercise during both Summer and Winter through a combined membership could be beneficial to all involved.

Annual Membership to Lifestyle Centre -	\$240
Adult	
Annual Membership to Paraburdoo Pool –	\$350
Adult	
Proposed combined membership – Adult	\$500

A simple model that could be proposed is:

The committee are excited by the opportunity to work with the Shire to deliver a facility that improves the health both physically and mentally of the community members while raising the level of social wellbeing. It is a worthwhile goal that if we are able to achieve will help move the town in the right direction.

We look forward to hearing from you and hope we can continue to work with you to achieve a common goal.

#### **1.0 Executive Summary**

The Shire of Ashburton Facilities staff have been approached by The Lifestyle Centre Paraburdoo Incorporated (The Lifestyle Centre) representative David Kerr, to consider assisting The Lifestyle Centre to relocate to the Sports Pavilion in Paraburdoo.

Initial discussions were held throughout 2013 regarding the Paraburdoo CHUB project and the possibility of The Lifestyle Centre re-locating into a new custom built facility from their current location in a Rio Tinto building. The Lifestyle Centre wrote to Councillor Dias, expressing their interest on 29<sup>th</sup> October 2013 but was late informed that due to a reduction in the scale of the CHUB there would not be a suitable location for The Lifestyle Centre to move into.

Subsequently, Mr Kerr has stated that he has initiated contact with the Shire planning department, Mr Brian Cameron on 11 March 2014 to investigate altering and expanding their current facility.

Additionally, Mr Kerr has advised that he was then requested another Councillor consultation on 3 April 2014 to inspect the Paraburdoo Sports Pavilion, a Shire of Ashburton building, to assess its suitability for the relocation of The Lifestyle Centre.

On 9 April 2014 the Paraburdoo Sports Pavilion was again further inspected by members of The Lifestyle Centre committee who tabled a list of concerns, issues and proposed solutions. These issues included the displacement of current clubs, tenants and occupants of the building and the costs of relocating them elsewhere. The Lifestyle Centre also suggested substantial costs required to make the building fit-for-purpose as a gymnasium should be borne by the Shire of Ashburton.

In late April 2014 the Shire of Ashburton facilities team became involved and Executive Manager of Community Development, Deb Wilkes wrote to The Lifestyle Centre requesting the committee to submit a business case indicating all of the costs associated with the proposed relocation and the community benefits.

Based on the submission document from The Lifestyle Centre, the Shire of Ashburton Community Development Team have put together a brief business case outlining the benefits to the community, the impact on all vested parties and estimated costs associated with relocating The Lifestyle Centre from its current location into the Paraburdoo Sports Pavilion.

#### 2.0 Scope and Evaluation

#### 2.1 Background

The Paraburdoo Sports Pavilion facility was built in the late 1950's by Hamersley Iron/Rio Tinto Iron Ore and developed for an operational life of approximately 30 years. The ageing building whilst still useable became the responsibility of the Shire of Ashburton.

The location of the Paraburdoo Sports Pavilion is central to the sports precinct and education facilities, show in *Diagram 1*. This area includes a playground, two oval, bowling club, squash courts, tennis courts, toy library, swimming pool, netball courts skate park, enclosed cricket area and education facilities.

Diagram 1- Paraburdoo Sports Precinct

Research commissioned by the Western Australian Department of Sport and Recreation highlights the social and economic benefits that can be delivered to a community through participation in sport and recreation activities:

Sport and recreation provides the catalyst for community gatherings, from small functions to major events, where people play, talk and share experiences. Importantly it has a positive effect that reaches many levels in our society. It is an

*important thread that ties our social fabric. (Western Australian Department of Sport and Recreation, ibid pg8)* 

When considering the demographics of the town of Paraburdoo it is important that all demographics are taken into account with regards to current and future usage of town facilities including the building and improvement to those facilities. *Table 1* Shows the resident population for Paraburdoo as of 2011 is 1,509 persons.

#### 2.2 Current Usage of the Paraburdoo Sports Pavilion

The Paraburdoo Sports Pavilion currently has seven sporting and community groups using various areas of the complex. The following is the list of groups and clubs using the Paraburdoo Sports Pavilion of which several have current leases over areas of the facility.

- 1. Netball Club
- 2. Swimming Club
- 3. Toy Exchange Library
- 4. Squash Club
- 5. Konga
- 6. Sunshine Playground group
- 7. Para Fit

Para Fit	20 per class expanding	Requesting 5x per week					

 Table 4 – Memberships of existing Paraburdoo Sports Pavilion groups

Based on the population census of 2011 it would appear that in the age range of children 0-4 years, the Toy Exchange, Konga and Sunshine Playgroup have a current opportunity for expansion.

With the above in mind, it would take further investigation to look into the demographic of women aged 25-34 years with the opportunity of expansion of membership, due to their only being 151 women in that age range during the census and a lesser amount of 46 in the lower age of 20-25 years of age.

The Paraburdoo Sports Pavilion facility floor plan in **Diagram 2** below shows the overlap of usage by current sporting groups. Where there are multiple lines it shows where multiple groups are currently using the same area.

#### 2.3 Proposed Future Usage request for the Paraburdoo Sports Pavilion

The Shire of Ashburton received a letter dated 1 May 2014 from The Lifestyle Centre which was in response to a letter sent on 22 April 2014 sent by Deb Wilkes requesting The Lifestyle Centre to provide details of their proposal and business case including answers to several questions which would need to be clarified. *(refer to: Attachment 1)* 

From the information provided by The Lifestyle Centre a summary of the group's details and suggested future usage requests of the Paraburdoo Sports Pavilion are listed below:

#### 2.4 Expansion of Membership of The Lifestyle Centre

In the letter dated 1 May 2014 from The Lifestyle Centre a breakdown of statistics was not provided on membership demographics. The only note was that membership was not available to persons under the age of 16 years.

#### 2.5 Background of current location of The Lifestyle Centre

The current location of the Lifestyle Centre is in a facility owned by Rio Tinto. The facility is approximately 10m wide by 30m long. The Lifestyle Centre have sole occupation of the facility.

Additionally the following was provided:

- In the current location centre is open 24 hours a day, 7 days per week
- 2 paid staff members
- Rio Tinto provide electricity
- Rio Tinto provide cleaning through ESS
- Rio Tinto building maintenance is provided

Please now refer to **Attachment 1** questions 1-4 relating to the proposal of The Lifestyle Centre with relocation to the Paraburdoo Sports Pavilion from their current location.

#### 2.6 Combined gym/pool membership

A request has been made to combine the membership of The Lifestyle Centre with the pool membership. The pool is operated by the Shire of Ashburton.

Currently the pool operates at \$4 per entry and has an average entry of 50 persons per day in peak with an overhead cost of approx. \$35 per entry. A combined entry would give Lifestyle members entry to the pool for only \$260 more but in affect the pool would lose \$90 on each adult membership.

By combining a gym/pool family membership it would require further investigation, as the gym "family membership" is not for persons under the age of 16, whereas the "Pool family membership" is for adults and children under the age of 16.

Please now refer to **Attachment 1** question 5 in response to the question relating to this proposal.

#### 3.0 Stakeholder Requirements

#### 3.1 Why the project is needed

The town of Paraburdoo is currently moving forward with the Paraburdoo Community HUB project. The CHUB project will be a major benefit to the community with a substantial upgrade to facilities within the town.

A purpose built community gym is not included in the proposed scope of works for the CHUB.

The Lifestyle Centre are currently in a space that is not large enough accommodate their projected increase in membership. With expected growth and a facility that is already too small, The Lifestyle Centre feel this move is paramount. The current facility is struggling to cater for high daily membership numbers which has identified a short fall, especially in relation to the Occupational Health & Safety standards and personal hygiene.

The challenge that The Lifestyle Centre faces is that they have very minimal funds and believe they have identified a community need for an alternative facility. Reasons for relocation are;

Listed below are the reasons highlighted by Mr David Kerr justifying the current need to relocate The Lifestyle Centre to the Paraburdoo Sports Pavilion:

- relocation into a bigger building to spread the equipment properly
- a larger facility to support new starters, young adolescents, experienced gym users and those recovering from illness, injury or simply keen to make a lifestyle change
- improved male and female toilet facilities
- a separate area with the potential for exercise classes
- a space for ladies and mums to feel comfortable exercising
- opportunities to possibly use a space and offer a crèche to encourage mums in town with children under school age to have a facility that supports health and wellness
- a facility that could offer targeted exercise sessions or programs to young people during school holidays
- better utilisation of the Sports Pavilion
- a gymnasium that would be equal quality to those available in metropolitan cities
- start the creation of the HUB feeling given the increased traffic
- better utilisation of the Paraburdoo pool given the location of the gym post workout

#### 3.2 Feasibility Considerations

#### 3.2.1 Technology & System Feasibility

An inspection of the Paraburdoo Sports Pavilion has revealed that a major upgrade of electrical facilities would need to be undertaken. Although a fairly recent upgrade of the electrical system was undertaken to cope with the current groups and clubs using the facility in early 2014 this would not cope with the intended occupational use by The Lifestyle Centre.

Exercise machines require several general power outlets. Other electrical devices and technological equipment would need to be installed are security cameras, swipe card systems and electronic door locks.

#### 3.2.2 Economic Feasibility

All structural building costs, works, refurbishment and associated costs to restore the building and bring it up to current requirements of The Lifestyle Centre have been requested to be covered by the Shire and Rio Tinto.

The cost of power will increase with increased usage and these expenses are yet to be negotiated between The Lifestyle Centre and Shire of Ashburton.

#### 3.2.3 Legal Feasibility

All upgrades require Council approval and are to be completed by qualified and certified companies.

#### 3.2.4 Operational Feasibility

The upgrades to the facilities are likely to solve problems associated with The Lifestyle Centre' need for more space for gym operations.

The current staffing of two part time persons would operate the facility. As the current building is owned by RTIO they have paid for cleaning and minor maintenance. With the propose move to the Sports Pavillion these costs would now need to paid by either The Lifestyle Centre or the Shire of Ashburton.

#### 3.2.5 Schedule Feasibility

A timeframe for the upgrades to the facility has not been set, but Capital Expenditure Request's have been submitted to Council for approval.

#### 3.3 Evidence of the current and projected demand for products and services

The Lifestyle Centre is a not for profit organisation that has been running in Paraburdoo for the past 6 years. In the 2012-13 financial year, the Lifestyle Centre had 144 single memberships and a further 94 family memberships, totalling 345 paid members.

On average the Lifestyle Centre was accessed 1236 times per month (41 people per day), controlled by a swipe card security access system. The Lifestyle Centre is a 24 hour gym, with peak operational periods between 4:30am – 9am and 4pm –8pm.

The Lifestyle Centre is currently responsible for the care and maintenance of all gym equipment and supporting infrastructure.

#### 3.4 Reasons for the relocation and upgrade

The new facility would provide more floor space, use of pool facilities, improved toilet facilities and change rooms, as well as a better utilisation of the Sports Pavilion by only one group.

#### 3.5 Consequences of the project not proceeding

If this project does not proceed The Lifestyle Centre will continue to persevere with the current complex 'as is'. This will mean that the likelihood of The Lifestyle Centre reaching forecasted member growth numbers is low.

Alternatively The Lifestyle Centre could explore an option of expanding their current facility, understanding the need to clarify with the planning department of the Shire of Ashburton what building codes and other requirements are needed to alter the current Lifestyle facility.

The consequences to the existing users of the Lifestyle building may mean less exercise space during peak usage times.

Some of the building maintenance and structural defects highlighted in the inspection of the facility by the Committee from The Lifestyle Centre will continue to degrade.

#### 3.6 Beneficiaries from the project

The targeted population who will benefit from this project are current and potential members of The Lifestyle Centre who currently number 345 persons.

Due to the membership of the gym being from the age of 16 years and older the maximum membership potential, according to the bureau of statistics census of

2011 could reach approx. 788 persons if every male and female in Paraburdoo between the age of 16 and 44 years joined *(ref. Table 6)*. Additional considerations to this amount could also include RioTinto Fifo workers. No information regarding this possibility has been explored.

	Males	Females	Persons	
Age groups:				
15-19 years	28	28	56	
20-24 years	52	46	98	
25-34 years	189	151	340	
35-44 years	166	128	294	

#### Table 6 – Projected Membership numbers

Source base : AUSTRALIAN BUREAU OF STATISTICS 2011 Census of Population and Housing

#### 4.0 Consideration and Selection of Preferred Options

#### 4.1 Options considered to address the need for a larger facility

The alternative was for The Lifestyle Centre to be incorporated into the Paraburdoo HUB, which is no longer possible. Another alternative was to expand their current premises, which has not been fully explored with Building Regulation Services at the Shire of Ashburton or relocate to another Rio Tinto facility.

#### 5.0 Project Budget and Budgetary Implications

#### 5.1 Estimated Budget forecast of works

Upgrading the Paraburdoo Sports Pavilion				
Project Item	Total (ex gst)			
Air conditioning	60,000			
Major Power supply upgrade	30,000			
Re-Flooring of main hall	100,000			
Acoustics dampening of main hall	30,000			
Additional Power Points	6,000			
Upgrade of toilet facilities	120,000			
Structural Repair of Walls	40,000			
New lock system on all doors	25,000			
Security System	8,000			
Refurbishing and Repainting	15,000			
Replacement of windows at the front of the hall	70,000			
Signage	6,000			
Complete interior and exterior renovation	20,000			
Project management costs, reports (eg engineering				
and structural safety ) permits, licenses	100,000			
TOTAL				
Total (GST inclusive)	\$ 630,000			

Please note these are initial estimates and would require further investigation as to the full scope of works to be carried out with additional quotes to follow.

### 5.2 Project funding – including capital and recurrent expenditure, consumables, maintenance, power, cleaning and ongoing support

The capital expenditure request for the upgrade to the facility is proposed to be funded through:

- Shire of Ashburton Capital Expenditure Request
- Exploration of donations from Rio Tinto
- Rent (a discussion of \$300 per year has been suggested verbally)

The ongoing operational costs of the facility proposed by The Lifestyle Centre to be negotiated with the Shire of Ashburton including:

- Electricity
- Cleaning
- Maintenance of the building

#### 5.3 Ongoing costs during and after implementation

Ongoing costs would need to be negotiated prior to start and prior to any lease agreements signed.

#### 5.4 Budget implications if other sources of funds are not yet approved

If funding is not approved the project will not go ahead. Works on the project will not commence if funding is not available.

The Lifestyle Centre will be forced to look for alternative locations and the current clubs and groups will use the facility until it is condemned or until finances are sourced to erect new facilities.

#### 6.0 Procurement Planning

#### 6.1 Relevant works

Chosen Contractors quotes on the works will be required to have experience in major commercial building, structural and renovation works.

#### 6.2 Deliverance of the project within the timeframe and budget

Once approval commences it will be within the scope of the Project Manager to deliver the project on time and within the budget provided.

#### 6.3 The Implementation strategy

To be developed by the project management team.

#### 6.3.1 How the project will be implemented

The projected will be implemented in stages and controlled by the project manager.

#### 6.3.2 List of milestones and key dates

Task	Date
Council approvals	
Project planning	
Full building inspection	
Preparation of tender/quotes	
Issuing of tender	
Site works commence	
Construction starts	2015/2016
Project 50% complete	
Project completed	Approx. 12 months after construction
	commences

#### 6.3.3 Changes within work practices during the scope of works

If changes are required to working practices an extra contingency cost will be factored into the overall final budget

#### 7.0 Financial Risk

#### 7.1 Potential risks identified.

- Risk 1: Funding will not be approved
- Risk 2: Project expenses escalate above project funding
- Risk 3: No funding is sourced from Rio Tinto
- Risk 4: Relocation of existing clubs and groups to another facility cannot be undertaken

#### 7.2 The likelihood of the risks occurring and how they will be managed

Risk 1: Likelihood: Moderate – If funding is not provided project will need to be postponed until adequate funds are sourced.

Risk 2: Likelihood: High to Moderate – Estimate only have been used at this stage, formal quotes/ tenders have not yet been obtained

Risk 3: Likelihood: High – Rio Tinto has not committed to any funding for The Lifestyle Centre relocation.

Risk 4: Likelihood: Medium– The clubs currently occupying the centre would either cease to exist or be displaced as no other facilities have been currently identified to relocate them to. RTIO have indicated they would not be able to relocate existing clubs to the premises currently used by The Lifestyle Centre

**7.3** Annual capital and operating costs over the life of the project: Not available at this point

#### 7.3.1 Identify total cost of ownership.

Project Expense + Operating Costs (Upgrade of facilities + Electrical Usage + Cleaning, Repairs & Maintenance Costs) = Total Cost of Ownership \$630,000 + \$12,000+\$25,000 = \$667,000 + GST for the first Year

7.3.2 Identify potential revenue

Leasing fees to be determined

**7.3.3 Identify savings and how savings will be used** No savings can be identified.

#### 8.0 Socio-Economic Evaluation

#### 8.1 The benefits and costs

Benefits:

- the opportunity to move into a bigger building to spread the equipment properly
- a facility that supports new starters, young adolescents, experienced gym users and those recovering from illness, injury or simply keen to make a lifestyle change
- improved male and female toilet facilities
- a separate area with the potential for exercise classes
- a space for ladies and mums to feel comfortable exercising
- opportunities to possibly use a space and offer a crèche to encourage mums in town with children under school age to have a facility that supports health and wellness
- a facility that could offer targeted exercise sessions or programs to young people during school holidays
- better utilisation of the Sports Pavilion
- a gymnasium that would be equal quality to those available in metropolitan cities
- start the creation of the HUB feeling given the increased traffic

Costs:

• \$630,000 + GST (to upgrade the facilities)

Notes:
 The negative outcome for the Nameless Valey Camp is due to numerous allocations/recoveries for usage of the Camp not being processed and the Camp is not expected to make a profit as we brought the units from Millstream and set them up here to help cater for works like the Town Centre. Unfortunatly we still pay rental on Camp

# Onslow Chamber of Commerce and Industry – Ward Review Submission 2014

# 1 BACKGROUND

The Onslow Chamber of Commerce and Industry (OCCI) was incorporated in May 2004 under the Associations Incorporation Act 1987. The OCCI is a democratic, non-party political body. Its purpose is to act as an advocate for local Business and Industry and those who wish to support the economic development of the Onslow Community.

The OCCI represents the views of members at community level and to government. The OCCI has grown from 15 business groups to 55 over recent years and the OCCI is now positioned as a significant point of reference and action within the community.

Onslow has been undergoing significant change and development that is considered unprecedented. This has been a huge responsibility to place on the shoulders of one elected member. In the interests of good governance and sound decision making the OCCI would like to petition the Shire of Ashburton (SOA) and the Local Government Advisory Board to seriously consider a review of the ward boundaries to support increased representation of the Onslow region.

Given the significant resource operations and the resulting populations in the towns of the SOA, the below submission seeks to ensure appropriate representation of all the major communities of the shire in line with the Local Government Guidelines.

The OCCI's submission is not intended to be based solely on existing electorate figures, but also on estimated changes in the number and distribution of Local Government Electors forecasted to take place in the next 5 years. These changes come with an incredible burden of responsibility and will impact the SOA considerably in the areas of maintenance, management and financial.

# 2 SHIRE OF ASHBURTON DEMOGRAPHICS

The Shire of Ashburton (Shire) is a unique Municipality -

- vast,
- overall low population,
- Nationally significant resource development and pastoral operations are the key industry.
- Significantly remote communities

1

Over the years the Shire has tried to equally represent constituents across the Shire, and as populations were predominately low this was mostly accepted.

Recent resource developments in the vicinity of \$90 Billion have changed the economic landscape and review is definitely required to assess whether one Councillor for 50 people is appropriate when others are representing 500 or so. Issues such as Fly In Fly Out (FIFO) further complicate matters and increase the large numbers even more.

The SOA has developed significantly over the last 10 years. Current representation is antiquated and not fair to the greatest proportion of the population. The wards of Tablelands and Ashburton are grossly over represented and communities/ wards of Tom Price and Onslow are experiencing an underrepresentation. Given the developments across the SOA ward redistribution would ensure electoral equality and establish appropriate representation going forward for the next 10 years.

Growth is going to continue in the key centres over the next 8 years. It is considered prudent therefore to consider this projected growth in the current review (even though not usually considered) to ensure good governance and electoral equality into the future and to save the ratepayer money having to further undertake reviews when circumstances change.

The town of Onslow in particular continues to experience rapid growth, due primarily to the presence of Chevron's \$29 billion Wheatstone LNG and BHP's Macedon gas projects. This growth includes an anticipated population increase from 600 to 2,300 by 2018 and by more than 3,300 into the future (Pilbara Cities August 2012). The impact on Onslow is - and will continue to be - significant. The current and future impacts apply both socially, environmentally and economically.

The projected growth is in excess of 75% and is considered to be largely unprecedented in the developed world.

This circumstance therefore requires significant governance and an improvement in electoral equality to ensure sound decision making and representation. The responsibility of the Local Government to represent current and future constituents, maintain the culture and essence of the regions and lobby for increased local content when making significant State and National influenced decisions is profound.

In reality, the achievement of absolute electoral equality in unlikely to be attainable (particularly in the Shire of Ashburton) and there must be a degree of flexibility. However the OCCI believes that the aim is to keep variances in the number of electors each councillors represent to a minimum.

# **3** ELECTORAL REPRESENTATION

The OCCI would like the SOA to consider **Option 3**. This option adequately provides for increased representation in Onslow and surrounding areas, whilst ensuring that Tom Price and Paraburdoo continue to be adequately provided for.

The OCCI considers the following Councillor breakdown to be acceptable -

2

- o West Ward 2 Councillors,
- o Southeast Ward 6 Councillors and
- o North Ward 1 Councillor.

This Option is preferable to the OCCI as it provides for increased representation of Onslow and Tom Price and calls on all councillors to equally consider the remote and rural regions of the Shire.

#### Improvement in Electoral Equality -

- Tablelands has undergone significant decline over the last 15 years, numbers are not expected to change or improve this is in contradiction to other towns and regions within the Shire.
- Ashburton Has undergone a decline over the last 15 years, numbers are expected to remain stable and whilst representation is important a more generalised view of the ward areas, would see a similar level of representation that they have now.

The OCCI sees the ward structure as essential to the management of the SOA and gives the following reasons of importance –

- Constituents can discuss their concerns with their local councillor who is elected to represent them, is well informed on their local precinct, and is readily accessible.
- Local knowledge is crucial in all areas. Each area in the Shire has a unique history and unique concerns, both existing and emerging, which is best protected by a ward structure.
- Information is readily disseminated through wards.
- Responsibilities are clearly defined and distributed.

#### The Value of Resident Councillors

Not all Councillors can develop adequate expertise across all precincts/ towns. In the ward system proposed elected representatives tend to reside locally and relate personally to local issues. Constituents need to feel adequately represented at the local level by a person, not a policy or a master plan.

The ward structure proposed would allow a Councillor to retain specific portfolio expertise, and have full knowledge of and responsibilities for her/his particular ward.

Reasons for requiring increased representation over Onslow and surrounding areas.

#### • Physical and Topographical features

**Extensive coastline (Inclusive of Thevenard and Barrow Islands)** - that requires improved governance and environmental management into the future. Council has long been petitioning the government and resource companies to open up access to the coastline and increase

accessibility. Growing population numbers will increase the responsibility, management, maintenance and service of the coastline into the future. Council needs to plan for this vast piece of landscape and ensure sound environmental management and an increased level of issues awareness and governance is provided into the future.

**Climate Change Issues** – Onslow and the Shire of Ashburton are equally the highest risk regions in the state from Tidal Surge and Climate Change projections. These issues are highly contentious and require significant strategic and forward planning to insure that the community and its assets are provided for into the future.

#### o Demographic Trends

As previously stated Onslow is undergoing unprecedented growth riding on the wave of the oil and gas sector. The State Governments Department of Planning have been preparing for this eventuality since early 2004. Significant housing and commercial precinct developments are planned along with a substantial increase in Social infrastructure development that will see water and power supplies more than doubled.

It is stated that population forecasting is largely underprovided for given the remoteness of the region. Substantial infrastructure such as a hydrocarbon port, aerodrome and LNG facility have growth precedents in other parts of the world that are far and above those that the State Government is providing for. Whilst FIFO will definitely impact on long term residential and commercial development in Onslow the population projections of 3000 or so are still considered to err on the side of caution. In saying that though elector numbers are expected to significantly increase from current ratio of 1:385.

#### o Economic Factors

#### Land Release

A 300 lot Land release and associated facilities are currently underway in Onslow. Land development master planning has occurred to ensure a population of over 10,000 could be accommodated if required. All supporting infrastructure from critical to social has been planned and is either under construction or planned to be undertaken by 2016.

This level of development will have significant impacts on the local government going forward and sound governance and representation will be required to adequately manage and maintain assets.

#### **Resource Development**

The Western Sector of the Shire has over \$90 Billion worth of Resource development currently being undertaken. Significant projects in the pipeline with opportunities such as uranium, diamonds and water based industries and agricultural spin offs are yet to be realised.

The level of development is huge and too much for one Councillor to appropriately and adequately represent.

#### **Transport and Communication**

The resource developments in the region have seen an increased reliance on roads and highways. The development of a hydrocarbon Port is currently underway, this will have significant ramifications for the region into the future and will enable further port activities into the future. Airports are being established across the Shire and most recently in Onslow; again sound governance and representation is required to ensure that Councils management and maintenance of these assets is appropriate and representative of its constituents.

#### o Community of Interest

It is especially important that Onslow's needs and community interests are more than adequately considered and represented during this time of significant growth and economic activity.

Whilst it is important that the community prospers it is essential that it also maintains its identity and all that it stands for. Onslow has a noteworthy place in Western Australia history and is the oldest community in the Shire. Maintaining this history and preserving the European and Indigenous heritage requires significant effort, sound planning and decision making and consultation with the community.

Many communities have lost their identity and essence through times of less impact, Onslow residents are committed to maintaining their lifestyle and highly rate the importance of holding on to where they have come from.

#### o Effective delivery of Local Government Services - Management Effectiveness and Efficiency

Given the diverse vast environment that is the Shire of Ashburton, it is particularly important to ensure that the work load of the Councillor is sustainable and fair. With the Council having its head office in Tom Price and minimal executive representation on the ground in Onslow it is essential that Council representation is enhanced to ensure sound representation and an opportunity for constituents and residents to meet with the decision makers of the Council.

CEO visits are limited and whilst the President does currently reside in Onslow this is rarely the case and has seen Onslow miss out on significant opportunities in the past. Generally the President resides in Tom Price and struggles to adequately represent all regions of the Shire.

# 4 CONCLUSION

The OCCI accepts that the achievement of absolute electoral equality for the Shire of Ashburton as a whole is likely to be unattainable. However we consider that, if electoral imbalances are to be minimised, the aim of electoral equality should be the starting point of any review. It is essential that the review provides for enough people with enough time on Council to govern.

We therefore strongly recommend that electoral equality be the starting point of the current review and adjustments thereafter to reflect relevant factors such as community identity and interests.

Options 3 best overcomes the issues and concerns raised in the OCCI submission and it is strongly requested that Council and the Shire consider the interests of Onslow and its community when making representation to the Local Government Advisory Board.

## Summary

This agenda item details the proposed closure of Road No: 1644 which runs from the Mount Florence Homestead to the Hamersley Homestead and the request to amalgamate this section of road into Hamersley Iron's Rail Lease as shown on the attached Plan No: PDE0085532v1.

### Background

This section of Road No: 1644 was dedicated via gazettal notice dated 1 April 1904. The road from Mount Florence Homestead down to south west of the Fortescue River still exists, however beyond this point the Road is no longer used, it is overgrown and has now virtually returned to its natural state.

This section of the road is of interest to Hamersley Iron (HI) because the redundant tenure corridor severs the company's rail lease at a number of locations. This creates additional responsibilities that require specific actions which are appropriate only when dealing with constructed roads. HI are seeking Council's support to close this section of the road under section 58 of the Land Administration Act 1997 and that Council recommend to the

Department of Regional Development and Lands that this section of road through HI's rails lease No: 3116/4984 be amalgamated into this lease.

#### Comment

This road is not named nor maintained by the Shire. A plan of the road alignment is attached. If Council agrees to this recommendation to close the above named road procedures will commence with advertising the intention. If adverse comments are received a report will be prepared for Council consideration.
