Cr D Dias, Paraburdoo Ward

At the January 2018 Council Meeting, Cr Dias was approved as a 'Leave of Absence.' Cr Dias is present at this meeting.

4. QUESTION TIME

4.1 RESPONSE TO PREVIOUS PUBLIC QUESTIONS TAKEN ON NOTICE Nil

4.2 PUBLIC QUESTION TIME

The following question has been asked:

4.2.1 Mr Jeffrey Carig: 242 Kurrajong Street, Tom Price.

Q1. Question:

I would like to know what the Council is doing to secure local jobs now and into the future with the eventual introduction of Automated Haulage Systems at Paraburdoo and WTS/TP mine sites. This will effect local jobs in both Paraburdoo and TP. The company we feel are not transparent about their intentions to introduce AHS and I am seeking support from Councillors to begin consultation discussions with the company to re-train, upskill and re-train workers into the jobs of the future at Rio Tinto at these residential mine sites.

Response:

Whilst the Shire is aware that certain mining companies are introducing 'Automated Haulage Systems' at their mining operations, it is the role and responsibility of those companies and the State Government to undertake retraining as necessary.

4.2.2 Noni Rumusud, 622 McCrae Avenue, Paraburdoo.

Q1. Question:

Last week I was chased by a bull. I was just walking around the hotel on my break, when the bull started to chase me. Luckily I was near our backyard so I ran in and closed the gate. Now my only concern was if it was going to hurt me and who was going to be responsible for my hospitalisation. And it also scares me because even my son has been chased by one as well, and I don't want to wait for someone to get injured really badly.

Response:

Thank you for your concerns in relation to the cattle sighted in Paraburdoo. The question has been taken on notice and will be addressed at the next Ordinary Meeting of Council to be held 12 March 2019.

4.2.3 Benjamin Garlett, 402 DeCorsey Avenue, Paraburdoo.

Q1. Question:

I would like to know what the Shire is doing about the cows coming into Paraburdoo. Last week I seen a cow chasing a man while it was a funny sight, since he was able to get away it got me thinking who will be responsible if he had been badly injured or worse still if it was a child. I was telling my friends this funny story, and was surprised to hear that they all had these similar events. So this is not an isolated incident.

Response:

Thank you for your concerns in relation to the cattle sighted in Paraburdoo. The question has been taken on notice and will be addressed at the next Ordinary Meeting of Council to be held 12 March 2019.

5. APPLICATIONS FOR LEAVE OF ABSENCE

Council Decision

MOVED: Cr P Foster

SECONDED: Cr L Rumble

That Council approve the application for leave of absence from Cr Dias for the Ordinary Meeting of Council being held on 23 April 2019.

CARRIED 8/0 Councillors White, Rumble, Dias, Thomas, Foster, Lynch, Gallanagh and de pledge voted for the motion

6. DECLARATION BY MEMBERS

6.1 DUE CONSIDERATION BY COUNCILLORS TO THE AGENDA

All Councillors noted that they had given due consideration to all matters contained in the Agenda presently before the meeting.

6.2 DECLARATIONS OF INTEREST

Councillors to Note

A member who has an Impartiality, Proximity or Financial Interest in any matter to be discussed at a Council or Committee Meeting, that will be attended by the member, must disclose the nature of the interest:

- (a) In a written notice given to the Chief Executive Officer before the Meeting or;
- (b) At the Meeting, immediately before the matter is discussed.

A member, who makes a disclosure in respect to an interest, must not:

- (a) Preside at the part of the Meeting, relating to the matter or;
- (b) Participate in, or be present during any discussion or decision-making procedure relative to the matter, unless to the extent that the disclosing member is allowed to do so under Section 5.68 or Section 5.69 of the *Local Government Act 1995*.

NOTES ON DECLARING INTERESTS (FOR YOUR GUIDANCE)

The following notes are a basic guide for Councillors when they are considering whether they have an interest in a matter.

These notes are included in each agenda for the time being so that Councillors may refresh their memory.

- 1. A Financial Interest requiring disclosure occurs when a Council decision might advantageously or detrimentally affect the Councillor or a person closely associated with the Councillor and is capable of being measure in money terms. There are exceptions in the *Local Government Act 1995* but they should not be relied on without advice, unless the situation is very clear.
- 2. If a Councillor is a member of an Association (which is a Body Corporate) with not less than 10 members i.e. sporting, social, religious etc), and the Councillor is not a holder of office of profit or a guarantor, and has not leased land to or from the club, i.e., if the Councillor is an ordinary member of the Association, the Councillor has a common and not a financial interest in any matter to that Association.
- 3. If an interest is shared in common with a significant number of electors or ratepayers, then the obligation to disclose that interest does not arise. Each case needs to be considered.
- 4. If in doubt declare.
- 5. As stated in (b) above, if written notice disclosing the interest has not been given to the Chief Executive Officer before the meeting, then it **MUST** be given when the matter arises in the Agenda, and immediately before the matter is discussed.
- 6. Ordinarily the disclosing Councillor must leave the meeting room before discussion commences. The **only** exceptions are:
- 6.1 Where the Councillor discloses the <u>extent</u> of the interest, and Council carries a motion under s.5.68(1)(b)(ii) or the *Local Government Act*; or
- 6.2 Where the Minister allows the Councillor to participate under s.5.69(3) of the *Local Government Act*, with or without conditions.

Summary

The purpose of this agenda item is to report back to Council on the progress of the implementation of Council decisions.

Background

The best practice in governance supports the regular review of Council decisions to ensure that they are actioned and implemented in a timely manner.

Comment

Wherever possible, Council decisions are implemented as soon as practicable after a Council meeting. However, there are projects or circumstances that mean some decisions take longer to action than others.

This report presents a summary of the "Decision Status Reports" for Office of the CEO, Corporate Services, Infrastructure Services, Community Services and Property and Development Services.

Statutory Environment

Section 2.7 of the Local Government Act 1995 states:

"Role of council

(1) The council —

- (a) governs the local government's affairs; and
- (b) is responsible for the performance of the local government's functions.
- (2) Without limiting subsection (1), the council is to -
 - (a) oversee the allocation of the local government's finances and resources; and (b) determine the local government's policies."

The above section of the Act notwithstanding, there is no specific legal requirement to present such a report to Council or for Council to receive or consider such a report. Given it is always 'received', it could simply be provided to elected members via weekly or monthly updates, such as in the weekly Information Bulletin. The decision to retain the report in the Council's monthly agenda is entirely Council's prerogative. Staff acknowledge the critical and ongoing nature of the document, in that Council 'speaks by resolution'.

Summary

The purpose of this agenda item is to report to Council for information, use of the Common Seal, actions performed under delegated authority requiring referral to Council and a copy of the Tender Register, for the month of January 2019.

Background

Council has historically sought a monthly update of the more significant activities for the organisation relative to (1) use of the Common Seal, and (2) actions performed under delegated authority requiring referral to Council as per the Shire of Ashburton Delegated Authority Register 2019.

Comment

A report on use of the Common Seal, relevant actions performed under delegated authority and the Tender Register has been prepared for Council.

Summary

At the 18 December 2018 Ordinary Meeting of Council, it was resolved that the Chief Executive Officer (CEO) would prepare a draft submission in relation to the development of a new *Local Government* Act for Western Australia.

The Department of Local Government developed detailed Discussion Papers for each of the 11 themes with accompanying questionnaires and are accepting responses from Local Governments, individual Elected Members, Officers and the general community until 31 March 2019.

The Executive Management Team has reviewed the discussion papers, along with Western Australian Local Government Association's (WALGA) advocacy position on each theme and support WALGA's position on each theme. Council is recommended to support WALGA's position on each theme.

Background

The Minister for Local Government commenced a review of the *Local Government Act* with both a community and a Local Government consultation process in 2017. WALGA conducted a comprehensive consultation process with member Local Governments, resulting in the adoption of policy positions on Phase 1 of the *Local Government Act* by State Council in December 2017 and March 2018. The Minister announced the consultation process for Phase 2 of the *Act* review in August 2018, with 11 themes arranged under 'Smart, Agile, Inclusive':

Smart

- Administrative Efficiencies
- Local Laws
- Council Meetings

• Interventions

Agile

- Beneficial Enterprises
- Financial Management
- Rates

Inclusive

- Community Engagement
- Integrated Planning and Reporting
- Complaints Management
- Elections

Comment

WALGA is facilitating a means for local governments to offer submissions on any aspect of the eleven themes discussed under the 'Smart, Agile, Inclusive' headings or any other matter of interest that can then be submitted into the *Act* review process.

The Executive Management Team has reviewed the eleven themes and are in support of WALGA's position on each item. Please see **ATTACHMENT 11.3** for detail regarding the position statement.

Additionally, councillors and staff still have the ability to complete individual online surveys via the Department of Local Government website until 31 March 2019, should they wish to.

Further to the attached, it is recommended that the CEO also draft a letter to WALGA supporting their views, with a further request to address the specific issues associated with the Shire of Ashburton concerning members disclosing interests in relation to Sec. 5.69 (3)(a) of the *Act*.

5.69. *Minister may allow members disclosing interests to participate etc. in meetings* (3) On an application under this section the Minister may allow, on any condition determined by the Minister, the disclosing member to preside at the meeting, and at any subsequent meeting, (if otherwise qualified to preside) or to participate in discussions or the decision making procedures relating to the matter if —

- (a) there would not otherwise be a sufficient number of members to deal with the matter; or
- (b) the Minister is of the opinion that it is in the interests of the electors or ratepayers to do so.

The Shire will be seeking for the process to be reviewed, with the view to include a Minister's approval to be set for a period of time as agreed, as opposed to the requirement to seek for each item.

Risk Management

This item has been evaluated against the Shire of Ashburton's Risk Management Policy CORP5 Risk Matrix. The perceived level of risk is considered "Low" and can be managed by routine procedures, and is unlikely to need specific application of resources.

The predominant strategic financial risk that the Council still faces is the pending formal objections to the valuation on the Wheatstone Plant and Barrow Island Plant. The formal objection to the Wheatstone plant refers to 2016/17 and 2017/18 valuations whilst the Barrow Island objection was made in November 2017. Wheatstone is Assessment No. A51628 and has an Unimproved Valuation (UV) of \$17,593,500 with rates levied for 2017/18 of \$6,728,933 and for 2018/19 of \$6.502.047. Barrow Island is Assessment No. A6413 and has a UV of \$13,808,000 with rates levied for 2017/18 of \$5,281,104 and 2018/19 of \$5,167,600.

In Chevron's objection their submitted opinion as to the correct UV's for the two properties are: (i) Wheatstone \$6,572,500; and (ii) Barrow Island \$2,612,500. An objection has been lodged with the State Administrative Tribunal (SAT) with a hearing undertaken on 25 and 26 September 2018. A further two days were scheduled for 30 November and 5 December 2018. A decision will be forthcoming on or before 28 February 2019. If the decision is unfavourable to Council the maximum quantum of liability will be around \$17.5M based on the abovementioned.

To help mitigate the risk with this formal objection Council retains a cash backed Financial Risk Reserve (FRR) with a forecast balance at the end of the financial year (subject to no adverse appeals) of \$12.5M.

This major risk is categorised as potentially *extreme* on the Council's adopted risk management framework and thresholds due to the potential risk being greater than \$5M of current year and a comparable amount to future revenues.

12.2 2018/19 ANNUAL BUDGET REVIEW

DISCLOSURE OF FINANCIAL INTEREST:	The author has no financial, proximity or impartiality interests in the proposal.
PREVIOUS MEETING REFERENCE:	Agenda Item 12.2 (Minute No 402/2018) – Ordinary Meeting of Council 18 July 2018

Summary

This item presents the 2018/19 Annual Budget Review ("the Review") in accordance with the *Local Government Act (Financial Management) Regulations 1996.*

Throughout the July to December 2018 reporting period the budget has been amended for variations as part of the Monthly Finance Statement. This Review recommends additional budget variations in consideration of the Shire's financial performance, financial position and outcomes that are forecast for the end of 2018/19.

Overall the Shires financials for 2018/19 are tracking to Budget. A key focus of the report is the adjustment of \$1,392,769 to the opening position as a result of the auditors sign-off to the 2017/18 accounts. This positive result enables the Shire to continue adequately resourcing its Capital Works program for 2018/19 including its comprehensive roadworks program.

Background

Regulation 33A of the Local Government Act (Financial Management) Regulations 1996 requires local governments to conduct a Review between 1 January and 31 March in each financial year. The review is to be submitted to council within 30 days of its commencement. Council is then to consider the Review to determine whether or not to adopt, any part of the Review or any recommendations made in the Review. If Council does this at this meeting it will meet the required timeframe.

The Shires Review timeframe is as follows:

Activity	Due Date
Shire Officers Review	Thursday, 24 January 2019
Directors and Finance review and report preparation	Wednesday, 30 January 2019
Council meeting to consider Review	Tuesday, 12 February 2019

Comment

Key features of the review include the following:

- **SURPLUS BROUGHT FORWARD**: The 2018/19 budgeted surplus brought forward from 2017/18 was \$10,709,456. After completion of the 2017/18 audit the accounts disclosed an actual carried forward figure of \$12,102,225 representing an increase of \$1,392,769 to the opening position. This was mainly due to accrued WANDRRA income being revised upwards by \$1,783,919.
- **CAPITAL EXPENDITURE**: The adopted 2018/19 Capital Works program comprised of 106 projects totalling \$70,410,893. For July to December the following is highlighted:
 - One project has been removed from the list (Onslow Airport Ground Handling Equipment) due to changes in Airport operations.
 - o 27 projects have been completed either under, over or with zero balance.
 - ICT Hardware 21x desktops / laptop computers.
 - Onslow iMop commercial scrubber.
 - Onslow Airport expansion of retaining wall.
 - Onslow Airport hangar construction.
 - Onslow Depot fencing renewal.
 - Onslow Playground upgrade.
 - Onslow Sports Club upgrade.
 - Onslow Visitor Centre photocopier.
 - Onslow Water Spray Park shade sails.
 - Paraburdoo chook and dog yard upgrade.
 - Paraburdoo disc golf.
 - Paraburdoo iMop commercial scrubber.
 - Paraburdoo Info Bay driveway entry.
 - Paraburdoo Lot 811 Ashburton Avenue distribution board renewal.
 - Road crew 2 x generators.
 - Road crew tray back Ute.
 - Tom Price basketball and netball courts renewal.
 - Tom Price disc golf.
 - Tom Price iMop commercial scrubber.
 - Tom Price multi tyre road trailer.
 - Tom Price multi-purpose plant trailer.
 - Tom Price truck hoist.
 - Tom Price washer and trailer.
 - Tom Price Depot wash down bay.
 - Tom Price Gym and Bowls Club roof upgrade.
 - Tom Price Nameless Valley Rd truck rest stop facilities.
 - Tom Price Waste Site 2 x generators.
 - 12 projects are on hold / off track due to the possibility of works being completed internally or the uncertainty around funding and scope.
 - The remaining 67 projects are on track for completion by end of financial year.
 - The Community HUB in Paraburdoo has been completed for a provisional amount of \$12,580,017 against an original 2017/18 budget of \$15,373,919.

- o Roads:
 - The asbestos related issues surrounding access to the Roebourne Wittenoom Road have resulted in the NTC awarded contract of \$1,338,151 being delayed. Consequently the awarded contract will be re-allocated, in agreeance with NTC to Peedamulla Road. Any future works on Roebourne Wittenoom Road (Original Budget \$1,471,965) can potentially be funded by the abovementioned 2018/19 surplus brought forward of \$1,392,769 (see below Reserve Transfer).
 - WANDRRA AGRN 781 a revised scope of works assessment by MRWA has resulted in a reduction of \$4,438,265. This is due to a perceived overlap / double up with AGRN 743.
- Onslow Tip Closure:
 - The scope of works is reduced due to the abundant natural vegetation growth that has occurred thereby reducing the need for the Shire's re-vegetation program by \$50,000.
- Onslow Airport:
 - The material handling and lifting equipment is not required until 2019/20 funds of \$150,000 can be re-allocated to the taxiway delta reseal.
 - Acquisition of Landside Infrastructure at the Onslow Airport for \$50,000.
- Administration:
 - Information Services currently has a large backlog of records stored at the Tom Price depot – these require scanning for digital access. A new scanner (estimated cost of \$30,000) at the Tom Price Administration Office will remove the need to send the records to Perth and initially save around \$70,000.
- Housing Projects:
 - Purchase of new housing stock, with a Budget of \$1,000,000, has yet to commence and a variation is recommended to reallocate \$400,000 of this allocation to refurbishment / upgrades of existing Shire properties.
 - A Staff Housing Refurbishments Budget of \$775,000 has actual and committed expenditure of \$696,115 to December 2018. Refurbishments of four properties have been completed:
 - (i) 556 Margaret Avenue, Paraburdoo;
 - (ii) 787 Larnook Street, Tom Price;
 - (iii) 710 Yiluk Street, Tom Price; and
 - (iv) 604 Boollee Street, Tom Price.

• OPERATING INCOME

- o Rates:
 - Budgeted Rates and Service Charges totalling \$35,082,153 are forecast to remain at current levels with a minor adjustment due to interim rates adding \$101,470.
 - Concessions were granted for eligible GRV–Residential / Community properties - a variation of \$120,000 is recommended as a provision.
- Fees and Charges received for six months to December totalled \$4,104,599 around 50% of the annually budgeted amount of \$8,170,165. The following areas are highlighted from the recommended variations:
 - Onslow Airport 8 flights per week operated between July and December 2018 and this is forecast to continue for January to March 2019. From April to June 2019 a reduction to 5 flights per week is forecast. An increase to the following income accounts is recommended:

 Landing Fees 	\$142,748
 Passenger Tax 	\$396,510
 Security Screening 	\$103,719

- Year to date Interest Earnings on investments are \$671,262 or 62% of the currently budgeted amount of \$1,082,757. No variation is recommended.
- Due to the implementation of Council's new Rent Relief Policy, rental income from Staff Housing is significantly reduced with now only a handful of employees (e.g. part-timers) contributing. A reduction of \$100,000 is recommended.
- Nameless Valley Road Truck Stop an error / double entry of \$153,000 was recorded in the original budget. Additionally a decrease to funding of \$77,975 is recommended due to \$75,025 being received in 2017/18.
- Main Roads WA Direct Grant advice received from the Department has resulted in an income increase of \$109,311.
- Amendment to funding agreement WTO Income of \$200,000 for calendar year
 2019 has been confirmed.
- Regional Every Club funding application has been successful and the program will receive income of \$20,000.
- Additional funding of \$20,000 for the Passion of the Pilbara has been secured from the Pilbara Ports Authority.

• RESERVES

 A transfer of \$1,471,965 to the Infrastructure Reserve is recommended (in large part represented by the increase to the adjusted 2018/19 Opening Position). This will provide future funds for potential works on the Roebourne Wittenoom Road once asbestos related issues are addressed.

• OPERATING EXPENDITURE

- Employee Costs actuals are tracking at 44% of annual budget. Contributing factors of travel, relocation expenses, uniforms, conferences, training and accommodation are lower as well as a high rate of vacant positions being unfulfilled.
- Materials and Contract actuals are 35% of annual budget. Areas of underspend include maintenance of buildings, parks, rural and station access roads plus software costs.
- A reduction Housing Subsidy allocation of \$1,181,000
- The Pilbara Regional Council ceased operating in late 2018 with actual expenditure of \$105,000 against a budgeted amount of \$210,000 at the time of its wind up.
- Of the 105 operational budgets kept for Shire Housing 14 of these properties are no longer leased, resulting in a budget reallocation of \$190,046 to Shire Housing maintenance and repairs.
- Interest on Borrowings: Tracking to budget.
- Insurance: Tracking to budget.
- Depreciation: Depreciation has yet to be posted to the accounts (currently a data migration from Asset Management software program 'My Data' to IT Vision software program 'Synergy' is being undertaken to reduce existing expenditure software costs and to maintain a cost effective financial asset register)
- Utilities: Tracking to Budget.
- Kids Sport a refund of \$18,333 was made to the Department of Local Government for unspent funds.

CAPITAL INCOME

- There are no recommended variations to Capital Income.
 - Proposed borrowings for the Paraburdoo Community HUB (\$1.1M) and Onslow Underground Power (\$1.0M) are scheduled for the second half of 2018/19 once costing for each project is finalised.

The full list of recommended budget variations for the Annual 2018/19 Budget Review is attached.

Summary

Correspondence has been received from the Western Australian Electoral Commission (WAEC) requesting that Council give consideration to whether it will be engaging the WAEC to conduct the 2019 Local Government Election as a postal election.

It is proposed that Council, similar to previous years engage WAEC to conduct the Local Government Ordinary Election 19 October 2019 via postal vote.

Background

In accordance with the *Local Government Act 1995*, Local Government Ordinary Elections will be held on Saturday 19 October 2019. Five Councillor terms are due to expire in October 2019:

- Ashburton (1) Cr Rory De Pledge
- Onslow (1) Cr Kerry White
- Paraburdoo (1) Cr Linton Rumble
- Tableland (1) Cr Lorraine Thomas
- Tom Price (1) Cr Peter Foster

The Ordinary Election held in 2017 was conducted by postal vote, with the Electoral Commission appointing a Returning Officer.

It is proposed that Council engage the WAEC to conduct the 2019 Ordinary Election having already received written approval pursuant section 4.20(4) of the *Local Government Act 1995*.

It is necessary for Council to determine, pursuant to section 4.61 (2) of the *Local Government Act 1995*, whether it wishes the election to be managed with external resources, or whether it be a postal election.

Comment

The Shire has received notification from WAEC (**ATTACHMENT 12.3**) that the next local government elections are to be held on 19 October 2019, with an estimated cost of \$20,000 incl. GST. (NB: The estimated cost for the 2017 ordinary election was \$19,000 incl. GST with actual costs of \$15,493 incl. GST). The estimated cost for the 2019 election, if conducted as a postal ballot, is based on the following assumptions:

- 2600 electors;
- response rate of approximately 42%;
- 5 vacancies;
- count to be conducted at the offices of the Shire of Ashburton;
- appointment of a local returning officer; and
- regular Australia Post delivery service to apply for the lodgment of the election packages.

The Shire has traditionally used the WAEC to conduct its elections and it is recommended that this continue as it keeps the political process independent of the Shire's Administration.

Consultation

Executive Management Team Deputy Electoral Commissioner

Statutory Environment

Local Government Act 1995 section 4.20(4) & 4.61(2)

Financial Implications

WAEC is required to operate on a full cost recovery basis, and has estimated a cost of \$20,000.00 including GST. The high level cost breakdown with rounded figures is as follows:

- Advertising \$500 (statutory only)
- Airfares \$800
- Contingencies \$600
- Corporate Costs \$3,500 (Head Office, casual staff, overheads etc.)
- Postage out \$2,200 (regular)
- Printing and election package production \$1,000
- Reply Paid \$1,000
- Returning Officer costs \$8,000 (all inclusive)
- Scanning centre component \$600

Total estimate \$18,200 plus GST (\$20,000 incl. GST)

An allocation of \$20,000 to account no.040222 – Election Expenses will need to be made for the 2019/20 Budget.

Strategic Implications

There are no known strategic implications for this matter.

Risk Management

Appointment of the WAEC to conduct a postal vote election for the 2019 Local Government election will ensure the lowest risk to the Shire in relation to this highly compliance driven process. Adoption of this item has been evaluated against the Shire of Ashburton's Risk management Policy CORP5 Risk Matrix.

The perceived level of risk is considered to be "Low" risk and can be managed by routine procedures, and is unlikely to need specific application of resources.

Summary

For 2018/19 Council's Budget process started in April and continued over several months until adoption on 26 July 2018. Given neighboring Shires adopt in June each year and also that the financial year begins on 1 July 2018 it is preferable and reasonable to seek to adopt the budget earlier.

This report proposes the 2019/20 Budget process be brought forward a month to start as early as March allowing Council the option to adopt the Budget in early July.

Background

All local governments are required to adopt an Annual Budget in accordance with Part 6, Division 2 of the Local Government Act 1995 ('the Act'), Part 3 of the Local Government (Financial Management) Regulations 1996, Australian Accounting Standards (AASB) and the Australian Accounting Standards Board Interpretations (AASBI) which replaces the Urgent Issues Group Interpretations (UIG).

Section 6.2(1) of the Act states Council is to adopt the Budget during the period 1 June to 31 August or seek an extension from the Minister. In accordance with the Act, a local government must adopt its budget by 31 August each year. An important part of the budgeting process is early and thorough preparation and planning. The objective of early preparation is to:

- inform staff, management and councillors of the process and their respective roles; • and
- ensure there is sufficient emphasis on program objectives and outputs rather than • the previous year's activities and inputs.

Comment

For 2018/19 Council's budgetary procedures revolved around the rate-setting process. Each year formulating the Rating Strategy requires considerable time and resources when finalising:

- Rating categories and structure;
- Rate modelling;
- Preparation of Council's Objects and Reasons (Notice of Intention to Levy Differential Rates);
- Inviting and receiving submissions from property holders;
- Community consultation; and
- Application to the Minister.

In addition to the rate-setting process, workshops and planning sessions with Councillors, Executive and Managers are required to be reviewed in the following areas:

- Plan for the Future (Long Term Financial Plan);
- Corporate Planning (Corporate Business Plan);
- Capital Works Program based on long term asset management plans;
- Confirmation of grants for both capital and operational requirements;
- Scale of Fees and Charges for the next twelve months;
- Recurring operating income and expenditure including preparation of detailed salary and wages schedules etc.; and
- Projected cash-flows.

Given the level of forward planning involved to reach budget adoption, early notification is now provided for Councillors to allow re-scheduling of 2018/19 timetables.

If Council does adopt early, it should be noted the following calculations will have to be prepared and calculated based on available estimates at the time of drafting the budget:

- determination of the opening current position from the previous financial year;
- identifying any carry over projects into the new financial year;
- flagging committed funds and excluding these from the brought forward balance in the determination of the current position; and
- establishing if there is a budget deficit or surplus to be carried forward restricted to the prescribed amount.

Therefore it is likely for 2019/20 Council will require a mini Budget for adjustments related to the above estimates. The timing of the mini- Budget could be around September / October 2019. The proposed program of planning sessions and reports is proposed for the 2019/20 Budget process as follows:

Council Meeting	Location	Workshop	Agenda Item
Tuesday 12 March 2019	Onslow	Capex / Grants	Nil
Tuesday 23 April 2019	Tom Price	Corporate Business Plan	Nil

Financial Implications

There is a likelihood the 2019/20 Budget will require a more significant adjustment for the opening position than would usually be the case if the budget was adopted in late July / early August. Therefore it is suggested a mini-Budget be expected around September / October to compensate for this significant adjustment.

Risk Management

Adoption of this item has been evaluated against the Shire of Ashburton's Risk management Policy CORP5 Risk Matrix. The perceived level of risk is considered to be "Low" risk and can be managed by routine procedures, and is unlikely to need specific application of resources.

PREVIOUS MEETING REFERENCE:	Agenda Item 15.1 (Minute No. 108) – Ordinary Meeting of Council 14 February 2017

Summary

The purpose of this report is for Council to consider making the formal request to the Minister for Lands to permanently close the 6,689m² unconstructed section of First Avenue.

Background

At its Ordinary Meeting on 28 January 2015, Council endorsed the allocation of \$15,000 for 50% of the footpath construction costs within the First Avenue road reserve between the Onslow Beach Resort restaurant and the coastline. The remainder of the footpath costs were funded by Onslow Beach Resort and complemented the already completed landscaping and fencing improvement works undertaken by the Onslow Beach Resort.

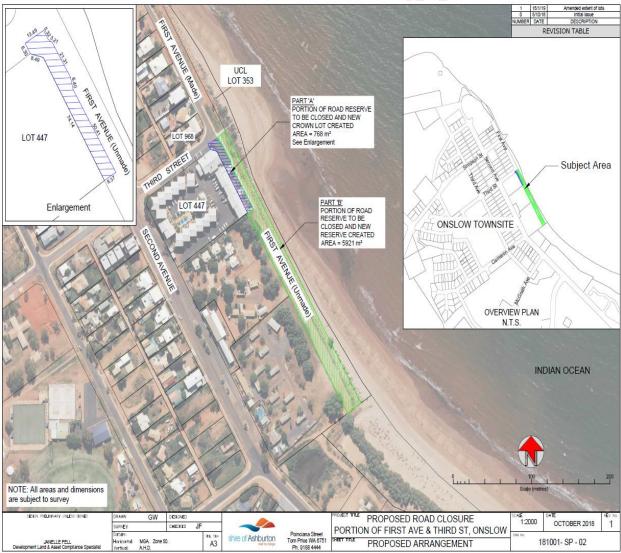

The Onslow Beach Club (OBC) has requested the Shire to grant them some form of tenure for the land on the north-eastern boundary of Lot 447 on Deposited Plan 182626 that is currently developed with a landscaped alfresco dining area. The landscaped area operates as an outdoor extension to the OBC dining facility on what is currently a Public Road. There is no legal opportunity to lease or license a road reserve for purposes other than a road.

Dust pollution was an ongoing issue for the Onslow Beach Resort which resulted in alleviation discussions with Shire Officers. In 2015 Onslow Beach Resort presented a scope of works and plan to Shire Officers requesting support to undertake landscaping, playground, fencing and emergency access works within the First Avenue dedicated road, being Public Road Land ID Number 3488919. A Permit to Work application was submitted by Onslow Beach Resort with works undertaken on email confirmation that the Shire would be issuing a permit early

the following week, however this was never formalised. Shire imposed conditions of approval included:

- 1. Extend Public Liability insurance to include fenced landscaped area;
- 2. Fence the landscaped area with pool fencing that complies with the Shire pool fence regulations;
- 3. Install a water meter, with back-flow prevention, to measure water consumption and pay the water consumption fee as per standpipe fees for Onslow as per Schedule of Fees and Charges as updated yearly;
- 4. Install a 2m wide concrete footpath from the existing First Avenue footpath for the length of the landscaped area. Path construction to the Shire's specifications and satisfaction and compliant with AS1482 (Design for access and mobility);
- 5. Provide an emergency access track between the concrete footpath and seawall of at least 4m wide constructed with a surface of road base material;
- 6. Signage at both ends of the emergency access track indicating "no entry emergency traffic only".

The dust alleviating and beautification project was carried out, fully funded by Onslow Beach Resort. The completed works consist of landscaping, playground, fencing, emergency access and footpath (Shire of Ashburton contributed 50% of footpath construction costs) which is adjacent to the Onslow Beach Resort's premises on Lot 447 on P182626 and is hatched blue and identified as Part A below.

DRAFT LOCAL PLANNING STRATEGY CONSIDERATIONS

The Shire's Draft Local Planning Strategy makes no recommendations specific to this application.

Coastal Hazard Risk Management and Adaptation Plan (CHRMAP) CONSIDERATIONS The Shire's endorsed CHRMAP contains a number of relevant recommendations regarding the land subject to this application.

These recommendations are listed in the 'Comments' section of this report.

As described in the proposed road closure plan, the section of First Avenue proposed to be closed is developed with a section of the seawall along its entire length. Should the road be formally closed, it is proposed that the balance of the proposed road closure not required by Onslow Beach Resort be created as a Crown reserve with a Management Order the Shire for the purpose of 'Coastal Protection and Management'. This reserve and Management Order would more accurately describe the predominant use of the land and ensure the Shire's ongoing use and access to the land.

NATIVE TITLE

Pursuant to the Determination of Native Title WAD 6113 of 1998 Leslie Hayes & Ors on behalf of the Thalanyji People v The State of Western Australia and Others, Native Title does not exist on the section of First Avenue proposed to be permanently closed.

Comment

The purpose of this report is for Council to consider making the formal request to the Minister for Lands to permanently close the 6,689m² unconstructed section of First Avenue. Should the road be formally closed, 768m² of the land would be reserved or potentially leased to the Shire who would then be able to sub-lease or licence the portion for a commercial purpose.

The subject portion of land is formally described as Public Road Land ID Number 3488919. The road closure requires actions under section 58 of the *Land Administration Act 1997* and regulation 8 of the *Land Administration Regulations 1998*.

When considering the permanent closure of a dedicated road, the impact of its closure should be carefully balanced against the benefit to the community.

Summary

A Lease Agreement was entered into between the Shire of Ashburton (Shire) and Tom Price Speedway Club (Speedway Club), commencing 1 December 2015, expiring on 30 November 2025. The leased premises is Reserve 39327 comprising of Lot 53 on Deposited Plan 186853 Nameless Valley Drive, Tom Price.

As there is no longer a Speedway Club committee and the club has been deemed nonfinancial Council support is requested to formally terminate the Lease.

Background

A Lease Agreement was entered into between the Shire and Speedway Club (Incorporation Number A1013544E), commencing 1 December 2015 and expiring on 30 November 2020. One further term of five years, pending approval and expiring on 30 November 2025, is available. The Leased Premises is Reserve 39327, for the purpose of Recreation (Speedway), comprising of Lot 53 on Deposited Plan 186853 Nameless Valley Drive, Tom Price. Commonly known as "the Tom Price Speedway Track", the Leased Premises consists of the 133,118 sqm lot only with all buildings and structures remaining the property of the Speedway Club.

Council were presented with a report outlining non-compliance issues relevant to REC05 -Community Lease and Licence Agreements at the 28 January 2015 Ordinary Meeting of Council. The report outlined legislative non-compliance, proposed solutions, timelines and rectification costs. A number of club representatives advised they were unable to address the safety matters identified in the preliminary inspections due to limited finances. As a result, further inspections were undertaken to compile an *Implementation Plan*, to be enforced over several years, detailing structural reliability, electrical and water supply integrity and priority actions, with Council providing budget allocations to aid in the unsafe/non-compliant matters to be addressed.

ATTACHMENT 13.2

Council approved a donation of \$16,197.32 to the Speedway Club for mini excavator and grader hire for the removal and disposal of several loads of waste after consideration of the application for waste compliance funding at the June 2015 Ordinary Meeting of Council. Furthermore, Council endorsed roll out of Implementation Plan for affected clubs and the allocation of grant funds within the 2016/17, 2017/18, 2018/19 and 2019/20 annual financial budgets (\$200,000 per annum) to assist these clubs to undertake structural works, electrical works and address minimum Health Act requirements.

At the October 2015 Ordinary Meeting of Council, Council endorsed the allocation of \$20,000 cash and \$2,500 in kind to the Speedway Club to assist with compliance. The \$20,000 was to be held in the Shire's municipal fund until the Speedway Club were able to demonstrate full funding and contracts for the demolition of existing and purchase of new portable ablutions. There is no record of these funds being released to the Speedway Club.

A leasing audit undertaken in late 2018 revealed the Speedway Club had unpaid lease fees for 2018/19. Investigations found a former Speedway Club member had been personally paying lease fees for the prior two years (2015/16 and 2016/17) as the club was not active, had no committee, nor was it financial. Accordingly, the Shire's Community Development Officers have offered assistance to officially wind up the club.

Comment

Speedway Club has \$550 in outstanding lease fees for the 2018/19 financial year. A bank statement has not been obtained however the local bank has verbally confirmed the Speedway Club's bank account has no funds nor authorised signatories.

A considerable amount of clean up and make good is required at the Leased Premises to remediate the land to its natural state including the removal of the outstanding items above, including car bodies, scrap metal and light vehicle tyres. Under the terms of the Lease the Shire is able to remediate, clean up and make good the lease area and recuperate these costs from the club, however Speedway Clubs financial status does not allow for this.

Further investigation is required to ascertain suitability for occupancy of each structure on the Lease Premises to ensure the Shire is maintaining good community governance and to protect future Lessees, its members and members of the public. Council will be presented with the outcome of these further investigations to determine the appropriate remediation actions.

Remediation of Reserve 39327 will allow continued use of the site as the Tom Price Nameless Car Club Inc. (incorporation applied for and pending) have expressed a keen interest in leasing the site to provide a safe and controlled environment for burnouts and club meetings. It is proposed lease negotiations are undertaken appropriate to the actions required for site remediation:

taking into consideration the outcome of the investigations required to ensure each structure is suitable for occupancy, which may include documenting staged remediation as budget allows within the Lease.

A change of purpose on the Management Order may also be required from "Recreation (Speedway)" to "Recreation (as deemed appropriate by DPLH)" to accommodate the proposed use by Nameless Car Club.

The follow-up report to Council on each structures suitability for occupancy will include proposed avenues and budget allocations to rectify action items.

Summary

The Lease for the Pannawonica Transit Park, located at 265 Sports Way and Licence for Rooms 16 & 18, D Block, 69 Deepdale Drive, Pannawonica between the Shire and Robe River Mining Pty Ltd expired in late 2018. Council endorsement is requested to execute the new agreements to continue the provision of Shire of Ashburton services to Pannawonica.

Background

The Shire of Ashburton has held the lease for the Pannawonica Transit Park ('Transit Park') since 1993. The Transit Park comprises 4 serviced (power and water) bays and is exempt to several requirements under the *Caravan Parks and Camping Grounds Act* due to the small number of sites available.

The Transit Park is open to the general public with booking and payment being made through the Shire operated Pannawonica Library. The coin operated washing machine and dryer are provided and maintained by the Shire. These appliances are available for public use and are stored in Rio Tinto's shed which also contains ablutions. This shed is not included in the lease and will remain a town asset which Rio Tinto will maintain, clean etc.

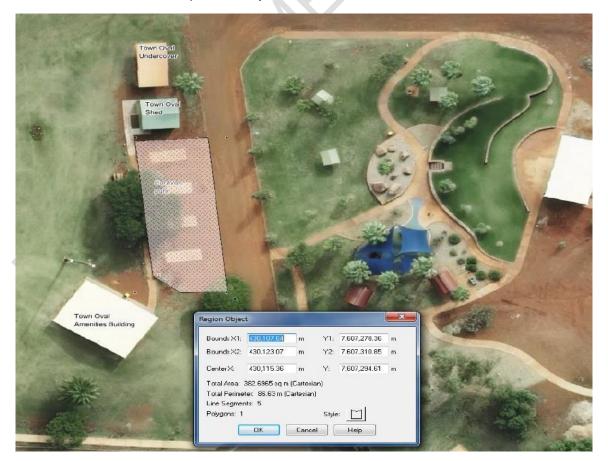

Sodexo's service technicians are engaged as required for the service and maintenance of these appliances. Rooms 16 & 18, D Block, 69 Deepdale Drive have been utilised by the Shire predating 2016 for storage of goods and equipment for delivery of programs under the Community Infrastructure and Services Program (CISP) between the Shire and Rio Tinto.

Comment

All premises located at Pannawonica are within Rio Tinto's Crown Lease 308/1970.

265 Sports Way - Transit Park

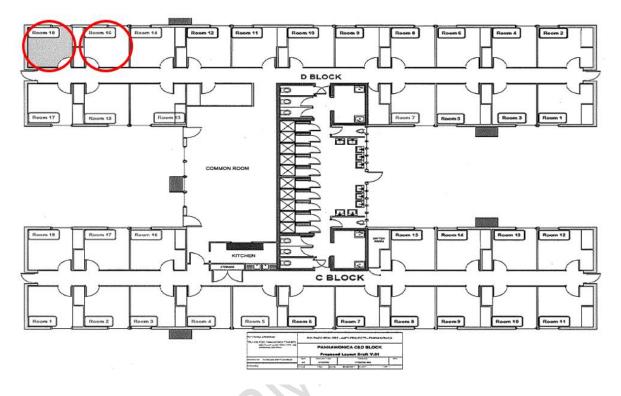

The Shire of Ashburton is responsible to maintain the Transit Park, including the power outlets, hardstand and sullage dump point repairs and the general grounds within the lease boundary. Rio Tinto maintain the grounds surrounding the Transit Park only. Rio Tinto will continue to provide waste management, however this is limited to general household waste only and any bulk items will need to be disposed of by the Shire.

Summary

The Shire has undertaken to purchase an existing dwelling for Shire housing needs at 193 Capricorn Avenue, Paraburdoo. Council is requested to authorise the execution of the purchase with application of the common seal.

Background

The property is a four bedroom, four bathroom dwelling, which has recently been renovated to a high standard and was considered by the Shire to be ideally suited for a transit house scenario or for a shared employee use. The purchase of the property assists in 'freeing up' the residence the Shire currently uses in Paraburdoo as a transit house.

Comment

The Shire has undertaken to purchase an existing dwelling for Shire housing needs at 193 Capricorn Avenue, Paraburdoo. Prior to the purchase, all Councillors were duly notified of the availability of the dwelling for sale and the maximum purchase price. No objection was recorded and accordingly, the offer for purchase was submitted and eventually accepted.

Summary

Application for Miscellaneous Licences 08/171 and 08/70, encroaching Road No. 8400 and 274 respectively, has been referred by Department of Mines, Industry Regulation and Safety (DMIRS) to Council for consideration. Quarry Park Pty Ltd proposes indefinite use of the roads, as access to a proposed salt project, if the mine is developed, and current/pending mining leases. Council support is sought to allow Miscellaneous Licences 08/171 and 08/70 conditional on terms of agreement for use of the Public Roads being negotiated.

Background

Application for Miscellaneous Licences 08/171, encroaching Road No. 8400, and 08/70 encroaching on Road No. 274 has been referred by Department of Mines, Industry Regulation and Safety to Council for consideration. Quarry Park Pty Ltd proposes indefinite use of the road, as access to a proposed salt project, if the mine is developed, and current/pending mining leases.

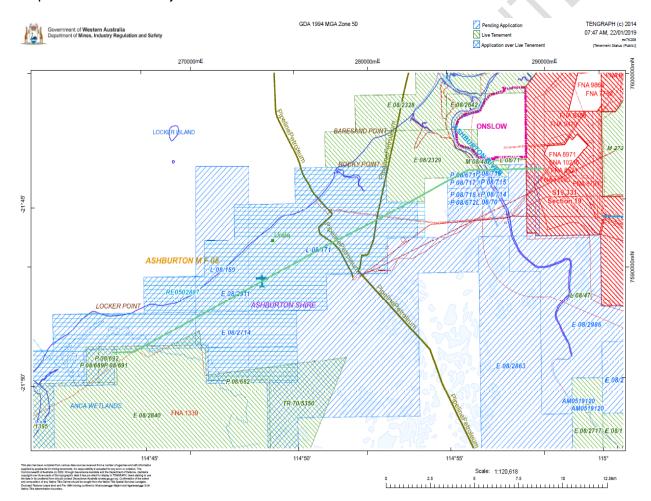

In accordance with section 23 to 26 of the *Mining Act 1978,* mining may be carried out on certain classes of land with the written consent of the Minister for Mines and Petroleum. However, where a road reserve is affected, the Minister for Local Government is to make a recommendation to the Minister for Mines and Petroleum. The Minister for Local Government has given a general clearance provided the matter is first referred to the Local Authority for comment.

Miscellaneous Licence 08/171, for the purposes of a pipeline, a power line and a road, was applied for on 9 January 2019. Objections to the Application close on 13 February 2019. Quarry Park Pty Ltd propose to construct a road on L 08/171, being Road No. 8400, to provide access to a proposed salt project.

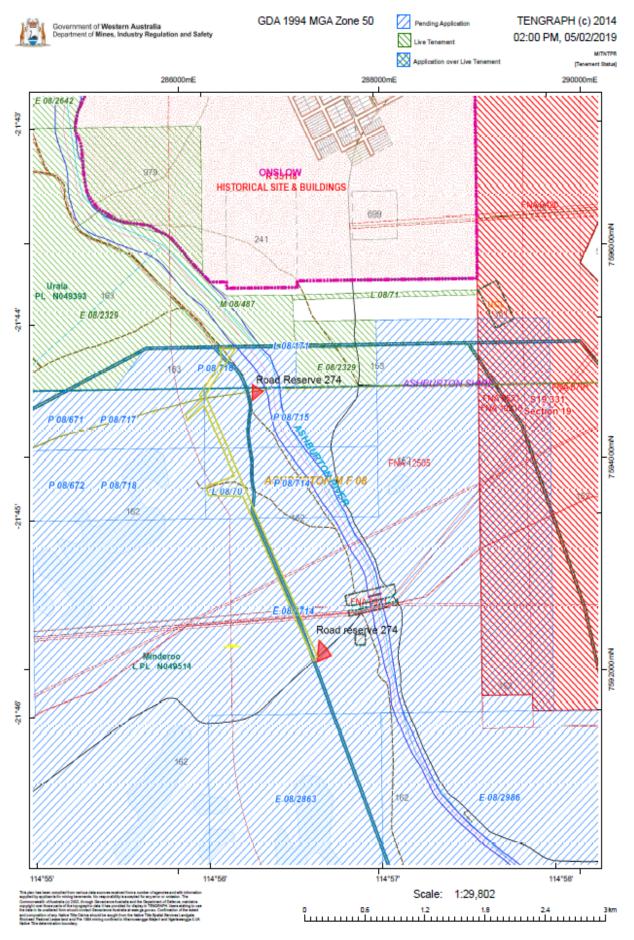

The proposed road would be 7 metres wide and approximately 23,000 metres in length, from the ANSIA boundary, crossing the Ashburton River, to Urala Station near Locker Point.

It is proposed the road be constructed as gravel and limestone sheeted unsealed road. Quarry Park Pty Ltd are well positioned to supply required limestone rock and roadbase materials should the salt project proceed with two pending Prospecting Licences (P 08/671 and 08/672 – of note, Squadron Resources Pty Ltd has Prospecting Licences for the same area pending, applied for 25 August 2017) adjacent to the proposed access road. The access road would cross the Ashburton River via box culverts and concrete slabs to form a low level crossing. It is not intended the new crossing serve as an all-weather river crossing.

The Pipe line will be linked to the Ashburton River for construction water at Quarry Park's tenement M08/487. Quarry Park Pty Ltd has advised the power line probably won't be required. However, if it is, an overhead power line will link the new Salt Mine with the new power station at the junction of Warrirda and Onslow Roads.

Miscellaneous Licence 08/70 is for the purposes of a pipeline and a road. Quarry Park propose to construct an access road to join mining leases M08/487 and M08/489 as currently both areas have no direct access to a public road. It is proposed a pipeline be constructed along the length of the licence to transport water; the trench shall be shallow at approximately 1 metre deep; an electrical cable may accompany the pipe if required in the same trench. The wider area of the licence shall be used as a stockpile area for excavated materials from the mining leases and a hardstand for heavy vehicles. Construction of the 10 metre wide, 3,300 metre long access road will occur using normal unsealed road building techniques and sheeted with gravel/limestone material sourced from M08/487 and M08/489.

Comment

As the application for Miscellaneous Licence 08/171 is completely within the road reserve for Road No. 8400 and Miscellaneous Licence 08/70 encroaches on Road No. 274, it will not go to grant without the Shire's consent. The proposal appears to be consistent with the Shire of Ashburton's strategic aims and objectives however, the Shire should be satisfied the design, construction and maintenance of the road retains unrestricted public access and safety of the road.

It is proposed the Shire formally notify DMIRS of its concerns to commence terms of agreement (deed) negotiations, with Quarry Park Pty Ltd responsible for preparation costs, to include the following, at a minimum:

- Establishing RAV rating required to inform width and integrity;
- Road design including specifications including signage etc.;
- Shire inspection schedule;
- Construction materials and testing;
- Construction term;
- Maintenance term; and
- Insurance.

Onslow Premium Sands have lodged an Objection to Application 08/171 on the grounds that the Objector has applied for a Restoration of a previously forfeited Exploration Licence (62.98% of this Application). This is still currently in the Wardens Court, however as Miscellaneous licences co- exist with other tenure, it won't affect the Miscellaneous Licence application and will simply give both parties time to negotiate access etc if the Exploration Licences is restored.

Summary

The Shire recently engaged Cleanflow Environmental Solutions, through a RFQ process, to undertake the Onslow Stormwater Maintenance and Jetting Project ('Project') using a high pressure water jetting system. The process involves the underground stormwater pipes being blasted with a high pressure water jet that brakes up debris material, then removed from accessible existing nodes by vacuum truck and disposed to landfill.

To date the Project has completed over 3 kms of pipeline cleaning and removed approximately 15 tonnes of debris material, this included rocks, bricks, asbestos, tree roots, metal, nuts & bolts, car springs, road signs, fishing rods and glass. The Shire has also identified several areas where the pipes have been compromised by the installation of Horizon Power and other services.

Background

The topography of Onslow is very low lying, subsequently the stormwater network has typically low grades and accompanying reduced low velocity flows, these conditions promote blockages and the build-up of sand, silt and debris material in the network itself. Little or no maintenance has allowed for the gradual accumulation of both silt and debris in the network which has significantly reduced the overall capacity and efficiency of the stormwater network. A significant number of areas have been completely blocked for years.

Comment

The Project commenced on 4 January 2019 and was successfully completed on 4 February 2019. The Project resulted in updated CCTV footage and comprehensive condition assessment report and comprised high pressure cleaning of:

- 95% of the network, which was identified as blocked or partially blocked from 2017 CCTV inspections; and
- Side entry & trafficable gullies, grates, manholes, inspection chambers, junction pits, culverts, headwalls and detention basins.

To date the Project has completed 3.2 kms of pipeline cleaning (with pipe sizes varying from 375mm to 975mm) and removed approximately 15 tonnes of debris material, some of this material included rocks, bricks, asbestos, tree roots, metal, nuts & bolts, car springs, road signs, fishing rods and glass.

Several significant issues have been encountered during the Project as follows:

- 1. Asbestos fragments and surface deterioration were found in several network pipes, being a hazardous material the Tanker contents were sealed, contained then transported to a licensed disposal site (OHS procedures were followed).
- 2. A network 375mm pipe on Second Avenue was found to be completely blocked. Upon further investigation a low voltage electrical supply conduit was found penetrating the bottom of the pipe therefore compromising the line (refer ATTACHMENT 15.1A).
- 3. Another 525mm asbestos pipe was found to be compromised in a similar manner through the middle with several electrical conduits running from Lot 357 to the Beadon Bay hotel. (refer ATTACHMENT 15.1B)
- 4. A twin 100mm water service was found penetrating the 375mm pipe at the intersection of Third Avenue and Cameron Avenue.

The Shire is currently seeking legal advice on the best way to progress rectification to the stormwater pipe system as Horizon Power to date, has denied any responsibility for their electrical supply conduit impacting the Shire's stormwater system (**refer to ATTACHMENT 15 1A and 15.1B**).

Further investigation is underway pertaining to a possible Water utility services compromised site (yet to be confirmed).

In addition, the CCTV inspections and condition assessments of the stormwater network, identified that council requires an allocation of approximately \$300,000 on capital expenditure (average per year for next 5 years) to renew and upgrade the existing stormwater network in Onslow. In addition, approximately \$100,000 will be sought from Council for a routine maintenance program.

- (10) A strategic community plan for a district is to contain a description of the involvement of the electors and ratepayers of the district in the development of the plan or the preparation of modifications of the plan.

Financial Implications

The Project has been undertaken in accordance with the funds set aside in the 2018/19 Budget. However, at this stage, the Shire has no information on legal and rectification costs for the intrusions into the stormwater pipe network. In this regard, the Shire will keep Council informed of any costs outside of the Budget allocations.

This Report does identify maintenance costs for the 2019/20 Budget and spending that is in line with the Shire of Ashburton Long Term Financial Plan (2017-2032).

PREVIOUS MEETING REFERENCE:	Agenda Item 15.1 (Minute No. 374/2018) – Ordinary Meeting of Council 22 May 2018

Summary

The unsanctioned vehicular crossover between the two carparks at the rear of the Paraburdoo shopping centre has been raised as a safety concern. This was the subject of a report to Council in May 2018 where it was stated that the crossover did not meet current Australian Guidelines. After an extensive review by current Shire officers any details or information pertaining to Australian Standards that supports this comment could not be located. Subsequently, this item seeks Council's consent to rescind the motion passed at the 22 May 2018 Ordinary Council Meeting and for Council to support an interim alternative access arrangement.

Background

At the rear or northern side of the Paraburdoo Shopping Centre is a vehicular crossover that provides access between two carparks. A pedestrian footpath traverses the crossover and it is the interaction between pedestrians and vehicles that was raised by one of the Local Councillors as a safety concern.

This issue was the subject of a report to Council in May 2018 where the staff recommendation and Council decision was as follows:

"That with respect to the vehicular crossover in the northern car park of the Paraburdoo Shopping Centre referred to in the report, Council:

- 1. Notes this report;
- 2. Supports the closing of the vehicular crossover in the northern car park of the Paraburdoo Shopping Centre; and
- 3. Instructs the Chief Executive Officer to make a budget provision of \$11,000 in the 2018/19 Budget to decommission the vehicle crossover in the northern car park of the Paraburdoo Shopping Centre.

CARRIED 7/0

Councillors White, Dias, Thomas, Foster, Gallanagh, Diver and Lynch voted for the motion Councillor Rumble voted against the motion.

Councillor Rumble voted against the motion on the basis that the resolution would potentially detract from the access arrangements of the Paraburdoo Shopping precinct".

Comment

After Council's Resolution in May 2018 Councillor Dias and Councillor Rumble sought a meeting with the Chief Executive Officer (CEO) pertaining to administration reviewing alternative solutions for further consideration. Subsequently, administration investigated alternatives that could provide an amicable resolution to this issue.

After discussing various alternative solutions with the CEO and Elected Members an agreement to allow the crossover to remain open (with modification) for a period of twelve months and then review the arrangements are acceptable from a community and Occupational Safety & Health (OSH) perspective.

As an alternative a modification has been installed whereby correct safety signs, cross hatching road marking on entry and exit points and rumble strips as a preventative measure to slow vehicles down entering and exiting the car park facility. These measures are intended to bring to the attention of any drivers that they are in a shared zone where children and families are present and to slow down and drive to the conditions.

Summary

The Shire of Ashburton has a duty of care to sustainably manage assets within its Local Government Area in a transparent and cost effective manner.

This report establishes a systematic, transparent framework for the cost effective management of the Shire's Urban Road Network that will ensure that these roads continue to provide an acceptable level of service to the Shire's community and visitors alike, whilst enhancing asset management maturity and sustainability into the foreseeable future.

Introduction

The Shire of Ashburton is responsible for managing an extensive road network, on behalf of the community and visitors, in an effective and efficient manner. The underlying challenge facing the Shire is the sustainable provision of this service to ensure that:

- Roads remain safe and functional;
- Roads meet the needs of the present and future generations;
- Future generations enjoy the same level of service as the current generation; and
- Future generations aren't left with a major backlog of works and the ensuing financial strain.

This report focuses specifically on the sustainable renewal of urban sealed roads, however, it should be noted that it is the first of a number of similar reports that will address the sustainable provision of the services associated with each asset class.

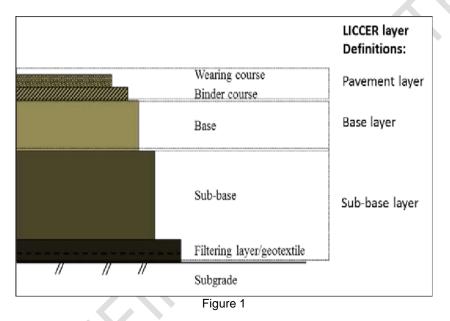

ATTACHMENT 15.3

Background

The Shire of Ashburton is responsible for over 100km of Urban Sealed Roads. A condition rating assessment was completed on these roads in January 2019.

There are some particular aspects of the urban road network that became evident during this assessment that need to be addressed prior to moving forward, as follows:

- The pavements (base layer and sub-base layer refer to Figure 1) in all urban areas . are in good condition with little signs of any major defects;
- The few pavement defects can be repaired through minor maintenance works:
- Block cracking of the wearing surfaces, especially in Paraburdoo and Tom Price is of particular concern; and
- Hardening of the binder holding the stone together in bituminous seals is another significant concern. This is most evident in the "Spray Seals" of all urban area.

As all pavement distresses can repaired through minor maintenance works, this report will concentrate on the renewal of the wearing surface.

Extreme heat is a major factor in block cracking and the early hardening of a binder. Hardening of the binder also leads to more block cracking. Hence, there is a direct correlation between these two types of defects. Dense Graded Asphalt copes better with extreme heat than both Open Graded Asphalt and spray seals as it has less air voids that expose the binder to direct sun light and heat. Accordingly, to lessen the possibility of binder hardening and block cracking it is recommended that spray seals in urban areas be overlayed with Dense Graded Asphalt. **Overview of the Development of the Program**

The following steps need to be undertaken to develop a transparent program of works to renew the wearing surfaces of urban roads:

- Step 1. Develop the methodology to determine the condition of each segment of road.
- Determine the average useful life of each asset type. Step 2.
- Determine the condition at which the shire would intervene and renew the wearing Step 3. surface.
- Step 4. Determine the budget necessary to ensure that all roads can be renewed at their intervention level.
- Step 5. Determine the system to prioritise the works.
- Step 6. Develop the program of works.

Condition Determination

The previously mentioned road condition survey collected the following data:

Roughness Counts

Roughness is a measure of the upward movement of the rear axle of a standard station wagon relative to the vehicle's body as the vehicle travels at a standard speed along a road. A cumulative upward vertical movement of 15.2 mm corresponds to 1 Roughness Count.

• Rutting (example only – Figure 2)

Rutting is a form of pavement deformation being a longitudinal depression in a road surface, usually but not always in a wheel path. An example of this type of defect is depicted below:

Figure 2

• Surface Texture (example only – Figure 3/4)

Surface texture is the macro-texture of a wearing surface. Macro-texture is the average depth of the surface voids. A low surface void depth corresponds to too much bitumen being present. This defect is called Flushing and is depicted in the photo below.

Figure 3

A high surface void depth correlates to too little bitumen being present. This is known as a Hungry seal, which often manifests in stripping as shown in the photo below.

Figure 4

• Cracking (example only – Figure 5)

Surface Cracking is fissures resulting from fractures of the wearing surface, as depicted below.

Figure 5

Condition Scores

The table on the next page provides the mechanism to convert the road condition survey results to a 0-5 rating (Excellent – Very Poor), provide a % value of Current Replacement Cost (CRC) (% of New) and the weighting used to derive a condition value for pavement and wearing surface.

When assessing a wearing surface's condition, roughness, surface texture and cracking are taken into account. Surface Texture gives the best condition indication, as it is solely a measure of the deterioration of the seal and the state of the bitumen. Cracking is also indicative of the breakdown of a wearing surface however, other factors such as pavement breakdown leading to reflective cracking can also play a role. Hence, cracking has been given a lesser weighting. Roughness is also indicative of the breakdown of a wearing surface, however, again there are other factors relating to the pavement that play a role, thus this score was given the lowest weighting.

When assessing a pavement's condition Rutting provides a total reflection of a distressed pavement and should be given a significant weighting. Roughness counts also give a good

indication of the state of a pavement as pavement deformations will show up in the count. However, a number of wearing surface defects can also play a role in this count.

Hence, its weighting has been reduced. Cracking also plays a role in assessing a pavement's condition as it can reflect underlying pavement defects. Furthermore, it is also an indication that moisture is infiltrating the pavement. However, as cracking is more of a catalyst to pavement breakdown and not actual breakdown it has been given a relatively low weighting.

	Table	1. Condition	Rating Ma	atrix – Sealed	Roads

	M3	-X1	4	20%			
	X2-	-X3	5	0%			
Total					100%	100%	

Hence, assuming that a section of road received the following condition scores:

Roughness	= 130	(Rating 4 – 20% of CRC)
Rutting	= 5.5	(Rating 2 – 60% of CRC)
Texture	= 0.80 - 0.99	(Rating 2 – 60% of CRC)
Cracking	= M1	(Rating 3 – 40% of CRC)

The following formulas would give its overall condition scores:

Wearing Surface

- = (Surface Texture % x 50%) + (Cracking % x 30%) + (Roughness % x 20%)
- $= (60\% \times 50\%) + (40\% \times 30\%) + (20\% \times 20\%)$
- = 30% + 12% + 4%
- = 46%

Therefore Wearing Surface Condition Score = 46%

Pavement

- = (Roughness % x 20%) + (Rutting % x 70%) + (Cracking % x 10%)
- $= (20\% \times 20\%) + (60\% \times 70\%) + (40\% \times 10\%)$
- = 4% + 42% + 4%
- = 50%

Therefore Pavement Condition Score = 50%

Average Useful lives

The percentage of Current Replacement Cost (CRC) or percentage of new score as outlined above can then be used to calculate the useful life. For example, the example given above for wearing surface gives a percentage of CRC of 46%. This means that 54% of the wearing surface useful life has been used and that 46% of its useful life remains. Therefore if the date of the last reseal was 2012, then the full useful life can be calculated as follows.

<u>2019 – 2012</u> 54%	= <u>Remaining Life</u> 46%
Remaining Life x 54%	‰= (2019 – 2012) x 46%
Remaining Life	$=\frac{7 \times 46\%}{54\%}$
Remaining Life	= 6 years
Hence:	
Useful Life Useful Life Useful Life	= Life used + Remaining Life= 7 years + 6 years= 13 years

Similarly, this method of calculating useful life is also used for all types of seal.

Accordingly, the following tables depict the results of this exercise for each type of seal for a cross section of roads within the Shire of Ashburton.

• Spray Seal

Road	Town / Suburb	Year of Last Reseal	% of CRC	Life Used	Remaining Life	Useful Life	
Burt Cl	Onslow	2014	58%	5 years	7 years	12 years

Privet St	Tom Price	2014	68%	5 years	11 years	16 years	
	Average Useful Life 1						

Accordingly, a useful Life of 15 years has been adopted for Spray Sealed wearing surfaces.

• Asphalt

Road	Town / Suburb	Year of Last Reseal	% of CRC	Life Used	Remaining Life	Useful Life
Gregory Wy	Paraburdoo	2014	84%	5 years	26 years	31 years

Boonderoo Rd	Tom Price	2006	44%	13 years	10 years	23 years
	Average Useful Life					

Therefore, a Useful Life of 25 years has been adopted for Asphalt wearing surfaces.

Intervention levels

The end of the useful life of an asset is the point at which the asset becomes unsafe or no longer able to fulfil its function. Accordingly, it is important to set levels at which the Shire would intervene and restore an asset before it becomes unsafe or no longer able to fulfil its intended purpose.

The breakdown of a bitumen seal is also a catalyst to accelerated pavement deterioration as cracking in the wearing surface allows water to infiltrate into the pavement layers. This will lead to the need for full pavement renewal works at significantly higher costs.

The following interventions levels have been adopted for bituminous wearing surfaces to ensure that they are renewed whilst they are still safe and before they have an impact on the breakdown of the pavement.

The wearing surface intervention level for renewal is considered to be as follows:

- Roughness > 125 vertical movements per km
- Surface Texture < 0.7mm or > 1.7mm
- Cracking > M2

These intervention levels equate to a point where the asset is deteriorating from a condition 3 to condition 4. Hence as this is 40% of CRC, an intervention level of 40% of useful life has been adopted or 60% deterioration of the seal. In terms of years this equates to about 10 years for spray seals and 15 years for asphalt wearing surfaces.

Required Budget

The Shire of Ashburton has approximately 740,000 m² of sealed urban roads. Many of these roads currently have a spray seal wearing surface. However, as outlined earlier it is recommended that these spray seals be renewed with Dense Graded Asphalt to minimise the current problem of block cracking.

Using the tendered unit rate for asphalt laying as put before Council in December 2018 together with a small factor for site preparation works, it is estimated that it will cost approximately \$17 million, in total, to renew the wearing surfaces of all of the urban sealed roads. As the 40% intervention level for asphalt equates to 15 years, it is appropriate that a budget be set to ensure that all urban roads can be renewed every 15 years.

It is recommended that the annual budget for renewal of urban roads be set at \$1,134,000.

Prioritising the Works

Prioritising the renewal of sealed wearing surfaces is a matter of using the age of the existing seal, its condition and the date that the condition assessment was carried out, then determining its estimated remaining life to provide a year that it needs to be renewed.

For example, if a road was resealed in 2014 and the condition assessment was carried out in 2019, then the existing seal would be 5 years old. If the wearing surface has a condition score of 59% of CRC or new, then this 5 years of age equates to the 41% that it has deteriorated over the 5 years. Conversely, the 59% condition score, then equates to the remaining life of the seal which in this example is equal to 7 years. As the wearing surface will need to be renewed in 2026. This estimated year of renewal is then used as a guide to prioritise the works program.

Developing the Program of Works

The estimated year of renewal is the primary consideration in developing the program of works, however, there are some other factors that need to be considered and if necessary minor adjustments are made, as follows:

- Works programs such as kerb and/or drainage renewal works impact on a wearing surface renewal. If the Shire was to renew the surface of a road one year then replace the kerb or install a new stormwater drainage line the following year then sections of the new surface would need to be removed and replaced. Thereby, incurring significant extra costs and leaving unsightly patch work in the finished surface. Hence, adjustments are made to align programs of works to enhance cost effectiveness and maintain aesthetical appeal.
- Sections of the same road or street may have slightly different condition scores and hence a different estimated year of renewal. Where there is only one or two years difference adjustments have been made to the program to ensure that the same road is renewed in the same year. Renewing short sections of a road one year and then coming back the following year to do another short section of the same road is an inefficient use of resources and can add to the cost of the program significantly. Hence, where possible adjustments have been made to ensure that as much as possible of the same road is renewed in the same year.

Accordingly, the 15 year Urban Road Works Program is depicted in ATTACHMENT 15.3.

The varying nature of the length of sections of roads means that it is difficult to have an exact balance at the end of each year in line with the estimated annual budget allocation of \$1,134,000. However, it will balance out over the life of the program as shown in the table below. This table takes the recommended budget and the actual funds required in each year of the recommended program:

Year	Financial Year	Budget Allocation	Funds Required	Annual Surplus / Deficit (-)	End of Year Balance (Cumulative)
1	18/19	\$ 1,134,000	\$ 1,145,000	-\$ 11,000	-\$ 11,000

10	27/28	\$ 1,134,000	\$ 1,137,000	-\$ 3,000	\$ 58,000

Year	Financial Year Budget Allocation		Funds Required	Annual Surplus / Deficit (-)	End of Year Balance (Cumulative)	
11	28/29	\$ 1,134,000	\$ 1,190,000	-\$ 56,000	\$ 2,000	
12	29/30	\$ 1,134,000	\$ 1,157,000	-\$ 23,000	-\$ 21,000	
13	30/31	\$ 1,134,000	\$ 1,151,000	-\$ 17,000	-\$ 38,000	
14	31/32	\$ 1,134,000	\$ 1,005,000	\$ 129,000	\$ 91,000	
15	32/33	\$ 1,134,000	\$ 1,225,000	-\$ 91,000	\$-	
	Totals	\$17,010,000	\$17,010,000			

It is important to remember that the condition ratings outlined previously provide a snapshot in time and that it can only be used for estimated predictions of future deterioration rates. Factors such as traffic volumes, types of vehicles, vehicle loadings and environmental factors can result in sealed roads deteriorating at varying rates.

In line with the above, it is considered appropriate that:

- The first year of the recommended program be adopted and implemented;
- The 15 year program be adopted in principle for long term reporting requirements; and
- The program be reviewed and if necessary updated annually to reflect varying deterioration rates.

Section 5.56 Planning for the Future, of the Local Government Act 1995, outlines that:

- (1) A local government is to plan for the future of the district.
- (2) A local government is to ensure that plans made under subsection (1) are in accordance with any regulations made about planning for the future of the district.

Section 19C of the Local Government (Administration) Regulations 1996, outlines that:

- (1) A local government is to ensure that a strategic community plan is made for its district in accordance with this regulation in respect of each financial year after the financial year ending 30 June 2013.
- (2) A strategic community plan for a district is to cover the period specified in the plan, which is to be at least 10 financial years.
- (3) A strategic community plan for a district is to set out the vision, aspirations and objectives of the community in the district.
- (4) A local government is to review the current strategic community plan for its district at least once every 4 years.
- (5) In making or reviewing a strategic community plan, a local government is to have regard to:
 - (a) the capacity of its current resources and the anticipated capacity of its future resources; and
 - (b) strategic performance indicators and the ways of measuring its strategic performance by the application of those indicators; and
 - (c) demographic trends.

Financial Implications

Risk Management

Adoption of this item has been evaluated against the Shire of Ashburton's Risk Management Policy CORP5 Risk Matrix. The perceived level of risk is considered to be "low" in light of there being zero backlog of wearing surface renewals.

Asset Management

As this program has been developed on the basis of intervening before sections of roads no longer meet their intended purpose, it enhances Council's Asset Management capabilities as defined in the International Infrastructure Management Manual.

In short, the core difference between basic and advanced asset management is the development of budgets on an as need basis (i.e. works required to keep assets functional) as opposed to works programs being developed in line with set budgets.

This report is a critical step in the establishment of a framework whereby budgets are set according to the needs of an asset class to ensure the long term safe, functional and financially sustainable provision of the service.

Sustainability Impacts

Implementation of this program will mean that funding will always be there to keep the Shire's urban sealed roads in a safe and functional condition, thereby enhancing sustainability.

Summary

Due to the limited opportunities for the Shire to access to the Roebourne Wittenoom Road for repairs and maintenance, Councillors Lynch and Diver have jointly requested Council consider providing rate relief for Station owners directly abutting the Road.

Reason

The Shire has significantly limited opportunities to access to the Roebourne Wittenoom Road for repairs and maintenance in the 2018/19 Financial Year.

Councillor Recommendation

That the Chief Executive Officer provide Council with a report that addresses providing rate relief for Station owners directly abutting the Roebourne Wittenoom Road due to the limited opportunities for the Shire to access to the Roebourne Wittenoom Road for repairs and maintenance.

Background

Councillors Diver and Lynch have jointly requested as follows:

"That the Chief Executive Officer provide Council with a report that addresses providing rate relief for Station owners directly abutting the Roebourne Wittenoom Road due to the limited opportunities for the Shire to access to the Roebourne Wittenoom Road for repairs and maintenance."

Comment

It is considered that the operators of the above Stations have been (and continue to be) inconvenienced in relation to the limited opportunity of the Shire to adequately repair and maintain the Roebourne Wittenoom Road.

The three pastoral stations that have direct access to the Roebourne Wittenoom Road are Coolawanyah Station, Hooley Station and Mt Florence Station.

These Stations have the following rates profiles for a potential concession:

- Coolawanyah Station
 - Rates = \$6,313.46 (fully paid)
 - o 30% concession is \$1,894.04
 - o 12.5% is \$789.18
- Hooley Station
 - Rates = \$6,285.41 (fully paid)
 - o 30% concession is \$1,885.62
 - o 12.5% is \$785.68
- Mt Florence Station
 - Rates = \$7,712.00 (paid \$5,840.65 and owing \$1,871.35)
 - 30% concession is \$2,313.60
 - o 12.5% is \$964.00

A concession could be provided on the following two Scenarios:

- Scenario 1 12.5%
- Scenario 2 30%

Such concessions would result in the following costs to the 2018/19 Budget:

- Scenario 1 12.5% applied the cost to Council would be \$\$2,471.36.
- Scenario 2 30% applied the cost to Council would be \$5,931.26.

In a similar arrangement to the Council's position of rate concessions granted to certain residential properties late last year, Council is requested to consider a nominal concession for pastoral stations that have direct access to the Roebourne Wittenoom Road.

Statutory Environment

The Local Government Act 1995 following sections apply:

S 6.32 provides Council with the power to apply rates to property;

S 6.47 indicates that a local government may resolve to waive or grant a concession for a rate or service charge (absolute majority required). In addition, Regulation 69A of the Local Government (Financial Management) Regulations 1996 also specifies that a local government cannot use its powers under section 6.47 LGA based on whether or not the land is occupied by a person who owns the land (so called absentee owner clause); Local Government (Financial Management) Regulations 1996 Part 5.

Financial Implications

An additional concession would have the following impact on the 2018/19 Budget as identified in the two scenarios provided.

17/06/15	11972		That Council: 1.Note that there are multiple economic and social benefits to sealing the Karratha-Tom Price route, that this project sits comfortably with the original aims and objectives of RfR and that it also delivers on all six policy objectives of the RfR Program; 2.Note that any contribution from the private sector and the Shire should be "gifted" to the State Government for the specific purpose of constructing the road and on this basis would attract a higher (dollar for dollar) matched funding from the Commonwealth; 3.Proceed to discuss with stakeholders their support for the Shire to submit an application to the RfR Program for staged funding to complete the Karratha- Tom Price route and authorise the President and CEO to promote the grant application at both state and federal political levels as required (conditional though, that within the eventual grant approval process, the Shire's two policies applicable to Asset Management (ENG09) and Financial Sustainability (ELM10), and its Long Term Financial Plan, must suitably accommodate the road construction schedule and its long term road maintenance program.	Progressing Application for funding for the Karratha-Tom Price Rd was submitted for Rounds 2 (and 3) of the Commonwealth Stronger Regions Fund, but were unsuccessful. A Lobbying Plan has been developed. Copies of the Plan have been provided to PDC who has already indicated support for the project. PDC has allocated \$50,000 to expand on the Shire's existing study. Ongoing lobbying will be undertaken in conjunction with PRD and other stakeholders. Plan has been provided to Main Roads WA, who will liaise with PDC. PDC study progressing with the Shire of Ashburton and the City of Karratha also contributing (\$25,000 and \$85,000 for the study). There is no indication as to when a decision on Stage 4 is to be made by the State and Federal governments MRWA have agreed to construct and seal the \$50m+ Stage 3 funded by the State as an election promise. 369	18/12/18	479/2018	Gross Rental Valuation (GRV) Rating of Transient Workforce Accommodation	That with respect to the Ministers determination for Gross Rental Value (GRV) spot rating of Transient Workforce Accommodation, that Council: 1.Receive and accept the Ministers determination for GRV spot rating of Transient Workforce Accommodation as detailed in correspondence received from Senior Legislation Officer, Mr. Troy Hancock on 27 November 2018 (ATTACHMENT 12.2A); 2.Authorise the Chief Executive Officer (or authorised officer) to correspond with property holders to inform them of the Minister's determination and the pending interim rates for 2018/19, effective from 26 November 2018; and 3.Direct the Chief Executive Officer (or authorised officer) to prepare a report to Council outlining the financial implications of interim rates for the Transient Workforce Accommodation as soon as Landgate advises the Shire of valuations for each campsite.	The approved TWAs are now being progressed for Gazettal after which Landgate will formally establish valuations for each property and advise the Shire accordingly for purposes of interim rating, as is this case with all interim valuations. The process of establishing valuations will include new GRV valuations for the TWAs as well as changes to the existing UV valuations upon the camps are located. This means the camps will be 'excised' from the mining tenement valuations – an adjustment predicted to be between 0% and 5% according to sources at Landgate. Further the process is likely to take several months to complete, due to the size, complexity and significant financial impact the interim rating will have on property holders. Once the interim valuations are received from Landgate a report outlining the financial implications of interim rates for the TWAs will be prepared for Council. At this stage therefore no further action or resolution is required by Council in relation to interim rates for 2018/19, effective from 26 November 2018. 1/2/2019 - A meeting is scheduled for Wednesday 13 February 2019 to meet with Mr. Troy Hancock, Senior Legislation Officer at the Department of Local Government to discuss the gazettal and spot rating of the TWAs. 15/2/2019 - Upon advice received from DLGSCI a PO has now been sent to State Law Publisher for gazettal of TWAs. Executive Summary

This Economic and Tourism Strategy has been developed to compliment and assist with delivering outcomes aligned with the Shire's Strategic Community Plan. The Strategic Community Plan includes three economic priorities:

- Objective 1: Strong local economies
- Objective 2: Enduring partnerships with industry and government
- Objective 3: Well-managed tourism

This Economic and Tourism Development Strategy seeks to support the vision of the Community Strategic Plan and the achievement of the three objectives highlighted under the goal of 'Economic Prosperity'. This strategy seeks to create a more vibrant and diverse future for the Shire of Ashburton's economy, and that of its towns, and insulate it from future movements in the mining and resource sector which have historically dictated the prosperity of its communities. On a longer-term basis, this strategy creates a foundation for population growth and prosperity beyond mining, to create self-sustaining communities that will not rely solely upon the resources industry.

From a tourism perspective, the industry has grown from the mining investment boom, when the considerable demand from the mining and resource sector created an environment that was not conducive to leisure tourism. Accommodation prices have come down, availability has increased considerably and tourism operators are once again offering tours. Through this strategy, tourism will emerge as a key diversifying factor in the Shire's economy. The Strategy will be delivered through the framework below, developed following extensive community and business engagement.

Development Strategy Shire of Ashburton 2019

shire of Ashburton

An immediate plan of action has been informed through this framework and the engagement undertaken to date which recognises the Shire's specific role in enabling diversification of the economy. This action plan, KPI's and budget provide a basis for implementation, monitoring and review of the strategy.

Economic and Tourism Development Strategy Shire of Ashburton 2019

1. Introduction

The Shire of Ashburton is located in the North West of Australia and spans over 100,000 square kilometres. With just 13,300 people, it is sparsely populated. The four major towns of Onslow, Pannawonica, Paraburdoo and Tom Price are spread across the Shire from the Hamersley Range in the east to pristine coastline and islands offshore in the west. With the exception of Onslow, which was originally gazetted in 1886, most of the towns in the Shire are relatively young, having been formed to support the iron ore industry in the 1960s and 1970s.

The Shire is home to the Karijini National Park, Millstream Chichester National Park, the Mackerel and Montebello Islands and some of the oldest geological structures on the planet. The Shire also has several large pastoral stations, which span hundreds of thousands of hectares.

The Shire hosts some of the largest and most advanced mining and resource projects in Australia. Its mining prowess is considerable, producing over \$42 billion in exports, which contributes 2.5% towards the nation's Gross Domestic Product and 18.1% to the State's economy. Rio Tinto and FMG have major iron ore mining operations across the Shire, Chevron operates both the Gorgon LNG project on Barrow Island and the Wheatstone LNG project located south of Onslow, BHP operates the Macedon Gas Project near Onslow and Onslow Salt has been exporting since 2001.

The strong presence of the resource sector provides the Shire with the highest average personal income in the country and the lowest unemployment rate of any local government area in Australia. While the mining and resource sector can provide benefits, there are also associated risks for the community. The downturn in the mining sector in 2012 had a profound impact on many of the Shire's towns as the reduction in commodity prices had a significant impact to the Shire's populations. The sudden departure of many families had a flow-on impact and many small businesses either shutdown or relocated as well.

The need for a comprehensive Economic and Tourism Development Strategy is clear. This document provides an over-arching strategy and clear direction for the future economic evolution of the Shire as well as a detailed program of work to progress towards identified goals.

This document should be read in conjunction with the detailed *Background Report* and *Consultation Summary*.

2. Local Context

The economy of the Shire of Ashburton is inextricably tied to mining and resources. Traditionally, everything has been tied to iron ore mining and specifically, Rio Tinto. More recently, LNG developments of the Wheatstone and Gorgon LNG projects are adding diversity to the mining and resource activities in the Shire, which will have an impact on the local economy and create alternative economic activities to iron ore mining.

The economy of the Shire of Ashburton is important to the State and Nation. \$31 billion of iron exports and \$11 billion of LNG exports are sourced from the Shire of Ashburton, which represents 2.5% of the Australian economy and 18% of the Western Australian economy. The Shire has the highest average personal income and lowest unemployment rate in the nation thanks to its mining and resource activities.

While mining and resource sector delivers considerable economic value, it has also caused considerable variability in the local economy and population over the last decade. Local Gross Regional Product and population growth is heavily linked to the mining and resource sector.

The four main towns of Onslow, Paraburdoo, Pannawonica and Tom Price are all different and have their own unique drivers. As mining and resource activity ebbs and flows, so too does the economy of each town. Population, employment, house prices, building approvals and unemployment are all directly and heavily impacted through mining and resource activity. This high reliance on mining and resource activity means that each town is susceptible to these shocks, which can produce considerable impacts on the community. As jobs are added or cut, the population of each town is directly impacted, which impacts the local retail market, education and health services as well as volunteers for clubs and other local community groups. Over the last decade, between 800 and 1,200 people have typically either arrived and/or departed the Shire every year.

The Shire of Ashburton has an existing tourism market, which contributes almost \$300 million to local expenditure, making up 1.3% of the economy and 6.5% of all jobs. While very small compared to mining and resources, tourism represents one of the largest, non-mining related sectors in the Shire.

Total visitation to the Shire of Ashburton has generally trended upwards since the year ending March 2012. In the year ending March 2018, it is estimated that there were over 330,000 visitors to the Shire of Ashburton. The majority of these visitors (61%) were business visitors, with leisure visitors making up 35% of the total. The remainder is made up of visiting friends and relatives and other purposes.

The leisure market is dominated by a single group, older Australian visitors (55+), predominantly from Western Australia, travelling with a caravan, that make up 42% of all leisure visitors (51% of all overnight leisure visitors, excluding day trips).

Outside of this group, there are other identifiable segments, including:

- Residents from neighbouring areas, likely spending weekends camping in the Shire (approximately 20% of total);
- Families from Perth and beyond, likely spending school holidays in the Shire (approximately 20% of the total); and
- Younger (20-34) international visitors, predominantly from Europe (approximately 4% of total).

Tourism in the Shire currently underutilises the vast natural attractions in the area, which presents an opportunity for future growth and diversification. The tourism industry needs to grow and become more sophisticated in terms of tourism product and experiences. While increasing tourism in the Shire will help to diversify the economy and lesson the reliance on mining and resources, development of new sectors and growing local small businesses contribute to greater economic diversity and create a greater buffer to future shocks in the iron ore industry.

After several years of decline, the mining and resource sector is again in a growth cycle. FMG has committed \$1.7 billion to its new Eliwana Mine and Rio Tinto has committed \$967 million to its Robe Valley operations in the Shire. Furthermore, there has been a tremendous increase in mining exploration activity across the Pilbara, potentially signalling further mining investment in the Shire. As mining and resource activity starts to grow again, consideration needs to be given to maintaining the recent growth in the tourism industry and focusing on other avenues to diversify the local economy.

3. Consultation

Consultants for the Shire undertook extensive consultation with local businesses in the towns across the Shire.

During the consultation, the following key themes emerged:

- Promotion
- Collaboration
- Tourism (cultural, inland and coastal, more products and promotion)
- Infrastructure (roads, accommodation, services)
- Diversification (support for non-mining activities and a future post mining)
- Key themes regarding the role of the Shire:
- Promotion (done together with operators)
- Facilitation (Shire facilitating outcomes and collaboration)
- Advocacy (Shire engaging with State and Commonwealth)

There was considerable feedback from most stakeholders that the Shire needed to be better promoted, specifically for tourism, but more generally in relation to the following:

- Greater exposure and branding around established product;
- Enhancement of DBCA websites;
- Stronger online marketing presence;
- Targeted engagement/ promotion within the region to retain Pilbara holiday makers;
- Pursue family travellers/holiday makers as opposed to 'business' or 'boys trips';
- Enhance exposure of local tourism product and locally manufactured retail products at visitor centres, in-store;
- Better on-line presence for tourism product including booking integrations

Almost all stakeholders identified that a greater level of collaboration is required between:

- Businesses;
- Businesses and the Shire; and
- The Shire and local organisations.

This could initially be achieved by jointly funded and supported marketing campaigns led by the Shire; and more regular engagement and communication between industry and the Shire.

Tourism featured heavily across the region as a key opportunity for future growth and diversity. Most stakeholders felt that the promotion of the area for tourism needed to be improved. A variety of tourism product development was highlighted for each town (see next pages).

4. Opportunities and Issues

4.1 Challenges

Economic and tourism development in the Shire of Ashburton face unique challenges, including:

- Small and dispersed population base: each of the four main towns is relatively small and the population of the Shire is dispersed widely across the area. Having such a small and dispersed population base makes it difficult to achieve certain economies of scale across a number of industries.
- Land access and availability: Much of the land across the Shire is controlled or impacted by Mining Tenements, particularly in Pannawonica, Paraburdoo and to a lesser extent Tom Price. This effects capacity to assemble and release land to support population and business growth.
- High dependence on the mining sector: mining and resource activity directly makes up 75% of economic value across the Shire. This creates a tremendous dependence on the sector. Historical movements in population, labour force, house prices and numerous other indicators are directly influenced by the mining and resource sector.
- **Regional location**: like many regional areas the Shire of Ashburton is far away from the capital cities, creating a considerable logistical effort for people and products to reach the area.
- Lack of services: like many regional areas with small population bases, there is a general lack of services including child care, aged care, allied healthcare and varied retail services. Many of these missing services are important as they can increase the amenity and liveability of the area, which help to attract a larger population.
- Low profile and perception issues: the area has a low profile as a business or tourism destination, despite having considerable opportunities, particularly around tourism.

None of these challenges are insurmountable. While consultation with stakeholders acknowledged these challenges, almost all stakeholders felt that each town is in a good position to foster future economic and tourism growth.

Stakeholders felt that a strong marketing and promotional effort is required to raise the profile of the area, particularly for tourism.

The Primacy of Iron Ore Mining

The Shire's economy, and therefore the local communities are very reliant upon iron ore mining, particularly in Tom Price, Paraburdoo and Pannawonica. All of these towns were started as 'mining' towns and today much of their welfare depends on iron ore mining. The future wellbeing of these towns is directly related to Rio Tinto's iron ore mining activity. With recent advances in technology, the mines around these towns will be able to utilise higher degrees of technology and automation, which naturally requires less workers. While providing a productivity gain to the company and also increasing the level of workforce skill and worker incomes, the overall effect of this automation is a reduced workforce, which equates to less residents in these towns.

Less residents in these towns equates to a smaller economy and one that will be increasingly harder to sustain (in terms of small businesses such as cafes, restaurants and numerous small businesses). The increasing preference for fly in-flyout (FIFO) workforce from major mining companies (including Rio Tinto) exacerbates this situation, as FIFO camps have little to no economic and social integration with their local town.

Given the high reliance on iron ore mining, the economic future of these towns needs to be considered after the completion of mining activities. Given current economic settings, these towns will suffer an 'economic death' after mining activities cease and they will become 'ghost towns'. Fortunately, there is considerable mining life in the region for Rio Tinto, FMG and others. However, the future of these towns needs to be considered. This strategy starts a process of diversification and small business development that can lead to a diversified economic future.

However, it is only over the long term and a concerted effort by both the Shire and the mining companies that a long term economic solution for these towns can be forged. While currently heavily reliant upon iron ore mining, over the long term, these towns have the potential to develop their own unique economic.

It is not realistic to suggest that these towns in their current form and function could reasonably sustain a long-term future, after iron ore mining.

4.2 Competitive Advantages

The Shire of Ashburton has numerous competitive advantages for its future economic and tourism development, including:

- Natural tourism assets:
 - **Karijini and Millstream Chichester National Parks**: these national parks receive over 300,000 visits per year. While tourism operators in Karijini have increased in recent years, the Millstream Chichester National Park remains heavily underutilised. In terms of the tourism offer in the Shire, both parks will play an important role into the future and each has a number of infrastructure requirements.
 - Islands and reefs: Onslow is the closest town to the Mackerel Islands which offer a range of opportunities including snorkelling/diving, whale watching and some of the best fishing in Australia. These assets are largely underutilised.
 - **Expansive and rugged outback landscape**: beyond the national parks, the region has an expansive and rugged landscape that is attractive for caravanning and camping.
 - Oldest geological structures on the planet: the Shire has some of the oldest geological structures on the planet, dating back to 3.4 to 3.6 billion years ago, making the area a huge potential for geo-tourism.
- Heritage tourism assets: Old Onslow represents a unique story in the Australian outback, where an entire town was relocated. The museum at the Onslow Visitor Centre has a large collection of artefacts and there are other displays of the mining history and heritage in the area.
- **Industrial tourism assets:** the mine tours in Tom Price are regularly full during peak season and tours of the Wheatstone LNG precinct in Onslow have also commenced.
- **Rich Indigenous culture**: the region has a rich Indigenous culture that spans through the entire Shire across numerous language groups. The Warlu Way passes through the region providing a foundation for further Indigenous tourism product. There are a variety of planned and potential Indigenous tourism projects across the Shire that could come to fruition in the near future.
- **Built tourism environment**: there have been a number of recent investments in new tourism infrastructure including the Beadon Bay Hotel, Onslow Beach Resort, Ocean View Caravan Park and others. Onslow in particular now has a lot to offer visitors to the area.
- **Resource sector investment**: there is a strong increase in resource exploration activity and both Rio Tinto and FMG have committed a combined \$2.7 billion to the development of new mines. It will be important for the Shire to maximise the local economic and population gains that projects such as these can offer.

- **Individual community spirit**: each town has its own unique character and a high level of community spirit. These features can be important to recruiting a future population.
- **Two airports and port facilities**: the Shire has two major airports (Onslow and Paraburdoo) that are capable of handling regular passenger traffic (RPT) services. Onslow also has two main port/wharf facilities with the Port of Ashburton and the Onslow Marine Support Base, which can be leveraged into the future to support growth in the oil and gas sector and help diversify the local economy with industrial support functions for the oil and gas sectors.
- **Industrial land**: the Ashburton North Strategic Industrial Area includes 8,000 ha of industrial land to support future oil and gas industry development and the Ashburton airport precinct includes 34 ha of general industrial area. Having sufficient industrial land to suit future growth will be important to unlocking commercial potential.

Many stakeholders expressed a strong desire to work with the Shire to support future economic and tourism development. Creating a collaborative and welcoming environment that would include a reduction in traditional 'red tape' can become a competitive advantage for a Local Government area.

4.3 Economic and Tourism Growth Opportunities

There are numerous economic and tourism growth opportunities for the Shire of Ashburton.

These opportunities leverage the existing competitive advantages of the area and will add future diversification to the local economy, creating local jobs, investment and businesses. These opportunities will assist to provide further buffers to future economic shocks from the mining sector and increase the future sustainability and vibrancy of the major towns in the region.

While the Shire cannot undertake these opportunities directly, it can create an environment that is conducive for these investments as well as encourage their future development in a number of ways. The proactive promotion of these opportunities and creating collaborative environment with local businesses will be important to seeing these opportunities fulfilled.

The following economic growth opportunities have been identified and should be pursued:

- Industrial development
- Defence
- Small business
- Renewable mining
- Allied Health Services
- Tourism

Draft Report

Table 4.1 Future Eco	onomic Growth Opportunities, Shire of Ashburt	on
Opportunity	Description	Value Proposition
Industrial Development (Oil and Gas Sector)	The oil and gas sector requires a range of support services, particularly for current offshore gas platforms. These businesses could locate to Onslow to provide these services. Furthermore, the location of these support services could create the foundation of Onslow as an oil and gas hub, with the Ashburton North Strategic Industrial Area providing capacity for future heavy industry activities. The new Regional Class IV Waste Management Facility will also provide support for local industry.	 Proximity to offshore gas platforms Onslow Marine Support Base Available industrial land for a range of uses Onslow Airport and air access Availability of residential housing lots and local amenity (to recruit local staff)
Defence	Currently Defence Force and Border Force patrol vessels travel to Kwinana for regular resupply, however, Onslow provides a more strategically located supply point, as the coastline south of Onslow is not as sensitive as the resource rich areas North of Onslow.	 Proximity to resource rich and sensitive areas of the North West Providing a more strategic location to patrol between Darwin and Onslow Avoiding the additional travel to Kwinana would save the Commonwealth Government \$6.1 million per year in operational costs (fuel, food and human resources) Onslow Marine Support Base Onslow Airport and air access Availability of residential housing lots and local amenity (to recruit local staff)
Small Business Development	Through consultation, a range of small business opportunities were identified, including local food truck, local café/restaurant, or Uber or Taxi service.	 Captured market Existing, untapped demand
Renewable Mining	Onslow already exports salt and there is the potential to increase this production with additional capacity. At the same time, there may be potential for biofuels mining of algae.	 High annual evaporation and climate characteristics Existing export port and wharf structures Significant natural resources and raw materials
Allied Health Services	Through consultation, a range of allied and related health services were identified for the area, including GPs, dentists, medical specialists and mental health professionals as well as child care services.	 Captured market Existing demand and need for services New community hub in Paraburdoo could provide rooms for visiting specialists

4.3.1 Tourism Project Prioritisation

Given the volume and variety of tourism product and infrastructure projects that were identified throughout this process, the following prioritisation matrix has been developed. All identified projects have been deemed important and the scoring matrix is meant to assist in the prioritisation of various projects and initiatives. If a project scores low, it does not mean that the project or initiative should not be pursued but rather that the Shire's role in the project is less direct and often more of a facilitator or as a supporter of a specific initiative.

The various metrics have been developed to help identify and assess each project or initiative and include:

- **Impact**: the size and scale of the potential future impact on visitor numbers and the tourism sector locally.
- **Cost**: the overall cost of a project or initiative where a high cost scores poorly and a low cost scores high.
- **Timeliness**: relative time it will take for the project or initiative to materialise.
- Shire Control: the degree to which the Shire has direct control over a specific project or initiative.

The ranking scale is '5' (best) to '1' (least) and project and initiatives have been scored relative to one another.

Economic and Tourism Development Strategy Shire of Ashburton 2019

4.1 Infrastructure

There is a range of infrastructure that is required to assist the local economy and tourism industry develop further.

Infrastructure requirements include the following:

- **Onslow heavy freight road**: a dedicated heavy freight road to Onslow Marine Support Base would assist in attracting new local industrial businesses associated with the offshore oil and gas industry to Onslow.
- **Tom Price Karratha road**: sealing of the Tom Price Karratha road would greatly improve accessibility within the Shire and connect two of the Shire's greatest tourism assets (Karijini National Park and Millstream Chichester National Park), thereby providing considerable tourism benefits for the area.
- **New tourism accommodation**: a new and diverse range of visitor accommodation is required in the Shire, including new hotels, eco-tourism developments, caravan and camping grounds.
- Maintenance of the RPT service in Onslow: maintaining a variety of direct flights between Perth and Onslow will be important to attracting additional and diversified economic and tourism opportunities.
- Accessibility to residential housing: access to available residential housing is important to recruit more residents and families to the Shire. While Onslow has available residential sites, the other major towns do not have a great deal of access to new housing to support population growth.
- National Park infrastructure: a range of infrastructure is required across the Karijini National Park and the Millstream National Park including the sealing of the Banjima Drive and expansion of existing accommodation offering in Karijini National Park and the development of the Millstream Eco-Resort. Digital connectivity in both parks also needs to be improved.
- **Small business space**: the provision of potential commercial spaces for small businesses (i.e. similar to the WEB in Port Hedland) is required.
- Support initiatives that enable the towns to be more welcoming towards caravans, campervans and motorhomes.

Economic and Tourism Development Strategy Shire of Ashburton 2019

5. Economic and Tourism Development Strategy

5.1 Vision & Aspirations

The Community Strategic Plan 'Living Life' has identified the community's vision (pg 9):

"We will embrace our unique Pilbara environment and lifestyle through the development of vibrant, connected and active communities that have access to quality services, exception amenities and economic vitality"

The Community Strategic Plan also has identified the goal of 'Economic Prosperity' that has the following objectives:

- **Objective 1**: Strong local economies
- **Objective 2**: Enduring partnerships with industry and government
- Objective 3: Well-managed tourism

Role of the Shire in Economic and Tourism Development

Stakeholders were clear in regards to their expectation of the Shire and its role in economic development and tourism.

Stakeholders collectively saw that the Shire had the following roles to fulfil:

- Promoting the Shire for tourism and business diversification
- Facilitating outcomes and collaborating with local business and industry
- Advocating on behalf of the Shire's residents and local businesses

These roles provide a guide for the Economic and Tourism Development Framework.

5.2 Economic and Tourism Development Framework

The following diagram (Figure 5.1) highlights the Shire of Ashburton's Economic and Tourism Development Framework that seeks to provide clear, overall direction for the Shire's activities to support economic and tourism development. The framework is guided by the Community Strategic Plan and achieving its objectives. There are three key pillars that guide overall activities, which each have specific initiatives highlighted. These activities will help create the desired outcomes and create more sustainable and vibrant communities.

The Framework is further supported by a detailed, annual program of work based on the SMART criteria (Specific, Measurable, Attainable, Realistic and Timely) which allows the strategy to be adaptive and flexible to future change while still aligning to the framework.

Draft Report

Figure 5.1. Shire of Ashburton Economic and Tourism Development Framework

5.2.1 Promote the Shire

Why?

The area suffers from a low profile and lack of a tangible 'brand'. From a tourism perspective, the area is blessed with considerable natural and man-made assets, however, the tourism offer is not widely recognised, understood nor appreciated. Promotion of the Shire, not just for tourism purposes but more broadly for the range of economic growth opportunities identified was highlighted by most stakeholders who saw that the Shire had a strong role to play in promoting the area as a tourism destination as well as a business destination.

What?

The promotion of the Shire will be conducted through a range of broader marketing campaigns as well as through bespoke business development and promotional activities. While the Shire may lead many of these initiatives, destination tourism marketing should be conducted together with industry and local operators as well as other partnerships, such as Australia's North West and Tourism WA.

How?

There are two specific initiatives identified for this pillar:

- Tourism promotion and marketing
- Marketing the region for business investment

Draft Report

Tourism promotion and marketing will be a critical function of this strategy. A targeted and specific digital campaign should be developed together with local industry participants, who would be encouraged to contribute funds to the campaign in addition to the Shire's funding. The campaign should target key markets for the region including local Pilbara residents, families from outside the region across Western Australia and the caravan and camping market in Western Australia. Some niche markets for adventure tourism may also need to be targeted. Some promotional efforts should be focused around Exmouth and Karratha, which are the two gateways into the Shire of Ashburton for most self-drive visitors (who make up the bulk of leisure visitors to the Shire).

Marketing the region for business investment will also assist efforts to diversify the economy. These efforts will be bespoke in nature and focused on the identified non-tourism related economic growth opportunities. Potential proponents in these areas should be identified and proactively pursued. It is also important that tourism operators efficiently market their products in a strategic and collaborative way which portrays the region as an appealing destination rich of experiences. The Shire has a significant role in facilitating communication between operators, visitor centres and regional tourism organisations to encourage cooperative marketing and packaging of products. The Shire should influence this through enabling and securing tourism workshops to keep operators informed of the digital and marketing trends for successful destination marketing.

5.2.2 Facilitate Infrastructure Development

Why?

The Shire has finite resources and cannot control the decisions of private business and industry. However, the Shire can act as an important facilitator of outcomes. It can work together with a range of partners, including local major industry as well as State and Commonwealth Governments, to encourage investment, job and residential growth. The Shire is fortunate to have a range of tools and capabilities to facilitate a wide range of infrastructure developments.

What?

Enabling infrastructure development can be achieved through creating an environment that is conducive to investment from both the public and private sectors. The Shire can reduce 'red tape' and make it easier for local businesses to trade. The Shire can enable a range of investments through its planning powers and responsibilities.

How?

The following specific initiatives have been identified for this pillar:

- Encouraging tourism infrastructure development
- Supporting transport infrastructure development
- Facilitating business and industry infrastructure

A wide range of tourism infrastructure and projects have been identified in this Strategy and the Shire can pro-actively facilitate and encourage their development through engaging with project proponents or the State or Commonwealth Government (for funding). Many future tourism investments will require local planning approval, while other tours may require a local business license. The Shire can make these processes efficient and easy for proponents.

The Shire can assist and support local transport infrastructure development through early planning as well as advocacy support.

For many small local businesses, the Shire can support ongoing efforts to ensure digital connectivity and providing shared or common spaces for local small businesses.

5.2.3 Advocate on Behalf of Local Operators and Businesses

<u>Why?</u>

The mining and resource activity in the Shire of Ashburton creates considerable wealth for the State and Nation. Attached to this wealth are a significant amount of mining royalties and tax revenues that stem from the Shire. The Shire is the second largest local government economy in the State and generates \$42 billion in exports. A strong advocacy program is required to ensure an appropriate amount of State and Commonwealth infrastructure funding be invested in the Shire, given the Shire's significance to the State and Nation.

What?

There are a range of infrastructure projects that the Shire is not capable of funding, including:

- Sealing of the Tom Price to Karratha Road
- Sealing of Banjima Drive in the Karijini National Park
- Development of the Beadon Creak Heavy Vehicle Access Road

Additionally, there are policy and programs that the State and Commonwealth Government controls such as policy regarding Transient Worker Accommodation (TWA) development and the Defence Force and Border Force patrol boats. Ensuring that major mining companies are encouraged to leverage residential workers (as opposed to FIFO workers) as well as maximising their stock of residential houses will be important for the towns to grow. Equally, lobbying the Commonwealth Government to leverage new infrastructure in Onslow to service Defence Force and Border Force patrol boats could have a significant impact on Onslow and at the same time provide considerable savings to the Government.

Priority projects should be continually reviewed and updated as well as augmented where and when appropriate.

How?

Regular trips to Perth and Canberra are required in order to meet with the respective Government Ministers and key Government officials. During these meetings, specific priority projects and initiatives needs to be presented in a clear and compelling manner using all readily available evidence. Lobbying campaigns should seek to leverage existing Government policies and initiatives wherever possible to better align projects to current Government priorities.

Draft Report

6. Implementation

6.1 Program of Work

The following program of work (Table 6.1) outlines specific activities and tasks for the first year of implementation of this strategy. While it is likely that many activities, such as various marketing initiatives, will take place every year, the activities and their identified budgets should be reviewed. Other activities may progress from a stage of investigation into a stage of implementation. Regardless, a detailed review of the program of work should take place every year.

As highlighted in the following table, all activities and tasks are structured to and align with the economic and tourism development framework (refer Section 5.2). As such, the program of work will be flexible to the changing environment while at the same time be fixed in terms of the overall structure, providing a consistent and longer term approach.

6.2 Measuring Progress

It will be important to monitor the economy and track the progression of this strategy and its implementation.

It is important to note that the Shire of Ashburton does not have direct control of the economy and therefore, should not be held accountable for it. To track the progress of the Economic and Tourism Development Strategy, the detailed action plan should be regularly monitored to ensure various activities and tasks are being completed as well as the individual success of these activities. At the same time, the Shire should track and monitor various indicators in the economy to understand its overall health. The following table (Table 6.2) provides the recommended indicators to track the health of the economy. The combination of the two methods (i.e. tracking the program of work and the economy separately) will be able to identify the effectiveness of the Economic and Tourism Development Strategy.

Table 6.2 Economic Indicators for Economic and Tourism Development Strategy

Beyond a comprehensive review on an annual basis, there should be quarterly updates to the Shire management regarding the progress on the Program of Work, as well as any successes.

SHIRE OF ASHBURTON FOR THE PERIOD ENDED 28 FEBRUARY 2019 Report on Significant Variances Greater than 10% and \$20,000

Report on Significant Variances Greater than 10% and \$20,000			
	Actual	Y-T-D Budget	Variances
The purpose of the Monthly Variance Report is to highlight circumstances where there is a major variance from the YTD Monthly Budget and YTD Actual figures. These variances can occur because of a change in timing of the activity, circumstances change (e.g. grants were budgeted for but not received) or changes to the original budget projections. The Report is designed to highlight these issues and explain the reason for the variance.			
The Materiality variances adopted by Council are: Actual Variance to YTD Budget up to 5% - Not Reported Actual Variance up to 10% of YTD Budget - Use Management Discretion Actual Variance exceeding 10% of YTD Budget and a value greater than \$20,000 - Must Report			
REPORTABLE OPERATING REVENUE VARIATIONS			
Governance - Variance below budget expectations Negative variance is mainly due to the timing of Rio Tinto's CISP - Project Management & Delivery contributions.	77,972	298,974	(221,002)
General Purpose Funding - Variance below budget expectations Negative Variance following change of rating methodology from UV to GRV for Lot 186 (A50138).	2,119,569	2,257,090	(137,522)
Law , Order & Public Safety The variance mainly reflects the timing difference between the Budget Profile and funding received for the Bush Fire Brigade Projects. The Grant has been fully received,	91,422	83,208	8,214
Health - Variance above budget expectations Positive Variance due to early collection of Food Premises & Registration Approvals Fees. Aboriginal Health Funds received earlier against budget profiles. Further, more Fees were collected from Other Licences & Registrations, Caravan Parks and Lodging House compared to the budget allocated for the period under review.	198,266	175,349	22,917
Education & Welfare - Variance below budget expectations Negative Variance attributed to funding for Tom Price Child Care Centre not yet received from Rio Tinto.	30,007	3,030,025	(3,000,018)
Housing - Variance above budget expectations Positive Variance due to increased use of Willow Road Transit House over the period under review.	233,555	187,439	46,116
Community Amenities - Variance below budget expectations Negative Variance mainly reflects Disposal Site Fees for Onslow and Tom Price received lower than budgeted and the timing of the Grant funds for the New Waste Management Facility in Onslow.	1,894,197	6,352,330	(4,458,133)
Recreation and Culture - Variance below budget expectations Negative Variance attributed to the timing of the funds for Onslow Sports Club upgrade from Chevron-JTSI as well as Passion of the Pilbara event sponsored by Chevron.	3,335,539	5,368,879	(2,033,340)
Transport - Variance below budget expectations. Negative Variance due to the timing of funds from Regional Road Group for Pannawonica - Millstream Road, Road to Recovery funds - Twitchen Road & WANDRRA road flood damage.	10,101,676	12,229,591	(2,127,914)
Economic Services - Variance below budget expectations. Negative Variance due to low income collected in the period under review from Ocean View Caravan Park and Beadon Bay, while no sale of Assets occurred under this Program leading to no profit on sale recorded.	984,484	1,803,377	(818,893)
Other Properties and Services- Variances below budget expectations.	89,379	147,300	(57,921)
Negative Variance mainly attributed to Workers Compensation not received as well as Fuel Tax Credit claims from the Australian Tax Office in the period under review.			
REPORTABLE OPERATING EXPENSE VARIATIONS			
Governance - Variance below budget expectations Positive Variance due to cumulative material underspends in the following areas; Members of Council (Councillor's Training & Pilbara Regional Council & Admin Allocations not fully done, among others); Other Governance (Legal Expenses, Consultancy etc.). Noteworthy, are further Admin Allocations to done under TP & Paraburdoo Administration sub-programmes.	(4,074,222)	(5,242,496)	1,168,274
General Purpose Funding - Variance below budget expectations Positive Variance occurred as only 3.7% % of the Legal and Valuation Expenditure was incurred, compared to budgeted in the period under review.	(1,962)	(53,382)	51,420
Law, Order & Public Safety - Variance below budget expectations Positive Variance due to underspends in Salaries and Superannuation Accounts (Animal Control Eastern) against budgeted; Depreciation for Equipment and Buildings not posted under (Fire Preventions); and low indirect Labour and Plant cost allocations under Works Program/Other Law.	(575,788)	(774,647)	198,859
Health - Variance below budget expectations Positive Variance following cumulative underspends under the Inspections and Administration Services Sub- Programme, highlighted by Salaries and Superannuation, Motor vehicle Expenses, and Administration Allocation.	(368,476)	(402,002)	33,526
Education and Welfare - Variance below budget expectations Positive Variance attributed to the Onslow Kids Kitchen Program, which the Shire does not administer anymore and Internal Admin & Depreciation allocations which need to be done.	(93,833)	(234,252)	140,419
Housing - Variance below expectations Internal Admin Allocations and Depreciation not yet been posted for the period under review.	(690,123)	(1,141,588)	451,465
Community Amenities - Variance below budget expectations Variance mainly due to Internal Staff Housing and Admin Allocations, low Indirect waste costs under Sanitation General Refuse, and low costs incurred in Other Community Amenities sub-program (Tom Price Refuse Site & Onslow Transfer Station).	(3,982,413)	(5,471,984)	1,489,571

Important notice regarding Autopay Direct Debit Arrangement- Direct Debit

* If you have set up a direct debit arrangement for making automatic repayments to your BusinessChoice credit card account, and there have been two failed direct debit transactions (that is, we cannot withdraw the nominated amount from your nominated account) in consecutive months due to insufficient funds in the nominated account, we may, at our sole discretion:

- Cancel your BusinessChoice Facility Autopay Request Form- Direct Debit Request (New change)
 Impose a fee or charge (No change- We currently charge a \$9 missed payment fee when payment is not received by statement due date)
- 3. Charge interest on any unpaid purchases outstanding (No change)

If your Direct Debit Request is cancelled, you must arrange to either set up a new Autopay Request Form- Direct Debit Request or use alternative payment methods so we can process your payment. Please ensure that there are sufficient funds available in the nominated account to allow direct debit payments to be made in accordance with your BusinessChoice Facility Autopay Request Form- Direct Debit Request.

Please remember any payments made into the Billing account that places the Billing Account into credit or results in a zero balance at the payment due date, your direct debit will still continue to take place. This also applies if you make an additional payment into the Billing Account that is only a partial payment and still leaves a debit balance on the Billing Account, your direct debit arrangement for the month will remain unchanged and continue to take place.

RE: Gross Rental Valuation Rating of Transient Workforce Accommodation

At its December 2018 meeting Council received and accepted correspondence from the Minister for Local Government, Sport and Cultural Industries in relation to Transient Workforce Accommodation (TWA) in the district.

Following on from this I wish to inform you the Minister has made a Determination, under the Local Government Act 1995, to apply Gross Rental Value (GRV) to a large number TWA camps within the Shire.

We have identified the following camps as being owned by Rio Tinto Iron Ore – Hammersley Iron PL and Rio Tinto Iron Ore - Robe River Iron Associates, to which GRV will now be applied:

Camp Name	Tenement ID	
Brockman 2 - Village	G47/1269	
Brockman 4 – Operations Village	G47/1232	
Homestead Village	AM70/272	
Jerriwah	G47/1269	
Jundumunnah Village	AML70/4	
Kurra Kulli Village	G70/5	
Mesa A Village – Waramboo	AML70/248	
Nammuldi Village	G47/1232	
Ti Tree Village	L47/47	
Weelumurra – Hope Downs	L47/127	
West Pilbara Village	G47/1232	

Officers from the Department of Local Government, Sport and Cultural Industries will now arrange the publishing of the Determination in the Government Gazette.

Should you wish to discuss any aspect of this matter please contact John Bingham, Director Corporate Services on 9188 4434 or via email at john.bingham@ashburton.wa.gov.au.

Good morning John,

Further to your letter dated 7 January 2019 and our telephone conversation this morning, I would like to outline a few concerns about the intended GRV for some of our camps.

- 1. Bonnie Doon Camp (M47/1408) This camp has not been in use since August 2012 and is beyond repair and will eventually be decommissioned. There are no plans for this camp to be used ever again.
- 2. Delphine camp (E47/1832) is a small basic exploration camp which is only in use for 6-8 weeks of the year.
- 3. Edge camp (E47/1299) is a small basic exploration camp which is only in use for 6-8 weeks of the year.

We would appreciate if these three were re assessed as we believe they should be exempt from the GRV.

Kind regards,

Good Afternoon Saul and John

Thank you for forwarding through the soft copy of the Shire's letter regarding GRV rates.

We appreciate the early advice of these forecast changes.

Please see attached a letter in response to the Shire's letter. We would appreciate if you are able to pass on details of a contact in the Valuer General's Office to better understand the indicative GRV valuations.

Should you wish to discuss, please give me a call.

Kind Regards

Subject: Rating Change UV to GRV Mining Camp Enquiry

Good Afternoon Yvette,

We are currently undergoing a review into the way mining camps/TWAs are rated. As the ministerial guidelines changed recently we need to gather information and present it to council so they can consider all submissions.

We will then look at changing the rating methodology used on TWAs in the shire and make a submission to the minister.

I have posted these before Christmas and I am also emailing just to make sure everyone gets a copy in a timely fashion. Mail here can be slow from up north!

Can you please review these or pass this onto the correct person and let me know who that is for future contact?

Your help is appreciated!

Thank You,

Saul Gordon

Mr Rob Paull Chief Executive Officer Shire of Ashburton PO Box 567 Tom Price WA 6751

Attention: John Bingham

14 February 2019

Dear Mr Paull

Gross Rental Valuation Rating of Transient Workforce Accommodation

Thank you for your letter dated 7 January 2019 confirming the introduction of Gross Rental Valuation (**GRV**) Rating of Transient Workforce Accommodation (TWA) camps.

In relation to the TWAs listed in your letter, please note that the tenure listed for Brockman 2 Village and Jerriwah Villages (G47/1269) is not yet granted, and therefore not rateable. The underlying tenure is currently Land Administration Act Lease G848898.

Further to the verbal advice provided by Louise Thomas to John Bingham, Rio Tinto has a number of actions planned or under study that will change some TWAs. We will keep the Shire advised of major changes to either the status of the TWA or the number of beds. For example, the Kurra Kulli village is scheduled to close in April 2019 and the Weelemurra camp is closed and is in the process of being decommissioned. Similarly, we have a study underway to potentially expand the Ti Tree Village to accommodate the workforce associated with our rail maintenance program.

We note that the Council Meeting Minutes included VGO indicative GRV valuations. We note that these valuations are not consistent with current precedent and Rio Tinto intends to query the basis of these valuations. Could you please advise of any contact at the Valuer General's Office who we can speak with about the indicative valuations?

We would also appreciate being contacted by the Shire in due course when Council's position is finalised in relation to differential rates that will be applied to the TWAs for the next rating period.

Yours sincerely

Michelle Ireland

1.2 Interpretation

Unless the contrary intention appears:

- (a) Headings and boldings are for convenience only and do not affect the interpretation of this agreement.
- (b) Words denoting the singular include the plural and vice versa.
- (c) Words denoting a gender include each gender.
- (d) Other parts of speech and grammatical forms of a word or phrase defined in this agreement have a corresponding meaning.
- (e) A reference to a person includes a natural person, partnership, joint venture, association, or corporation and a government or a governmental, local authority and agency.
- (f) A reference to a thing, including a right or power, includes the whole or a part of that thing.
- (g) A reference to a subclause is a reference to a subclause of the clause in which the reference occurs.
- (h) A reference to a statute includes a regulation, by-law, requisition and order made under that statute and an amendment to or re-enactment of that statute, regulation, by-law, requisition or order for the time being in force.
- (i) A reference to a document, including this agreement, includes each document or agreement varying or replacing that document.
- (j) A reference to a party to a document includes that party's successor personal representative and permitted assigns.
- (k) An agreement on the part of 2 or more persons binds them jointly and severally.
- (I) A reference to a body, other than a party to this agreement (including, without limitation, an institute, association or authority), whether statutory or not:

- (1) which ceases to exist; or
- (2) whose powers or functions are transferred to another body,

is a reference to the body which replaces it or which substantially succeeds to its powers or functions.

- (m) Where the day on or by which a thing is to be done is not a Business Day, that thing must be done on or by the next Business Day.
- (n) Month means a calendar month.
- (o) Where a general description of a thing, including a right or obligation, is followed by a specific instance or example of that thing, that specific instance or example does not limit the scope of the general description.
- (p) This agreement includes the provisions contained in a schedule or annexure to this agreement.

2 Licence

2.1 Grant of Licence

The Owner grants to the User and the User takes from the Owner:

- (a) a licence to use the Licensed Area for the Approved Purpose and for no other purpose;
- (b) a right to use the Common Areas; and
- (c) a right of access to and egress from the Licensed Area over the Land,

on the terms and conditions set out in this Licence.

2.2 Holding over

If the User continues to use the Licensed Area after the expiry of the Term with the consent of the Owner, the User will become a monthly licensee at a licence fee equivalent to:

- (a) the Licence Fee; and
- (b) all other money payable to the Owner under this Licence,

for the period immediately preceding expiry of the Term and otherwise on the same terms and conditions as this agreement.

2.3 Right of occupation

This agreement does not confer a right of exclusive occupation on the User.

This agreement creates contractual rights only and does not create any tenancy, estate or interest in respect of the Licensed Area. The Owner (and those claiming through it) may at any time and at all times exercise all its rights (including, without limit, its right to use, possess and enjoy the Licensed Area and any part of the Licensed Area) except to the extent that those rights prevent the operation of the other provisions of this agreement.

3 Length of Licence

3.1 Term

Subject to clauses 3.2 (Early termination), 3.3(a) (Termination where Related Agreement is terminated) and clause (c) of Schedule 2 (Crown Lease and State Agreement) (if applicable), the Licence granted to the User is for the Term.

3.2 Early termination

- (a) Subject to subclause (b), the Owner may terminate this Licence at any time by giving the User 3 months written notice of termination (or any shorter notice period agreed by the Owner and the User) (**Notice Period**) where the Owner or a related body corporate of the Owner requires the Licensed Area:
 - (1) for the purpose of redevelopment of the Land; or
 - (2) to construct infrastructure, to enable access to infrastructure on or to be constructed on adjoining land or for any other reason associated with the Owner's broader mining operations.
- (b) Where the Owner terminates this Licence under subclause (a):
 - (1) the User must vacate the Licensed Area by the expiry of the Notice Period; and
 - (2) the Owner will use reasonable endeavours to provide assistance to the User in moving to alternative premises.

3.3 Termination where Related Agreement is terminated

Where:

- (a) a Related Agreement is referred to in Item 11 of Schedule 1; and
- (b) the Related Agreement expires or is terminated for any reason,

this Licence automatically terminates immediately on the expiry or termination of the Related Agreement without the requirement for notice.

4 Licence Fee and other payments

4.1 Licence Fee

- (a) The User must pay the Licence Fee to the Owner in the amount and at the times specified in Item 5 of Schedule 1 in accordance with the relevant invoice provided by the Owner to the User from time to time.
- (b) The Licence Fee is increased on and from each date and by the amount specified in Item 6 of Schedule 1.
- (c) If required by the Owner, the User must make arrangements with the Owner's bank directing payment of the Licence Fee to the Owner by debiting the User's bank account and crediting the Owner's bank account with those payments.

4.2 Payments of costs

The User must pay the Owner's reasonable legal and other costs associated with a breach by the User of any of its obligations in this Licence.

4.3 Interest on overdue money

Without affecting the Owner's rights, the User must pay to the Owner on demand Interest on money payable by the User to the Owner which is unpaid for 7 days calculated from the due date for payment until payment.

5 Goods and services tax

- (a) Words used in this clause which have a defined meaning in the GST law have the same meaning as in the GST law unless the context indicates otherwise.
- (b) Unless expressly included, the consideration for a supply under or in connection with this agreement does not include GST.
- (c) To the extent that a supply made under or in connection with this agreement is a taxable supply for which the supplier is liable for GST, the recipient must pay, in addition to the consideration provided under this agreement for that supply (unless it expressly includes GST) an amount (additional amount) equal to the amount of that consideration multiplied by the rate at which GST is imposed in respect of the supply. The recipient must pay the additional amount at the same time as the consideration to which it is referable, subject to the supplier having first provided the recipient with a tax invoice in respect of the supply.
- (d) If a party is entitled under this agreement to be reimbursed or indemnified by another party for a cost or expense incurred in connection with this agreement, the reimbursement or indemnity payment must not include any GST component of the cost or expense to the extent that an input tax credit may be claimed by the party entitled to be reimbursed or indemnified, or by its representative member.

6 Obligations in relation to maintenance of the Licensed Area

6.1 User to maintain Licensed Area

The User must maintain the Licensed Area in good order and condition except for:

- (a) fair wear and tear; and
- (b) structural damage not caused by an act or omission of the User or a Permitted Person.

6.2 User to maintain the User's Property and Owner's Property

The User must maintain the User's Property and the Owner's Property in the Licensed Area, clean and in good order and condition.

6.3 User to clean Licensed Area

The User must:

- (a) keep the Licensed Area free from dirt and rubbish;
- (b) not place rubbish in a part of the Building or the Land except in a place and receptacle designated by the Owner for disposing that type of rubbish;
- (c) take reasonable precautions to keep the Licensed Area free of animals, birds and insects and, if required by the Owner, employ pest exterminators from time to time approved by the Owner at the cost of the User; and
- (d) if the Owner arranges the cleaning of the Licensed Area, the User must pay to the Owner on demand all charges for cleaning the Licensed Area.

6.4 User to repair damage caused by User

Without affecting clauses 6.1 (User to maintain the Licensed Area) and 6.2 (User to maintain the User's Property and Owner's Property), the User must promptly:

- repair damage to the Building or Owner's Property caused by the User to the Owner's satisfaction and notify the Owner of repair works within 3 Business Days of those works being completed for the purpose of allowing the Owner to inspect the works;
- (b) replace all electric globes and fluorescent tubes in the Licensed Area which fail for any reason; and
- (c) replace all broken or damaged glass in the doors, walls or windows of or to the Licensed Area unless broken or damaged by the Owner, its employees, agents or contractors.

6.5 Replacement of Owner's Property

- (a) If the User is liable to replace the Owner's Property in the Licensed Area, the User must:
 - (1) replace that Owner's Property with an item of similar quality, colour and design; and
 - (2) carry out the replacement to the satisfaction of the Owner.
- (b) The User must keep the Owner's Property within the Licensed Area unobstructed.

6.6 User to repaint the Licensed Area

The User must, in a proper manner, repaint with 2 coats, at least those parts of the Licensed Area usually painted, in a colour first approved by the Owner in writing at the following times:

- (a) during the month prior to expiration of the Term; or
- (b) in the event that the Licence is terminated prior to the expiration of the Term, within 10 Business Days of that termination.

6.7 Mould

The User:

- (a) must take appropriate measures to prevent mould from appearing in the Licensed Area;
- (b) is responsible for mould that appears in the Licensed Area; and
- (c) must at its cost remove mould that appears in the Licensed Area.

6.8 Maintenance List

Without limiting the User's other maintenance obligations set out in clauses 6.1 to 6.7, the User additionally agrees to carry out the maintenance tasks identified in Attachment 2 of this agreement,

7 User's obligations in relation to the use of the Licensed Area

7.1 Approved Purpose of Licensed Area

- (a) The User must use the Licensed Area for the Approved Purpose and not for any other purpose.
- (b) The Approved Purpose of the Licensed Area is not exclusive to the User and the Owner may permit other persons to conduct similar or competing businesses in the Building.
- (c) The User must not under any circumstances use the Licensed Area for residential purposes of any nature and acknowledges and agrees that the User must not:
 - (1) install, erect or use any improvements or other structures on the Licensed Area for caretaker or residential purposes; or
 - (2) permit any person to remain on the Licensed Area for the purposes of caretaker habitation or any other form of habitation, regardless of the length of time of habitation and irrespective of what form the habitation takes.

7.2 User to comply with all laws and requirements

- (a) The User must comply with each law relating to the Licensed Area or the use of the Licensed Area except for a law that imposes an obligation to carry out structural work unless that work is required as a result of the User's use of the Licensed Area.
- (b) The User must obtain all consents, licenses and authorities required by the User to conduct the User's business.

7.3 Safety precautions

- (a) The User must:
 - (1) comply with the Owner's directions and procedures relating to safety, including acting in a timely manner to remove items from the Licensed Area, or rectify hazards which the Owner determines are unsafe;
 - (2) take the precautions and provide the required appliances necessary for the safe and proper working and control of the Licensed Area in the course of the Approved Purpose; and
 - (3) promptly comply in that regard with the written orders or requirements of a Government Agency having powers in regard to the use of machinery, plant, fuel, electricity, water and gas.
- (b) The Owner may conduct an annual safety and environmental audit of the Licensed Area and the User must provide the Owner with access to the Licensed Area for this purpose, provided that the Owner gives the User at least 2 Business Days' notice of its intention to enter the Licensed Area.

(c) Where the Owner conducts an annual safety and environmental audit of the Licensed Area under subclause (b), the User must make changes to the nature of its use or occupation of the Licensed Area that the Owner requires as a result of the audit within the time specified by the Owner.

7.4 Fire

- (a) The User must observe and comply with all legislation, orders or requirements of a Government Agency relating to fire prevention and control, in or about the Licensed Area.
- (b) If requested by the Owner provide, install and maintain at the most advantageous points on the Licensed Area fire-fighting and control equipment and fire protection services to the reasonable satisfaction of FESA (the Fire and Emergency Services Authority) and the Owner, in conformity with all applicable statutory fire control standards.

7.5 User must not conduct offensive activities

The User must not do anything on the Licensed Area or the Building which is:

- (a) offensive, illegal or which causes nuisance, damage or disturbance to a person; or
- (b) likely to be dangerous to anyone or cause damage to property.

7.6 Owner gives no warranty as to use

- (a) The User must make and rely on the User's own enquiries and inspections concerning the Licensed Area, the use to which the Licensed Area may be put and the Building.
- (b) The Owner does not warrant or represent the use to which the Licensed Area may be put.
- (c) The User accepts the Licensed Area for the Term with full knowledge of, and subject to, any existing prohibition or restriction on the use of the Licensed Area.

7.7 User's use of Common Areas

The User must not do, or omit to do, anything which might cause or allow the Common Areas to:

- (a) deteriorate or become impaired except for fair wear and tear;
- (b) be in a condition other than a good and clean condition; or
- (c) be obstructed, including leaving anything in the Common Areas.

7.8 User's use of Owner's Property

The User must:

- (a) not use a Service or the Owner's Property for a purpose other than that for which it was designed or designated;
- (b) not remove the Owner's Property without the Owner's consent; and
- (c) comply with the reasonable requirements of the Owner relating to any Service and the Owner's Property.

7.9 Services to the Licensed Area

- (a) If the Owner supplies a Service, the User must use only that supply.
- (b) If a Service is not supplied by the Owner, the User must make the User's own arrangements direct with a supplier of that Service.
- (c) The User must comply with any reasonable condition of supply of a Service imposed by the Owner and with each additional condition of supply imposed by the supplier.
- (d) The Use must pay for any Service consumed, assessed, charged or incurred in respect of the Licensed Area which the Owner may, at its discretion, require the User to pay.

7.10 User liable for Permitted Persons

The User is liable for the acts or omissions of Permitted Persons arising out of and in connection with the rights and obligations created by this Licence.

7.11 Security

It is the User's responsibility to ensure that:

- (a) the Licensed Area is kept safe, secure and protected against theft; and
- (b) all doors, windows and other openings are locked or securely shut whenever the Licensed Area is unoccupied,

and the User acknowledges and agrees that the Owner is not responsible for any loss or damage the User suffers as a result of the User not complying with this clause 7.11 (Security).

7.12 Signs

The User must not put anything on the outside of the Licensed Area (including a sign or advertisement) without the prior written consent of the Owner and only after obtaining each necessary approval of all relevant Government Agencies.

7.13 Equipment

- (a) The User must obtain the consent of the Owner before the User installs major equipment that is affixed to the Licensed Area.
- (b) The User must only install equipment reasonably necessary for carrying on the User's business in the Licensed Area.

7.14 Electrical equipment and safety devices

- (a) The User must not overload electrical wiring or equipment in the Building.
- (b) The User must obtain the consent of the Owner if the installation of plant and equipment on the Licensed Area might overload electrical wiring or equipment in the Building.

7.15 Air conditioning equipment

(a) The User must arrange for the regular servicing, maintenance and repair of the air conditioning equipment in the Licensed Area, fair wear and tear excepted.

(b) The User must not use any method of air conditioning, heating or cooling which has not been installed in the Licensed Area by the Owner, without the prior consent in writing of the Owner.

7.16 User to report to Owner

The User must promptly:

- (a) report to the Owner or any agent appointed by the Owner to manage the Licensed Area any:
 - (1) damage to or accident in the Licensed Area (including breakage of glass in a window or door in the Licensed Area);
 - (2) problem or malfunction of a Service or Owner's Property (including Plant and Equipment either within the Licensed Area or used by the User);
 - (3) damage to or defect in the Licensed Area, the Owner's Property or the Plant and Equipment in the Licensed Area of which the User is or ought to be aware;
 - (4) circumstance likely to be a danger or cause damage or danger to the Licensed Area, the Land or a person on or in the Licensed Area, or the Land of which the User is aware; and
 - (5) notifiable infectious disease occurring in the Licensed Area; and
- (b) provide to the Owner a copy of a notice or report affecting the Licensed Area.

7.17 Cyclone

- (a) The User must conduct a clean-up of the Licensed Area as required in order to cyclone-prepare the Licensed Area prior to the commencement of the relevant cyclone season.
- (b) The User must comply with:
 - (1) cyclone regulations and carry out necessary cyclone-ready preparations as required by any relevant Government Agency; and
 - (2) directions of the Owner and procedures provided by the Owner to the User in relation to cyclone preparations and safety precautions.
- (c) If a cyclone warning is issued, or a cyclone is expected in the area in which the Licensed Area is situated, the User must comply with the cyclone drill procedures laid down from time to time, or provided to the User, respectively by the Owner and any relevant Government Agency.
- (d) If the User fails to comply with subclause (a) or (b):
 - (1) the Owner may, but is not obliged to, take whatever action the Owner considers necessary to prepare for the imminent cyclone, including but not limited to, entering the Licensed Area without notice and removing any items or objects from the Licensed Area that the User has failed to remove or secure where those items or objects could cause damage to the Licensed Area or injury to a person in the event of a cyclone; and
 - (2) the User must reimburse the Owner within 5 Business Days of demand for any costs and expenses incurred by the Owner.

7.18 Environmental matters

(a) The User must:

- (1) not do or leave undone anything which may cause pollution or contamination to the Licensed Area, the Land, the surrounding roads and infrastructure, or the environment as defined in the Environmental Law however arising, whether by a Pollutant or another form of pollution including noise pollution, and must remediate pollution or contamination caused by the User;
- (2) collect and dispose of all Pollutants and contaminants from the Licensed Area at a place and in a manner required by law or approved by any relevant Government Agency; and
- (3) comply with all directions of the Owner in relation to Environmental matters.
- (b) The User must prevent the escape of Pollutants and contaminants from the Licensed Area. If Pollutants or contaminants escape from the Licensed Area, the User must, as far as possible, minimise and neutralise the effect of the escape.
- (c) The User indemnifies the Owner and must keep the Owner indemnified against all loss, damage or injury of any kind or nature whatsoever arising out of a matter for which the User is responsible in this clause or a violation by the User of an Environmental Law with respect to the Licensed Area.

7.19 Prevent spillage

The User must prevent the spillage of material on the Land and the lands appurtenant to or adjacent to the Licensed Area.

7.20 Minimise dust and other matters

At all times the User must use all reasonable endeavours and practical means to keep the Licensed Area and the lands and buildings adjacent to the Licensed Area clean and clear of and free from refuse, dust or any other matter:

- (a) which escapes onto or from the Land or the Licensed Area; or
- (b) which arises as a result of or in consequence of the User's use and occupation of the Licensed Area.

7.21 Dangerous substances

The User must not store chemicals, inflammable liquids, acetylene gas or alcohol, volatile or explosive oils, compounds or substances or other dangerous substances on the Licensed Area except substances which are normally used for the Approved Purpose and then only in quantities permitted by law.

7.22 Asbestos

- (a) If there is asbestos located in or on the Licensed Area, the User must not disturb that asbestos without first obtaining the Owner's prior written consent and complying with any safety procedures or precautions required by the Owner or by law in respect of the asbestos.
- (b) Where the User identifies asbestos in or on the Licensed Area during works that the User is undertaking on the Licensed Area, the User must:
 - (1) immediately stop that work;
 - (2) inform the Owner of the asbestos and allow the Owner to inspect the asbestos; and

(3) prior to recommencing the work, comply with safety procedures or precautions required by the Owner or by law in respect of the asbestos.

7.23 Alterations

The User must not:

- (a) make an alteration or addition to or demolish any part of the Licensed Area;
- (b) remove, alter or add to the Owner's Property or the Plant and Equipment;
- (c) install a fixture or partitioning in the Licensed Area;
- (d) make a hole in the walls of the Licensed Area; or
- (e) drive nails or other objects into the walls or other parts of the Building,

unless the User:

- (f) obtains all relevant statutory or other approvals prior to undertaking works or alterations;
- (g) obtains the prior written consent of the Owner; and
- (h) satisfies reasonable conditions imposed by the Owner.

7.24 Compliance with Crown Lease and State Agreement

- (a) This Licence includes the provisions set out in Schedule 2 if details of a Crown Lease or a State Agreement are inserted in Item 9 or Item 10, respectively, of Schedule 1.
- (b) To the extent of any conflict between the provisions of Schedule 2 and the other terms and conditions of this Licence, the provisions in Schedule 2 prevail.

8 Reservations

8.1 Owner may enter Licensed Area

- (a) The Owner is permitted to enter the Licensed Area to:
 - (1) inspect or clean the Licensed Area;
 - (2) view the Licensed Area with prospective purchasers, tenants or licensees; or
 - (3) undertake work or maintenance to the Licensed Area or the Owner's Property,

at all reasonable times on the Owner giving to the User 24 hours' notice, except in the case of an emergency when the Owner may enter at any time without notice.

- (b) Where:
 - (1) the User has failed to comply with one of its obligations under this Licence; and
 - (2) the Owner has given the User at least 24 hours' notice to comply with that obligation,

the Owner may enter the Licensed Area and undertake necessary work or actions at the User's cost in order to comply with any of the User's obligations on the User's behalf.

8.2 Owner may undertake building works

The Owner may:

- (a) undertake repairs or maintenance to the Building;
- (b) do building work to extend, refurbish or change the Building,

subject to the Owner causing as little disruption to the User's use of the Licensed Area as is reasonable in the circumstances.

8.3 Owner may grant easements and other interests over Land

The Owner may:

- (a) subdivide the Land or the Building; or
- (b) grant licences, easements or restrictive covenants over the Land,

provided that the Owner does not substantially and permanently reduce the User's rights under this Licence.

9 Risk, indemnity and insurance

9.1 Risk and liability

- (a) The User occupies and uses the Licensed Area at its own risk.
- (b) The User is liable for the acts or omissions of Permitted Persons arising out of and in connection with the rights and obligations created by this agreement.

9.2 Indemnity

The User indemnifies the Owner against all loss, damage or expense which the Owner suffers or incurs arising whether directly or indirectly from:

- (a) the User's use or occupation of the Licensed Area;
- (b) an act or omission of the User or a Permitted Person; or
- (c) a breach of any of the User's obligations under this agreement;

except to the extent that the loss or damage is caused or contributed to by the Owner or the Owner's employees, agents or contractors.

9.3 Release

The User releases the Owner from:

- (a) an action or demand due to an action, demand, claim, damage, loss, injury, or death, occurring in the Licensed Area; and
- (b) all claims that may arise from the User's use of the Licensed Area,

except to the extent caused by the Owner or the Owner's employees, agents or contractors.

9.4 Insurance

- (a) The User must, at its own cost, effect and maintain the Required Insurances during the Term.
- (b) On request, the User must provide to the Owner certificates of currency in respect of all Required Insurances.
- (c) The User must:
 - (1) not do, or omit to do, anything:
 - (A) which might render the insurance on the Building or public liability insurance in respect of the Land void or voidable; or
 - (B) which might cause the rate of premium to be increased; and
 - (2) if the Owner approves in writing a proposal of the User to add to or increase a risk which is covered by insurance, pay all additional premiums resulting from the additional or increased risk.

10 Termination

10.1 Termination for breach

The Owner may terminate this Licence by written notice to the User if the User is in default of its obligations under this Licence and does not remedy the default within 10 Business Days of receiving a notice given to the User by the Owner requiring the User to remedy that default.

10.2 Yield up

- (a) On the expiry of, or within 10 Business Days of the sooner determination of, the Term, the User must:
 - peaceably surrender and yield up to the Owner the Licensed Area in a condition consistent with observance and performance of the User's obligations under this agreement;
 - (2) vacate the Licensed Area; and
 - (3) give to the Owner all keys and security access devices providing access to the Licensed Area held by the User whether or not provided by the Owner.
- (b) Subject to clause 10.2(a)(2) (Yield up), the User must remove all the User's Property from the Licensed Area within 10 Business Days after either the:
 - (1) expiration of this agreement; or
 - (2) termination of this agreement.
- (c) All damage done to a part of the Licensed Area or the Common Areas or the Owner's Property or of another person by the removal of the User's Property by the User must immediately be made good by the User to the satisfaction of the Owner and, if the User fails to do so, the Owner may make good the damage at the expense of the User.
- (d) If the User fails to remove the User's Property from the Licensed Area or the Common Areas in accordance with this clause, the User agrees the Owner may remove the User's Property from the Licensed Area and in doing so that the Owner is not liable for damage to or the security of the User's Property.

(e) The User removes the User's Property from the Licensed Area at its own risk.

11 Evidence of incorporation

Where the User is an incorporated association under the *Associations Incorporation Act 1987* (WA) or equivalent legislation in another jurisdiction, the User must, within 5 Business Days of a request from the Owner, provide the Owner with:

- (a) evidence of the User's incorporation;
- (b) a copy of the minutes from the User's last annual general meeting; and
- (c) a copy of the User's constitution.

12 Special conditions

- (a) This Licence includes the special conditions set out in Item 12 of Schedule 1.
- (b) To the extent of any conflict between those special conditions and the other terms and conditions of this Licence, the special conditions prevail.

13 General

13.1 Caveats

- (a) The User must not lodge an absolute caveat over the Land to protect the interest of the User under this Licence.
- (b) The User must withdraw any subject to claim caveat warning of the interest of the User over the Land on expiry or earlier termination of this Licence.

13.2 Notices

- (a) A notice to a person must be in English, in writing and signed by, or on behalf of, the sender.
- (b) The Owner may only serve a notice on the User by:
 - (1) giving it to the User personally;
 - (2) leaving it at, or posting or faxing it to, the address in Item 2 of Schedule 1.
- (c) The User may serve a notice on the Owner by posting it, by registered mail, to the address in Item 1 of Schedule 1.
- (d) The Owner or the User may change the address details set out in Items 1 and 2 of Schedule 1 by giving notice of the new address details to the other party.
- (e) A notice sent by post will be treated as having been given on the third Business Day after posting.
- (f) A notice sent by facsimile will be treated as having been given on production of a transmission report by the sender's facsimile machine which indicates that the facsimile message was transmitted in its entirety to the recipient's facsimile number, but if the transmission is on a day which is not a Business Day or is

after 4.00 pm (addressee's time) it is treated as having been given on the next Business Day.

13.3 Proper law

This Licence is governed by the laws in force in Western Australia.

13.4 Severance

If a part of this agreement is, or becomes, void or unenforceable that part is or will be, severed from this agreement to the intent that all parts that are not, or do not become, void or unenforceable remain in full force and effect and are unaffected by that severance.

13.5 Waivers

- (a) Failure to exercise or delay in exercising a right, power or privilege in this agreement by the Owner does not operate as a waiver of that right, power or privilege.
- (b) A single or partial exercise of a right, power or privilege does not preclude:
 - (1) another or further exercise of that right, power or privilege; or
 - (2) the exercise of another right, power or privilege.

13.6 Variation

This agreement may be varied only in writing by the parties.

13.7 Further assurances

Each party must execute and do all acts and things necessary or desirable to implement and give full effect to the provisions and purpose of this agreement.

13.8 Continuing obligations

The provisions of this agreement will apply throughout the Term and all obligations of the User are continuing obligations.

13.9 Assignment

The User must not assign its rights or obligations under this agreement to a party without the express written consent of the Owner in its absolute discretion.

13.10 Entire agreement

This agreement supersedes all previous agreements in respect of its subject matter and embodies the entire agreement between the parties.

Mrs Sarah Johnston Acting Director Community Services Shire of Ashburton PO Box 92 Paraburdoo WA 6754

Dear Mrs Sarah Johnston,

On Behalf of the Paraburdoo Amateur Swimming Club (PASC) committee, we would like to request assistance from the Shire of Ashburton to deliver the Swimming WA 2019 Hancock Prospecting Pilbara Championships in Paraburdoo on Friday 22nd to Sunday 24th November 2019 at the Quentin Broad Swimming Pool.

The event is an annual competition where all clubs from the Gascoyne, Pilbara & Kimberley Regions are invited to compete on a team basis. We are expecting teams from Tom Price, Pannawonica, Onslow, Carnarvon, Exmouth, Karratha, Newman, Port Hedland, Wickham & Broome to take part in the Championships.

As the host town we need to provide team accommodation, officials accommodation & flights, sufficient shade, a continuous supply of iced water to all volunteers, officials & swimmers as well as ensure there is sufficient access to food and meals throughout the weekend.

We anticipate approximately 150 competitors aged 9 - 16 years old and over 180 out of town visitors requiring accommodation and 300 visitors to our town during the event. The Paraburdoo Amateur Swimming club currently has 22 competitive swimmers who competed at the 2018 Pilbara Championships held in Tom Price and we are hoping to have a few more join the ranks and swim in their first competition at the event.

Paraburdoo last hosted this event in 1997, 22 years ago, and our dedicated committee are excited to host this event again to showcase our town, our club and our brand-new facilities. All retail shops, including food outlets and other local organisations will also benefit with a predicted increase in trade over the 3 days.

We are currently seeking corporate sponsorship from local businesses for the event to assist with costs of pool/lane hire, officials flights & accommodation, visitor accommodation, air-conditioned

demountable office, generator, additional equipment (marquees, bins, PA systems, chairs & tables), Water supply, Food supply for volunteers & officials, Cleaning, First Aid Requirements, Printing of programs, trophies & prizes.

We would like to ask the Shire of Ashburton for sponsorship and assistance for the following:

- 1. Hire of the Quinten Broad Swimming Pool for the weekend
 - Hire of all 6 lanes Friday 3pm 9pm, Saturday 6am 8pm and Sunday 6am 3pm
 - Restricting public access to the pool for anything other then spectating during these times
 - We would like approval to place a demountable office on the grassed area to the left of the starting blocks. We need an air-conditioned office with a direct view of the start line, as a large amount of electronic equipment is used by the chief recorders and needs to be housed and operated in a secure and air-conditioned room
 - Approval to place a generator near the fence of the pool area for power for the airconditioned demountable office
 - Access through the back gate of the pool to the new hub changerooms & toilets, and approval to put up temporary fencing to ensure safety & security
- 2. Assistance with team & visitor accommodation
 - Waivered Hire fee of Ashburton & Lesser Hall 48 hours
 - Waivered Hire fee of the New indoor sports court 48 hours
 - Waivered Hire fee of the new changerooms & toilets 48 hours
 - Access to possible overflow sites for those who would like to bring caravans or campers
- 3. Access to the swimming pool from the 26th August 2019, 4 weeks prior to the public opening date of 23rd September 2019. To allow Paraburdoo Swimmers access to training for the event. As this is first long course swim meet of the season and for some Paraburdoo swimmers their very first swim meet, we are seeking permission for our squad to commence training 4 weeks prior to the official opening date of the pool. The club would like to train 3-4 days per week with lessons running over a 2 hour period, allowing our swimmers to prepare over 12 weeks.

All liability would be removed from the Shire of Ashburton. Only financial members would be allowed to participate in the training above to ensure their coverage under our insurance.

4. Marquee Hire for the event. We would like to use the 5 x Shire of Ashburton branded Marquees at the pool for sun protection.

Mrs Sarah Johnston 19/02/2019 Page 3

- 5. Extra Bins for the event. We estimate we require 5 x additional 240L & 1 x 1110L bins
- 6. Chairs & Trestle Tables for the event we require 100 chairs & 20 trestle tables to be used at the pool for officials, time keepers, referees, office etc
- 7. Dolphin Timing System In kind donation for hire of the Shires Dolphin Timing System, for use at the championships.

Paraburdoo Teeball Association PO Box 228 Paraburdoo, WA, 6754 14/02/2019

Mrs. Sarah Johnston Acting Director Community Services Shire of Ashburton

Dear Mrs. Sarah Johnston:

The Paraburdoo Teeball Association would like to request the Assistance of the Shire of Ashburton to deliver the North West Teeball Championships Regional Event in the town of Paraburdoo 20-22, September 2019.

The event comprises of the towns of Newman, Tom Price, Paraburdoo, Port Hedland, Karratha and Wickham. 3 teams from each of the towns compete in 3 different age categories for the title of North West Teeball Champions.

We expect approximately 240 competitors aged between 6-13 yrs. and 55 coaches and team managers as well as 8 Teeball WA (TBAWA) officials from Perth who officiate the event. We also expect approximately 300 spectators from the competing towns. Total amount of visitors are expected to be approximately 600.

Paraburdoo hasn't hosted this event for 21 years due to the lack of facilities all the towns involved are excited that with the new Paraburdoo Sport, Fitness and Community Complex the town is now in the position to host this event once again.

4 years ago Paraburdoo Teeball Association rejuvenated junior sport in Paraburdoo after a 3 year hiatus due to lack of volunteers. Our volunteers have been working extremely hard in the community over the last 12 months to fundraise for this event. Paraburdoo Teeball Association has been liaising with previous host's towns and during this has been advised that without the support of the Local Government and corporate sponsorships to host the event it would cost approximately \$30,000 to host with only \$10,000 being recouped in nomination fees from the competing towns.

We are currently also seeking corporate sponsorships to assist with costs of officials (flights and accommodation), trophies, gifts to participating players, extra equipment (marquees, benches, water coolers for each diamond), water supply, cleaning, First Aid requirements, printing of booklets, balls etc.

As the host town we need to supply team accommodation, players and officials' meals for the weekend, sufficient shade and a continuous supply of iced water to all 5 diamonds, as well as all the other necessary event requirements.

We have already secured the assistance of the Paraburdoo Primary School and Karingal Neighborhood Centre with team accommodation as well as the use of the School oval, as well as the Tom Price Teeball Association who are happy to assist with the loan of equipment.

The Paraburdoo Teeball Association respectfully request the following Shire of Ashburton facilities to be donated;

Ashburton and Lesser Hall for team accommodation, 12pm Friday 20 September-12pm Sunday 22 September, 48 hours =\$1192

New indoor sport court for team accommodation, 12pm Friday 20 September-12pm Sunday 22 September, price based on Tom Price Recreation Centre, 48 hours= \$773

Peter Sutherland Oval, 7am Friday 20 September-4pm Sunday 22 September, 57 hours= \$228

Lights on Peter Sutherland Oval from 6pm-10pm Friday and Saturday night, 8 hours=\$121.60

Judy Woodvine Oval, 7am Friday 20 September-4pm Sunday 22 September, 57 hours =\$228

The use of the 4 change rooms and public toilets in the new complex from 12pm Friday 20 September-12pm Sunday 22 September, cost based on current charges for Peter Sutherland change rooms, 57 hours x 2 sets of change rooms-oval and pool side \$760.

The Function/ canteen area in the new facility.

The change rooms will be allocated by 1 per town providing change/showers facilities for the duration of the event. We are requesting the use of the pool side change rooms. We understand that this will need some additional temporary fencing/ safety precautions to block the pool to the towns allocated these facilities, and would like to work with the Shire to ensure any safety concerns are met.

Extra bins for the weekend, we would like additional bins supplied as per the health requirements of 5 extra 240 litre bins + 2 additional 1100m3 bins= \$612

4 shire marquees to use as shade and to assist us in promoting the Shire of Ashburton during the event, these Marquees would be set up on the Main Diamond where the finals will be held on the Sunday morning.

Team accommodation	\$1965 full cost	\$982.50 Jnr % applied
Ovals and lights	\$577.60	\$288.80 Jnr % applied
Change rooms	\$760	\$380.00 Jnr % applied
Extra bins	\$612	\$612
Marquee hire	In Kind	In Kind
PA System	\$100	\$100
Traders/event permit	\$21	\$21
Function/canteen area	Unsure of cost	Unsure of cost
Temp fencing in pool	Unsure of cost	Unsure of cost
Total Cost		\$2384.30

As there is limited accommodation available for visitors we would like to enquire if there be Overflow sites can be made available to spectators who are wishing to bring vans and campers and request the Shire of Ashburton assistance in formalizing this

We will need permission to place and store 1000 litre water pods on the oval and to be able to use a 4 wheelers bike with a trailer on the ovals to keep up the constant water supply needed to ensure player and spectator safety.

The Paraburdoo Teeball Association will be engaging with all clubs and community groups in town to discuss fundraising opportunities over the weekend.

This will be a busy and eventful weekend in Paraburdoo and we believe local businesses will get a major economic boost from the visitors.

If successful in gaining the support of the Shire of Ashburton, we would promote the Shire in the booklets that are given to all participants as well as thank and acknowledge the Shire in all speeches and Media related to the event.

The Paraburdoo Teeball Association are looking forward to be able to showcase our beautiful town and the new facility to people from other Local Government areas.

Sincerely,

Bernadette Neville
