### 6.2 DECLARATIONS OF INTEREST

**Councillors to Note** 

A member who has an Impartiality, Proximity or Financial Interest in any matter to be discussed at a Council or Committee Meeting, that will be attended by the member, must disclose the nature of the interest:

- (a) In a written notice given to the Chief Executive Officer before the Meeting or;
- (b) At the Meeting, immediately before the matter is discussed.

A member, who makes a disclosure in respect to an interest, must not:

- (a) Preside at the part of the Meeting, relating to the matter or;
- (b) Participate in, or be present during any discussion or decision-making procedure relative to the matter, unless to the extent that the disclosing member is allowed to do so under Section 5.68 or Section 5.69 of the Local Government Act 1995.

### **NOTES ON DECLARING INTERESTS (FOR YOUR GUIDANCE)**

The following notes are a basic guide for Councillors when they are considering whether they have an interest in a matter. These notes are included in each agenda for the time being so that Councillors may refresh their memory.

- A Financial Interest requiring disclosure occurs when a Council decision might advantageously or detrimentally affect the Councillor or a person closely associated with the Councillor and is capable of being measure in money terms. There are exceptions in the *Local Government Act 1995* but they should not be relied on without advice, unless the situation is very clear.
- 2. If a Councillor is a member of an Association (which is a Body Corporate) with not less than 10 members i.e. sporting, social, religious etc), and the Councillor is not a holder of office of profit or a guarantor, and has not leased land to or from the club, i.e., if the Councillor is an ordinary member of the Association, the Councillor has a common and not a financial interest in any matter to that Association.

- 3. If an interest is shared in common with a significant number of electors or ratepayers, then the obligation to disclose that interest does not arise. Each case needs to be considered.
- 4. If in doubt declare.
- 5. As stated in (b) above, if written notice disclosing the interest has not been given to the Chief Executive Officer before the meeting, then it <u>MUST</u> be given when the matter arises in the Agenda, and immediately before the matter is discussed.
- 6. Ordinarily the disclosing Councillor must leave the meeting room before discussion commences. The **only** exceptions are:
- 6.1 Where the Councillor discloses the **extent** of the interest, and Council carries a motion under s.5.68(1)(b)(ii) or the *Local Government Act*, or
- 6.2 Where the Minister allows the Councillor to participate under s.5.69(3) of the *Local Government Act*, with or without conditions.

### 7. ANNOUNCEMENTS BY THE PRESIDING MEMBER WITHOUT DISCUSSION

President Cr White advised Council that she attended Regional Development Australia's 'National Summit' and 'Master Class' over 3 and 4 April 2019 in Canberra. Cr White advised that the theme of this year's Canberra summit was *Regional Futures* which will capture the key issues impacting regional communities.

Topics included: *The Jobs of the Future*; *Population*; *Health*; and *Education*. Key drivers of regional development were discussed through an economic and social lens.

Cr White advised that participants contributed to a *Regional Policy Hack*, facilitated by experts to explore the key policy ideas. The session addressed Regional Jobs, Regional Health, Population Strategy, and Place-Based Programs provided and brought insights from industry, academia, government and community groups. These sessions provided a collaborative and purposeful action list for the future for our regions.

In particular, Cr White noted that speakers at the 'National Summit' emphasised that the freight and logistics industry is an essential component of the national economy. An efficient, sustainable and cost-effective freight and logistics industry enabled through partnerships with all levels of government supports Australia's growing economy and quality of life aspirations. PREVIOUS MEETING Agenda Item 11.1 (Minute No 517/2019) - Ordinary

The author and authorising officer have no financial,

**REFERENCE:** Meeting of Council 12 March 2019

### **Summary**

The purpose of this agenda item is to report back to Council on the progress of the implementation of Council decisions.

### **Background**

The best practice in governance supports the regular review of Council decisions to ensure that they are actioned and implemented in a timely manner.

### Comment

Wherever possible, Council decisions are implemented as soon as practicable after a Council meeting. However, there are projects or circumstances that mean some decisions take longer to action than others.

This report presents a summary of the "Decision Status Reports" for Office of the CEO, Corporate Services, Infrastructure Services, Community Services and Property and Development Services.

### **Statutory Environment**

Section 2.7 of the Local Government Act 1995 states:

"Role of council

- (1) The council
  - (a) governs the local government's affairs; and
  - (b) is responsible for the performance of the local government's functions.
- (2) Without limiting subsection (1), the council is to
  - (a) oversee the allocation of the local government's finances and resources; and
  - (b) determine the local government's policies."

The above section of the Act notwithstanding, there is no specific legal requirement to present such a report to Council or for Council to receive or consider such a report. Given it is always 'received', it could simply be provided to elected members via weekly or monthly updates, such as in the weekly Information Bulletin. The decision to retain the report in the Council's monthly agenda is entirely Council's prerogative. Staff acknowledge the critical and ongoing nature of the document, in that Council 'speaks by resolution'.

<u>State Administration Tribunal (SAT) – Chevron Australia Pty Ltd (Chevron) and Valuer General Office (VGO)</u>

On 28 February 2019 SAT handed down its ruling for Chevron and the VGO in relation to the former party's objection to the valuation of their Wheatstone Plant for rating purposes. As part of the process both parties had 28 days to appeal the ruling and as at 28 March 2019 confirmation was received from Landgate advising no such appeal had been lodged.

<u>Western Australia Natural Disaster Relief and Recovery Arrangements (WANDRRA) - AGRN</u> 743

WANDRRA AGRN 743 relates to the flood event that occurred in the Pilbara in January / February 2017. Using the WANDRRA framework the Shire provided a cost estimate of \$10,710,372 to Main Roads WA (MRWA) for repair of the damaged roads as a result of the flooding (this figure was included in the 2017/18 Budget).

After receiving approval from MRWA, the Shire and its sub-contractors commenced works in March 2018 on the twenty four designated roads for repair. Those works are now nearing completion with the full program due to be finalised by the end of April 2019. As of writing \$10,149,575 in invoices have been paid to sub-contractors with around 80% or \$8,137,857 recouped from MRWA. Recoup paperwork for \$1,593,061 is currently with MRWA and receipt of funds is expected in the next few weeks.

The balance of \$418,657 is made up of the following:

- 1. Shire contribution totaling \$244,435; and
- 2. An unpaid recoup for Claim no. 2 totaling \$174,222. This recoup relates to Shires costs incurred for establishing water bores near road repair sites. MRWA disputes the eligibility of this claim. The Shire sent correspondence to MRWA Pilbara on 26 February 2019 providing justification based on similar successful claims for water bores made by other WA Local Governments. The Shire has yet to receive a response.

### **Statutory Environment**

S 6.4 Local Government Act 1995, Part 6 – Financial Management, and Regulation 34 Local Government (Finance Management) Regulation 1996.

The Local Government Act 1995 Part 6 Division 4 s 6.8 (1) requires the local government not to incur expenditure from its Municipal Fund for an additional purpose except where the expenditure:

(b) Is authorised in advance by resolution\*

"Additional purpose" means a purpose for which no expenditure estimate is included in the local government's annual budget.

\*requires an absolute majority of Council.

Access to Information- Division 7 of the Local Government Act 1995
Rates and Sundry Debtors Financial Reports

S5.95 of the Local Government Act provides the limits on right to inspect local government information.

In particular clause 5.95 (2) refers to the inspection of information *relating to "any debt owed to the local government"*. S 5.95 states (in part) the following:-

5.95 Limits on right to inspect local government information

- (1) A person's right to inspect information referred to in section 5.94 does not extend to the inspection of information
  - (a) which is not current at the time of inspection; and
  - (b) which, in the CEO's opinion, would divert a substantial and unreasonable portion of the local government's resources away from its other functions.
- (2) A person's right to inspect information referred to in section 5.94 does not extend to the inspection of information referred to in paragraph (m), (n), (p) or (u) of that section if the information relates to any debt owed to the local government by a person other than the first-mentioned person.

Staff have also sought clarification from Governance Consultant, Ms Jenni Law who advised as follows:-

"Section 5.94 gives members of the public the right to inspect a variety of information, which includes reports prepared for council and any rate record. Section 5.95(2) limits that right if the information relates to any debt owed to the local government.

Currently Council receives reports on the Top 5 Outstanding Rates Debtors and Top 10 Outstanding Sundry Debtors. Rate Debtors are identified by Assessment No and Sundry Debtors by Debtor No. Issues could arise if a member of the public or media, uses these reports to get access to the rate record and/or debtor details. In the case of the Rate Record, Council would have to provide ownership and land details, but not details of the outstanding debts. The unscrupulous could determine the linkage between the report and rate record.

There is a risk if Council continues to receive details of outstanding rates in the current format. I don't believe the risk is as great for sundry debtors as Council is not required to make debtor details available under S5.94. Given the potential risk I believe the rates report needs to be amended."

### **CONFIDENTIAL ATTACHMENT 12.1F**

Accordingly, amendments have been made to the financial reports on Rates Debtors and Sundry Debtors to ensure that the Shire complies with the requirements of the *Local Government Act 1995*.

**REFERENCE:** Meeting of Council 18 December 2018

### Summary

The purpose of the Policy Review is to update the major depreciation periods used for each class of depreciable asset as currently listed in FIN06 Financial Accounting Policy.

### **Background**

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- a) Restated proportionately with the change in the gross carrying amount of the asset so that the carrying amount of the asset after revaluation equals its revalued amount; or
- b) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Revaluations undertaken by the Shire during the last three years have resulted in comprehensive data being gathered for each of the main Asset Classes – Land and Buildings, Plant and Equipment and Infrastructure. This data includes new fair and replacement values, asset condition scores and annual depreciation amounts from which revised depreciation rates for each individual asset is calculated.

#### Comment

The following changes to depreciation periods and rates are recommended to be made to the policy to align with calculated rates from recent asset revaluations undertaken:

Asset Class	Current Depreciation Period	New / Revised Depreciation Period	Current Depreciation Rate	New / Revised Depreciation Rate
Airport	NA	1 to 20 years	NA	1.00 – 5%
Bridges	NA	80 years	NA	1.25%
Footpaths	35 to 50 years	25 to 66 years	2 – 2.85%	1.5 – 4%
Sealed	80 years	50 to 100 years	1.25%	1 – 2%
Roads				
Unsealed	80 years	25 to 100 years	1.25%	1 – 4 %
Roads				
Buildings	15 to 100 years	12 to 100 years	1 - 6.67%	1 – 8%
Drainage	100 years	50 to 100 years	1%	1 – 2%

PREVIOUS MEETING Agenda Item 13.1 (Minute No. 501/2019) -

**PREVIOUS MEETING** Agenda Item 13.1 (Minute No. 501/2019) – Ordinary REFERENCE: Meeting of Council 12 February 2019

#### **Summary**

At the Ordinary Meeting of Council held on 12 February 2019, Council resolved:

- 1. "in accordance with section 58 of the Land Administration Act 1997, to request the closure of 6,689m2 unconstructed section of First Avenue, Onslow, formally described as Public Road Land ID Number 3488919 and shown as hatched on the plan provided in the report.
- 2. Advertise the proposed road closure in accordance with Part 5, Division 1, and section 58 of the Land Administration Act 1997.
- 3. Request the Chief Executive Officer to provide Council with a further report once advertising as provided in 1. Above is completed and to address matters not limited to the disposal of the closed road along with any appropriate leasing arrangements for the closed road."

Advertising of the proposed road closure was undertaken from 20 February 2019 to 5 April 2019 with no objections or comments received.

#### **Background**

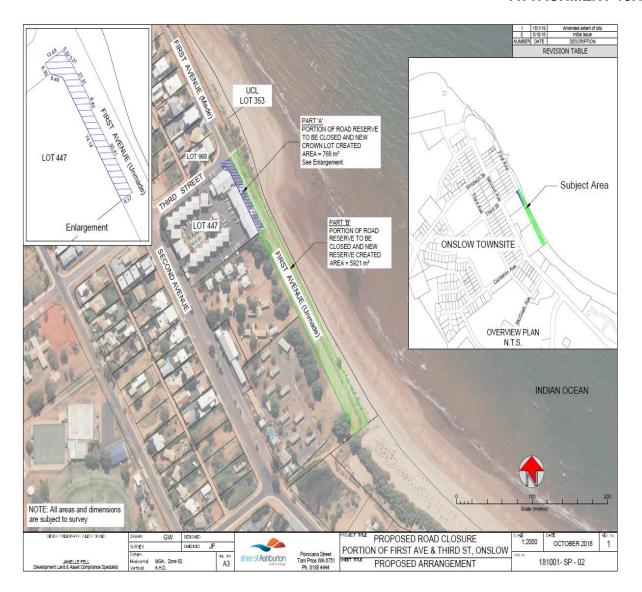

The land subject to the proposed road closure is formally described as Public Road Land ID Number 3488919. The road closure requires actions under section 58 of the Land Administration Act 1997 and regulation 8 of the Land Administration Regulations 1998.

At its Ordinary Meeting on 28 January 2015, Council endorsed the allocation of \$15,000 for 50% of the footpath construction costs within the First Avenue road reserve between the Onslow Beach Resort restaurant and the coastline.

The remainder of the footpath costs were funded by Onslow Beach Resort and complemented the already completed landscaping and fencing improvement works undertaken by the Onslow Beach Resort.

The Onslow Beach Club (OBC) requested the Shire grant them some form of tenure for the land on the north-eastern boundary of Lot 447 on Deposited Plan 182626 that is currently developed with a landscaped alfresco dining area.

#### **ATTACHMENT 13.1**

The landscaped area operates as an outdoor extension to the OBC dining facility on what is currently a Public Road. There is no legal opportunity to lease or license a road reserve for purposes other than a road.

As the landscaping works have been constructed on a 768m2 portion of dedicated road, being Public Road Land ID Number 3488919, Council endorsed, at its Ordinary Meeting on 12 February 2019, closure of the 6,059m2 portion of the dedicated road from Third Street extending through to Lot 354 in accordance with section 58 of the *Land Administration Act* 1997.

When the road is formally closed, 768m2 of the land would be reserved or potentially leased to the Shire who would then be able to sub-lease or licence the portion for a commercial purpose.

#### Comment

The proposed road closure was advertised in the Pilbara News, on the Shire website and local notice boards in accordance section 58 of the *Land Administration Act 1997* from 20 February 2019, closing on 5 April 2019. No objections or comments were received.

#### Summary

The Shire has received a request from the owner of Lot 414 Acalypha Street, Tom Price to permanently close portion of the Pedestrian Access Way (PAW) linking Acalypha Street to Hibiscus Street.

The PAW is described as Lot 62 on Plan 15205 located approximately halfway along Acalypha and Hibiscus Streets. Lot 62 is held by the State of WA, having been vested under section 20A of the *Town Planning and Development Act 1928* (superseded) for the purpose of a pedestrian access way.

Should Council support the proposed closure, the Applicant will progress purchase of the subject portion for amalgamation with adjoining freehold Lot 414 with the Department of Planning, Lands and Heritage.

#### **Background**

The PAW is described as Lot 62 on Plan 15205, which was developed as a PAW, located approximately halfway along Acalypha and Hibiscus Streets. Lot 62 is held by the State of WA, c/- Department of Planning, Lands and Heritage, having been vested under section 20A of the Town Planning and Development Act 1928 (TPDA) (superseded) for the purpose of pedestrian access way.

As PAWs created under s.20A of the TPDA are owned in freehold by the State of Western Australia, this category of thoroughfare, defined as a private road under the *Land Administration Act 1997* (LAA), can be closed by simply re-vesting the land under s.82 of the LAA.

PAWs and Right of Ways (ROW/s) are created as part of a land planning requirement in new subdivisions to provide access for a number of users and for access to a range of facilities.

Local Government must assess the impact of closing a PAW or ROW and in considering a closure request, a balance needs to be found between resident accessibility to facilities and public transport, and security and amenity. Where Local Government proceeds with a closure request, it is required to prepare a summary report that includes confirmation that the Local Government has resolved to recommend the closure.

Generally, a PAW or ROW will only be closed when it can be sold to the adjoining landowner/s or reserved and vested in an appropriate agency for public utility purposes. Where the land is to be sold, the Local Government informs the Minister of the proposed future disposition of the land in the closed PAW or ROW to adjoining land holders.

To mitigate water inundation to the owner's premises during rain events, caused by the elevation of the lots on the eastern side of the PAW, the owner of Lot 414 Acalypha Street, Tom Price, has requested to permanently close the ~270² portion of the PAW linking Acalypha Street to Hibiscus Street.

#### **ATTACHMENT 13.2**

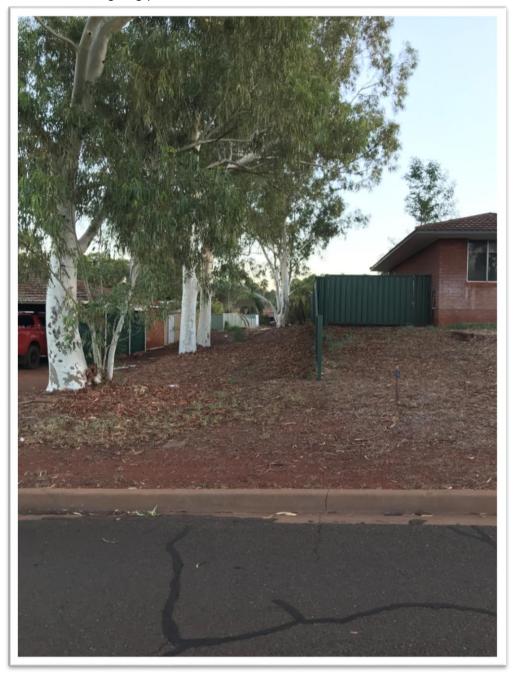

#### Comment

Lot 414's owner proposes to address issues associated with drainage and foundation damage caused by the elevation of neighboring properties and advanced trees located in the PAW. The owner proposes to direct the water ingress away from the premises through a Shire endorsed solution.

When considering a PAW closure, the impacts on local connectivity should be considered, as the permanent closure will result in loss of legal pedestrian and cycling access through a developed area.

In this regard, it is noted that the site is constrained by advanced trees and sloping formations, not easily negotiated. Alternative access between the streets is along East Road, ~72 meters west of the PAW.

When considering the permanent closure of a PAW, it should also be considered whether there will be any impact on services within the PAW. Should Council support this proposal, statutory consultation with relevant agencies will give opportunity to identify any such underground services that may exist in Lot 62. Should underground services be located within Lot 62, and the closure proceed, these assets, if required by Rio Tinto, may be covered by an easement to ensure ongoing protection.

The advanced trees within the PAW have restricted access for Rio Tinto Utilities for what appears to be several decades, therefore it is assumed they would not object to the proposal.

Access by Emergency Services vehicles is not expected to be impeded due to the existing restricted access. Alternative access between streets is gained by using East Road.

Should there be any objections to this proposed formal closure from service providers or the general public, these would be presented for Council consideration to determine whether to proceed with the PAW closure. If no objections are received, it is proposed that the request be forwarded directly to the Minister for Lands to determine.

Should Council resolve not to support this closure, the Shire would be responsible for treatment of the root system which is causing damage to the properties foundations and a drainage solution to direct water inundation past the premises into storm water drains. The Shire would be responsible for maintaining the PAW to a standard similar to other such community assets.

Upon support from Minister for Lands, the owner would progress acquisition of the portion of PAW for amalgamation into Lot 414. As a guide, a recent indicative value of land in Tom Price estimated ~\$3,000 for 200m2. A formal valuation would be undertaken by the Valuer General should the Department of Planning, Lands and Heritage (DPLH) consent to the land closure and sale.

#### **Statutory Environment**

Pedestrian Access Ways (PAW), where there isn't an 'owner', are the responsibility of the Shire in accordance with section 3.53 of the Local Government Act 1995 (LG Act). This responsibility includes removal of trees, rubbish, ongoing maintenance etc.

Section 3.53(2) of the LG Act states that "A local government is responsible for controlling and managing every otherwise unvested facility within its district unless subsection (5) states that [section (2)] does not apply."

As defined by section 3.53 of the LG Act, an "otherwise unvested facility" means "a thoroughfare, bridge, jetty, drain or watercourse belonging to the Crown, the responsibility for controlling or managing which is not vested in any person other than under this section."

A PAW satisfies the definition of a "thoroughfare" under section 1.4 of the LG Act: a "thoroughfare" refers to "a road or other thoroughfare and includes structures or other things appurtenant to the thoroughfare that are within its limits, and nothing is prevented from being a thoroughfare only because it is not open at each end".

The PAW requires actions under section 58 of the *Land Administration Act* 1997 (LAA) and regulation 9 of the respective legislation. In this case, the land is not dedicated as a public road, but Crown land acquired by the Minister for Lands for the purpose of a PAW pursuant to section 20A of the *Town Planning Act* 1928 (superseded). A request to close such a PAW requires actions under the LAA comprising:

Requirement	Comment
An information report summarising the proposed closure	This report fulfills this requirement
Consideration of alternatives to the closure	This report fulfills this requirement
Documentation of anti-social behavior and crime being experienced, and Council's policy to combat this	No anti-social behavior or crimes associated with this PAW
Relevant government department/agencies comments	Will be requested assuming Council support for the closure
Consultation details	Will be submitted with request to Minister if Council supports closure
Correspondence with adjoining landowners regarding the closure	Correspondence will be attached to request if Council supports closure
Council resolution supporting the closure	Resolution to this agenda item satisfies this requirement

#### **Financial Implications**

There are no financial implications for this matter if Council resolves to support the PAW closure beyond Officer time required to prepare various correspondence and advertising material. Should Council resolve not to support the closure, the Shire will assume maintenance of the PAW.

#### Summary

The Shire holds approximately \$236,655 in a trust fund for use in purchasing or developing public open space. These funds have been generated through Cash in Lieu (CiL) contributions from two subdivisions in Tom Price and may only be spent with the approval of the Minster for Planning on public open space projects in Tom Price.

This item seeks Council endorsement and authorisation to formally request the Minister for Planning to utilise the CiL funds for the 'Tom Price Pump Track' project and enable it to proceed.

#### **Background**

The Shire has generated the funds through contributions from two subdivisions in Tom Price at Minha Road (WAPC 139694) and Lot 327 Warrara Street (WAPC 1170-12).

Pursuant to s154 (2) of the *Planning and Development Act 2005*, the Shire is permitted to use these funds for the purchase of land to be used as public open space or, with the Minister's approval, the improvement of existing public open space.

In making a request to the Minister for Planning to expend cash in lieu funds, a local government must identify the subdivisions that generated the funds, how much is proposed to be drawn down from the remaining total, and expenditure program, detailed concept designs, and procurement methodology. The Department for Planning, Lands and Heritage will then assess the request and advise the local government of the Minister's decision.

In relation to the expenditure of CiL funds available for the Shire in Tom Price, it is considered appropriate that the funds be directed to the 'Tom Price Pump Track' project. In this regard, Council will need to demonstrate a direct link between the CiL and the expenditure on the Tom Price Pump Track' project.

In January 2017, the Pilbara Regional Council (PRC) funded a strategic investigation into the development and promotion of mountain biking it the Pilbara. The mountain bike trail construction consultants, Common Ground were engaged to undertake the investigation and prepare the *Pilbara Mountain Bike Report* (PMBR), a regional strategy that has only been released as a Confidential Draft and has not been considered by Council or been granted any official status.

While the overall strategy has not be finalised or endorsed by the PRC or any member local government, following informal consultation with the Karijini Mountain Bike Group (a casual group of interested people), Common Ground considered two potential Mountain Bike infrastructure proposals that would benefit Tom Price: a Pump Track, and the development of local level and site specific mountain biking trail plans. These findings are published in the Draft *Tom Price Pump Track Mountain Bike Development Proposal* (the Proposal) dated August 2017.

Following the preparation and draft release of the PMBR and the Proposal, Common Trails prepared the *Tom Price Pump Track Site Assessment* (Site Assessment). This report, published in January 2018 worked with the informal 'Karijini Mountain Bike Group' to identify and assess potential sites in Tom Price suitable for development of a Pump Track.

A Pump Track is a 1-3 metre wide track suitable for use by bicycle, skateboard, inline skates, and scooters to practice skills on a dedicated facility comprising a series of berms and rollers constructed in quick succession. Similar to a small-scale BMX track, the name refers to the arm-pumping motion used to keep a bicycle moving on the track. It is designed and constructed to suit a wide range of ages and abilities and is a popular piece of cycling infrastructure constructed for public use by local governments.

Based on previous experience, Common Ground estimated that a Mountain Bike Pump Track could be constructed for \$125,000 - \$520,000 depending on the project scope, and availability of donated materials/services and volunteer labour. However, as the Proposal is only available in draft form, these figures have not been interrogated and should be considered estimates only.

Common Ground undertook a site selection that is summarised in the following table (see also (ATTACHMENT 13.3A).

ID	Site	Tenure	Use / Zoning	Strengths	Weaknesses

Reserve 40195 is considered to be the most appropriate location for a 'pump track' given its size, location and reserve status. The concept plan for Reserve 40195 is included as **ATTACHMENT 13.3B** (shown as Tom Price Pump Track Site Assessment).

Notwithstanding these strengths, this location could experience a negative community response due to the close proximity to dwellings on Coolibah Street. This local neighbourhood consultation should be a project priority, and draw on the Karratha experience (Balyarra Park) in constructing a pump track in the middle of a residential neighbourhood, bordered on all sides by single dwellings. The Site Assessment claims that undertaking the full site development with the elements listed above would result in a range of benefits, including:

- Enhanced community based entry statement for township;
- Cycling facilities catering for the growing cycling recreation activity;
- Mountain bike specific facilities to cater for the meteoric growth in the activity;
- Provision of a safe and fun environment for young people to learn bike handling skills;
- Central hub and trail head connecting to existing and future trail networks;
- Public open space where adults and children can ride in a safe environment together;
- Enhanced community based entry statement for township;
- Visitor attraction for the local area, particularly providing for visiting families looking for activities on school holidays, potentially increasing visitor stay;
- Cater for a range of users, such as scooters and skateboards:

- Creation of passive surveillance through use by community members in otherwise quiet or unused areas;
- Recreation for people of all ages, from toddlers on pedal less balance-bikes, to teenagers, through to over-55s and older people;
- Improvement of an existing disturbed and minimally managed site at the entry to the townsite

Common Ground further detail a project delivery framework that incorporates preliminary planning, concept design, funding, detailed design, construction, and management. The proposed methodology notes the opportunity to engage local volunteers and donations to maximise the project scope within a limited budget, and also allows for staging development to incorporate additional elements when resources are made available.

These three documents, two of which are draft versions only, and one of which is still confidential provide the current planning framework for the construction of a Pump Track in Tom Price.

#### Comment

Developing a pump track on Reserve 40195 takes advantage of both the dimensions and physical features of the site that suit such a development, but also present a positive and attractive entry statement to Tom Price with an asset that provides a high class active recreation asset for residents, and a tourist attraction.

Community consultation and engagement will be critical to the successful completion of this project, both with regard to attracting local funding sources and donated services and labour, and to ensure the facility design considers and ameliorates any potential amenity impacts on local residents.

Pump tracks are currently one of the most popular active recreation spends for local governments, based on their popularity and high usage, and such a facility is likely to experience similar success in Tom Price.

In relation to the expenditure of CiL funds, it is considered appropriate that the funds be directed to the 'Tom Price Pump Track' project.

#### Summary

The Pannawonica Sporting Club Inc (PSC) was set up as incorporated association in 1983. It provides a vital social outlet for the residents of Pannawonica.

PSC is requesting a financial donation from the Shire to purchase an events trailer with a value of \$20,000 for community use on a hire arrangement.

#### **Background**

A budget provision was allocated in the 2018/19 year for the purchase of an events trailer in Pannawonica. Following on from this an internal review was undertaken, resulting in the Shire not having adequate resources based in Pannawonica to own and manage the trailer for community use. The PSC have now expressed interest in owning and managing the trailer for community use.

#### Comment

The PSC propose to purchase a purpose built community events trailer and make it available for hire to the whole community including individuals, local businesses, sporting and recreation clubs in support of fundraising, community and private events.

**ATTACHMENT 14.1** 

The PSC will be responsible for all ongoing management and costs of the trailer including, but not limited to, the registration, insurance, maintenance and any cleaning or repair work required to be undertaken. It is understood that the PSC is proposing to include the following elements in the design and fit out of the purpose built trailer:

8x6 Dual Axel Enclosed trailer with lift up side

#### **Summary**

This is the first report presented to Council pertaining to a 15 year kerb and gutter renewal program that establishes a systematic, transparent framework for the cost effective management of the Shire's kerb and gutter network that will ensure that this asset class continues to provide an acceptable level of service to the Shire's community and visitors alike, whilst enhancing asset management maturity and sustainability into the foreseeable future.

#### Introduction

The Shire of Ashburton is responsible for managing an extensive kerb and gutter network, on behalf of the community and visitors, in an effective and efficient manner. The underlying challenge facing the Shire is the sustainable provision of this service to ensure that:

- Kerb and gutter continues to meet it's intended purpose;
- Kerb and gutter meet the needs of the present and future generations;
- Future generations enjoy the same level of service as the current generation; and
- Future generations aren't left with a major backlog of works and the ensuing financial strain.

This report focuses on the sustainable renewal of kerb and gutter, however, it should be noted that it is one in a series of reports that will address the sustainable provision of the services associated with each asset class.

#### **Background**

The Shire of Ashburton is responsible for over 120km of kerb and gutter. A condition rating assessment was completed on the kerb and gutter network in March 2019, and highlighted the following:

- The Shire of Ashburton uses 3 profile types in its kerb and gutter network (refer to figure 1).
- A significant amount of kerb only and mountable kerb profiles, are lifting and allowing water into the road pavement layers (refer to figure 2);
- Cracking is evident in most sections of kerb and gutter, particularly in Paraburdoo and Tom Price. This also allows water to infiltrate road pavement layers (refer to figure 3);
- Concrete spalling is also evident in much of the kerb. This can reduce the water carrying capacity of the kerb (refer to figure 4); and
- Many vehicular crossings are separating from the gutter and allowing water to enter the pavement layers (refer to figure 5).

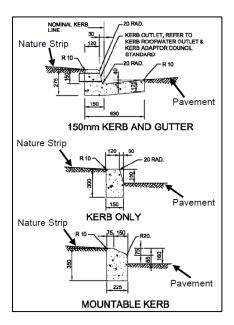

Figure 1. Kerb and Gutter Profiles within Shire of Ashburton

The most concerning aspects of these issues is the lifting of Kerb Only and Mountable Kerb Profiles. This allows water to enter the pavement layers at a critical point, thereby accelerating deterioration of the pavement.

#### Figure 2. Lifting Kerb - Pepper Street, Tom Price

This problem is due to poor construction techniques. In the past kerb only and mountable kerb profiles were placed on top of the seal as opposed to being embedded into the pavement layers. In order to ensure protection of the pavement all future installations of these profiles should be constructed with the concrete embedded into the pavement layers (refer to figure 1).

Cracking will also allow water into the underlying road pavement layers, again accelerating pavement deterioration. This would be normally addressed through routine maintenance. If problems such as this are not repaired early enough, renewal works will be required. Figure 3 below depicts what can result if cracked kerbing is not remediated or renewed at an optimal time. This will obviously require full replacement works and repairs to the pavement and seal (refer to figure 3).

Figure 3. Cracked Kerb Requiring Replacement – Pepper Street, Tom Price

Concrete spalling is caused by either aging of the concrete or through the use of a poor concrete mix (refer to figure 4). This obviously, can reduce the water carrying capacity of the kerb and gutter, thereby hindering functionality. In its early stages it can be repaired through routine maintenance. However, if left unattended it will eventually require full renewal works.

Figure 4. Concrete Spalling in Kerb – McRae Avenue, Paraburdoo

A number of vehicular crossing laybacks are separating from the gutter and leaving gaps that allow water to enter the pavement layers (refer to figure 5).

Figure 5. Vehicular Crossing Separating from Gutter

This problem is also due to poor construction techniques. There are 2 correct ways to construct the layback of a vehicular crossing, as follows:

- Remove the kerb and gutter, pour the gutter and layback of the crossing in one piece, or;
- Remove the existing kerb, drill dowel into the existing gutter and pour the new layback with the dowel from the existing gutter being connected into the new layback.

Both of these methods will negate the possibility of the depicted separation occurring. Thereby, protecting the pavement layers from water infiltration and subsidence of the vehicular crossing.

#### **Overview of the Development of the Program**

The following steps need to be undertaken to develop a program of works for kerb and gutter:

- Step 1. Develop the methodology to determine the condition of kerb and gutter.
- Step 2. Determine the average useful life of kerb and gutter.
- Step 3. Determine the condition when the shire would intervene and renew kerb and gutter.
- Step 4. Determine the budget necessary to ensure that all kerb and gutter can be renewed at the intervention level.
- Step 5. Determine the system to prioritise the works.
- Step 6. Develop the program of works.

#### **Condition Determination**

The purpose of kerb and gutter is to carry water from the road to the stormwater system without the stormwater impacting on other infrastructure. Hence, the categories that are taken into account when condition rating kerb and gutter relate to its ability to carry out this function and the factors that lead to it not being able to do so, as follows:

• **Cracking -** Cracking is one of the early signs of deterioration. In its initial stages it has minimal impact on functionality. However, as it advances its impact increases to the point that it can allow water through and into the pavement layers.

- Spalling Spalling mainly results from aging of the concrete or from the use of poor concrete mixes. Usually spalling has little impact on other infrastructure, however as it increases or spreads it does reduce the ability of the kerb and gutter to contain and distribute stormwater.
- **Impact on other Infrastructure -** Left unchecked, all defects will eventually lead to the point that they impact on other infrastructure such as severely deteriorated cracks widening and allowing stormwater into the pavement layers.

#### Rating Scale and Weighting.

The rating scale and weighting of each aspect are detailed in the table below.

Category	Description	Rating	% of New (CRC)	Weighting
	As New	0	100%	
	5% or less of section contains cracking.		80%

	>30% of section allows stormwater to affect other infrastructure.	5	0%

#### Converting the Condition Rating to a Percentage of New (CRC)

Assuming that a section of kerb and gutter received the following condition scores:

- >20% 30% of section contains cracking
   = Rating 4 20% of New (CRC)
- >10% 20% of section contains spalling = Rating 3 40% of New (CRC)
- Does not affect other infrastructure = Rating 0 100% of New (CRC)

The following formulas would give its overall condition scores:

- = (Cracking x 30%) + (Spalling x 30%) + (Impact on other infrastructure x 40%)
- $= (20\% \times 30\%) + (40\% \times 30\%) + (100\% \times 40\%)$
- = 6% + 12% + 40%

Therefore, Condition Score = 58% of New (CRC)

What this shows is that even though cracking and spalling are quite prevalent in this section of kerb and gutter, it is still in reasonable condition as it is not yet impacting on other infrastructure.

#### **Average Useful lives**

As most of the kerb and gutter in the Shire is original, the first step in establishing the useful life of kerb and gutter is to establish a time frame for when each of the towns and associated infrastructure were constructed.

#### Onslow

"Old" Onslow was gazetted in 1885 as a town at the mouth of the Ashburton River. Repeated cyclone damage and the silting up of the river caused increasing problems with the loading and unloading of visiting ships. This led the state government in 1923 to develop a new town and jetty 18 kilometres north-east at Beadon Point. The new town was gazetted in 1924, and the residents of Old Onslow moved across in 1925.

However, as most of Onslow has been developed later and in different stages over a significant time span, accurate construction dates are difficult to ascertain. Therefore, Onslow will not be used in useful life estimations.

#### Paraburdoo

The township of Paraburdoo was gazetted in 1972, with construction of the town occurring between 1970 and 1971. Hence, in the interests of being conservative, 1971 will be used as the year of construction for useful life calculations.

#### Tom Price

Although Tom Price was not gazetted until 1985, homes were first built in the central area of Tom Price in 1966. More homes were built in the south and west areas in 1968 and in 1969 homes were built in the north area. Likewise, in the interests of being conservative 1969 will be used as the year of construction for useful life calculations.

Thus, the following table outlines useful life calculations.

			Co	ndition A	ssessmen	it	Yea	Λαο	Pomaini	
Street / Road	Location	Town	Crackin g	Spalling	Impact on Infrastruct ure	Conditi on Score	r Buil t		Remaini ng Life (years)	Usefu I Life

North Rd	Central – Doradeen	TP	2 = (60%)	2 = (60%)	2 = (60%)	60%	196 9	50	75	125
Pine St	Creek Rd – Cul- de-sac	TP	2 = (60%)	2 = (60%)	2 = (60%)	60%	196 9	50	75	125
Lilac St	Court Rd – Cul- de-sac	TP	3 = (40%)	2 = (60%)	1 = (80%)	62%	196 9	50	82	132
									Average	116

Please note that the remaining life is calculated as follows:

Remaining life = Condition Score (%) x Age (years) % of deterioration (100% - Condition Score)

The useful life is then calculated by adding the age to the remaining life. Hence, the average useful life for kerb and gutter in the Shire is 116 years.

#### Intervention levels

The estimated useful life in effect means that on average the kerb and gutter will be unable to meet its intended purpose 116 years after construction. Obviously, it would be desirable for the Shire to intervene prior to the point that it no longer fulfils its function to ensure that the detrimental impact on other infrastructure is minimised.

The point at that this intervention is considered appropriate is when more than 20% of the section of kerb and gutter is cracked or spalled or more than 20% of the section has deteriorated to the point that it's impacting on other infrastructure. This equates to a deterioration from condition 3 to 4 or 40% of new. This 40% intervention point translates to a 70 year intervention life.

#### Required Budget

The Shire of Ashburton maintains about 120km's of kerb and gutter. It costs about \$128 per lineal metre to replace kerb and gutter or \$15.36 million to replace the entire existing network. Using these figures and the life cycles discussed, it is estimated that it will cost \$220,000 per annum to replace all the kerb and gutter in the Shire within its 70 year intervention life.

#### Prioritising the Works

Prioritising kerb and gutter renewal works is a matter of using the intervention life and then using the condition rating of each section of kerb and gutter to assess where it is on its life cycle. This will give the kerb and gutters remaining life until the Shire needs to intervene and renew it. Obviously, kerb and gutter that has a condition score of 40% or less needs to be renewed as soon as possible as it has already met or passed the point where the Shire needs to intervene and renew it. These sections will be prioritised from lowest condition score to highest.

For sections of kerb and gutter that have a condition rating higher than 40% it is a matter of subtracting the intervention score (40%) from the condition score and multiplying the resultant by the intervention life (70 years), to give the remaining life until intervention is required. By adding the remaining life to the year that the condition survey was carried out, the year when renewal is required is then known.

Examples of these two types of assessments are as follows:

			Co	ndition	Assessme	ent	Canditia	Survo	Remai	
Street / Road	Location	Town	Cracki ng	Spallin g	Assessme Impact on Infrastruct ure	Conditi on Score	n Score – 40%	y Year	ning Life (years)	Renew al Year
Boonderoo Rd	Doradeen – Blake	Tom Price	5 = (0%)	5 = (0%)	4 = (20%)	8%	-34%	2019	0	2019
Bennett Ave	McRae – Bellary	Paraburd oo	3 = (40%)	3 = (40%)	2 = (60%)	48%	8%	2019	6	2025

The above table shows that:

- The kerb and gutter in Boonderoo Road has passed the point of intervention and needs to be renewed as soon as possible.
- Bennett Avenue currently has a condition score of 48% which means that when it
  deteriorates a further 8% it will require renewal. Multiplying the 70 year intervention life
  by the 8% further deterioration means that it will need renewing within 6 years. Hence,
  adding this 6 years to the survey year (2019) means that the renewal of this section of
  kerb and gutter needs to be undertaken by 2025.

#### Developing the Program of Works

The estimated year that the kerb and gutter renewal needs to take place is the primary consideration in developing the program of works, however, there are other factors that need to be considered and if necessary minor adjustments are made.

Sections of kerb and gutter within the same road may have different condition scores and hence a different estimated year for renewal. Where there is only one or two years difference adjustments have been made to the program to ensure that the kerb and gutter in the same section of road is renewed in the same year. Renewing short sections of kerb and gutter one year and then coming back the following year to do another short section of the same road is an inefficient use of resources and can add to the cost of the program significantly. Hence, where possible adjustments have been made to ensure that as much as possible of the kerb and gutter in the same road is renewed in the same year.

It is important to remember that the condition ratings and assessments outlined previously provide a snapshot in time and that it can only be used for estimated predictions of future deterioration rates. Factors such as vehicle loadings and environmental factors can result in kerb and gutter deteriorating at varying rates.

In line with the above, it is considered appropriate that:

- The first year of the recommended program be adopted and implemented;
- The 15 year program be adopted in principle for long term reporting requirements; and
- The program be reviewed and if necessary updated annually to reflect varying deterioration rates.

#### Consultation

**Executive Management Team** 

#### **Statutory Environment**

Section 5.56 Planning for the Future, of the Local Government Act 1995, outlines that:

- (1) A local government is to plan for the future of the district.
- (2) A local government is to ensure that plans made under subsection (1) are in accordance with any regulations made about planning for the future of the district.

Section 19C of the Local Government (Administration) Regulations 1996, outlines that:

- (1) A local government is to ensure that a strategic community plan is made for its district in accordance with this regulation in respect of each financial year after the financial year ending 30 June 2013.
- (2) A strategic community plan for a district is to cover the period specified in the plan, which is to be at least 10 financial years.
- (3) A strategic community plan for a district is to set out the vision, aspirations and objectives of the community in the district.

- (4) A local government is to review the current strategic community plan for its district at least once every 4 years.
- (5) In making or reviewing a strategic community plan, a local government is to have regard to:
  - (a) the capacity of its current resources and the anticipated capacity of its future resources; and
  - (b) strategic performance indicators and the ways of measuring its strategic performance by the application of those indicators; and
  - (c) demographic trends.

#### **Financial Implications**

The proposed spending is in line with the Shire of Ashburton Long Term Financial Plan (2017-2032) in regards to the planned expenditure for the 2019/20 financial year. However, the planned spending over all of the remaining 13 years of the Long Term Financial Plan is \$1,123,903 less than the spending proposed in this report, or on average, \$86,454 less per year.

#### **Strategic Implications**

Shire of Ashburton 10 Year Community Strategic Plan 2017-2027 Goal 4 – Quality Services and Infrastructure Objective 01 – Quality Public Infrastructure

#### **Risk Management**

Adoption of this item has been evaluated against the Shire of Ashburton's Risk Management Policy CORP5 Risk Matrix. The perceived level of risk is considered to be "low" in light of there being zero backlog of kerb and gutter renewals.

#### **Asset Management**

As this program has been developed on the basis of intervening before sections of kerb and gutter no longer meet their intended purpose, it enhances Council's Asset Management capabilities as defined in the International Infrastructure Management Manual.

In short, the core difference between basic and advanced asset management is the development of budgets on an as need basis (i.e. works required to keep assets functional) as opposed to works programs being developed in line with set budgets. This report is a critical step in the establishment of a framework whereby budgets are set according to the needs of an asset class to ensure the long term safe, functional and financially sustainable provision of the service.

#### **Sustainability Impacts**

Implementation of this program will mean that funding will always be there to keep the Shire's kerb and gutter in a functional condition, thereby enhancing sustainability.

This program will also negate any backlog of works, therefore ensuring that current and future generations enjoy a continued acceptable level of service and that there is no increased financial burden on future generations.

RE: RDA Pilbara Advocacy on behalf of Shire of Ashburton

Dear Rob

Regional Development Australia (RDA) is a national network of Committees made up of local leaders who work with all levels of government, business and community groups to support the economic development of their regions.

RDA Committees have an active and facilitative role in their communities and a clear focus on growing strong and confident regional economies that harness their competitive advantages, seize on economic opportunity and attract investment.

As part of the role, and in the interest of promoting economic diversification and investment into the region, RDA Pilbara provides advocacy to both the federal and state governments. This advocacy role allows RDA Pilbara to promote the Shire of Ashburton and seek funding to support infrastructure investment and economic diversification.

Considering RDA Pilbara's focus on advocacy, the organisation is seeking funding from the Shire of Ashburton, to facilitate targeted promotion of the local government area (LGA) and support for funding and investment. It is requested that a sum of \$25,000 be allocated to RDA Pilbara to support a strong advocacy role for the Shire and ensure that the federal government specifically understands the role that the Shire of Ashburton plays in the contribution to the GDP through the mining and resources sector as well as the strategic infrastructure required to support ongoing delivery and expansion of the economic prospects in the Shire.

This funding will be used specifically for travel to Canberra and will be targeting projects put forward by the Shire of Ashburton to promote economic prosperity in the region.

If require any further information, please don't hesitate to contact myself on 0427 191 272 and I look forward to your response.

Kind regards

Diane Pentz

#### **SUPPORTING STATEMENT OF RATING INFORMATION 2019/20**

# (Including Objects and Reasons for the Rating Structure)

This Statement is published by the Shire of Ashburton in accordance with Section 6.36 of the Local Government Act 1995 to advise the public of its objectives and reasons for implementing differential rates.

The purpose of levying of property rates is to meet Council's budget requirements in each financial year and in future periods, to deliver services, facilities and community infrastructure to the district as a whole. Property valuations provided by the Valuer General (Landgate) are used as the basis for the calculation of rates each year.

Section 6.36 of the Local Government Act provides the ability to differentially rate properties based on certain characteristics. The application of differential rating maintains equity in the rating of properties across the Shire, enabling the Council to provide facilities, services and infrastructure to the entire community and visitors to the area.

## Powers to Rate Property

There are two property valuation methods available under Section 6.28 of the Act, Gross Rental Value (GRV) and Unimproved Value (UV).

GRV is 'the gross annual rental that the land might reasonably be expected to realise if let on a tenancy from year to year upon condition that the landlord is liable for all rates, taxes and other charges thereon and the insurance and other outgoings necessary to maintain the value of the land'.<sup>1</sup>

UV land is 'valued as if it has had no improvements (as though) it remains in its original, natural state, any land degradation is taken into account'.<sup>1</sup>

As a default, a local government sets a single general rate in the dollar for each valuation type (GRV and UV). This is termed a uniform general rate in the valuation dollar and applied to all properties within a valuation type regardless of their land use.

Rather than adopting a single uniform general rate, a local government may apply different rates in the dollar within either valuation category (GRV or UV). A differential rate can be applied using the following characteristics, or combination thereof:

- The zoning of the land;
- The predominant use (as determined by the local government);
- If the land is vacant or not.

Location can only be used as a characteristic in setting a differential rate in very limited circumstances (namely a lesser minimum rate). Unfortunately, in Ashburton with its geography, this can present some challenges when properties with the same land use or zoning and as a consequence the same rate in the valuation dollar, may have vastly different levels of access to services.

<sup>&</sup>lt;sup>1</sup> Landgate, Rating and Taxing Valuations Publication, April 2008

#### Powers to Rate Property (continued)

The Local Government Act provides for rural use properties used for mining, exploration or prospecting purposes are assigned an Unimproved Value as supplied by the Valuer General. It refers to all land for which a mining tenement has been issued by the Department of Mines and Petroleum (DMP), and valued as such by the Valuer General's Office.

The valuation determined by the Valuer General for mining tenements is calculated by multiplying the following factors.

- Rental cost of the tenement type (mining lease, prospecting lease, exploration license, petroleum producing licence etc.);
- UV basis as determined by the DMP; and
- Tenement/license area.

The valuation of mining tenements is not reviewed each year, as occurs with other UV properties and changes when the tenement rental is amended.

## Objections and Appeals to a Valuation

Objections to valuations must be lodged with the Valuer General's Office within 60 days after issue of the rates notice. Rates are still required to be paid before the due date if an objection is lodged with a refund paid if the objection is successful. Forms are available from the Shire Office or on the Shire website.

Under the provisions of the Local Government Act 1995, a property owner is able to lodge an objection to rates imposed by a Council on the following grounds:

- There is an error on the rate assessment, either in respect to the owners or property details; or
- The characteristics of the land differ from that used in the differential rating system.

The objection is to be received within 60 days of the issue of the rate notice. Please contact Shire staff if you would like to discuss this matter further.

#### Pensioner's Discount

Eligible Pensioners are entitled to receive a discount on their rates. The Shire will determine the nature and extent of entitlement from details as at 1 July, in relation to ownership and occupation. Also a pro-rata rebate amount will be paid if a person becomes the holder of an eligible card type during the financial year which is effective from the date of registration. A deferral arrangement is also possible.

If the circumstances of a Pensioner, who is already claiming the rebate, have changed during the previous year, they will need to update their details (i.e. card number, etc.) with the Shire.

Please contact Shire staff if you believe you may be eligible for the rebate.

#### Exemptions, Instalments, Concessions and Waivers

The Shire requires organisations seeking exemption from rates in accordance with section 6.26 of the Act to make application to the Council for determination.

The Shire will provide concessions to Pensioners in accordance with the requirements of the Rates and Charges (Rebates and Deferments) Act 1992.

Council will offer three rate payment options as follows:

- Payment in full 35 days after the date of service appearing on the rate notice;
- Two instalments; and
- Four Instalments.

Interest on overdue rates not paid in accordance with the three payment options will be subject to an overdue interest rate set by the Council at the time of adoption of the annual budget.

Ratepayers with unpaid and overdue rates may be offered a scheme of arrangement for payment subject to the approval of the Chief Executive Officer.

## **Councils Overall Objective**

Councils Long Term Financial Plan (LTFP) aims for a smooth and predictable approach when generating rates revenue. This ensures Council can deliver and maintain the Shire's infrastructure and services for the community.

The rate in the dollar applied to the valuations to determine property rates will facilitate Council's objective of raising a total of \$37,689,036 in rate revenue. This approach is consistent with Council's Corporate Business Plan (CBP) and LTFP.

Council values capacity and sustainability to deliver assets and services required by the business community with focus on roads, buildings and facilities maintenance and renewal as these provide strategic economic benefit to the district.

## Rating Structure

The Local Government Act 1995, provides that properties of a non-rural purpose be rated using the Gross Rental Valuation (GRV) as the basis for the calculation of annual rates. Property values are independently assessed for all GRV properties every three years.

GRV properties were revalued in 2017 and were effective from 1 July 2018. The next full revaluation of GRV properties is scheduled to be applicable from 1 July 2021.

The base GRV valuation is effective from 1 July 2018. Interim valuations are provided to the Shire regularly by the Valuer General if changes, such as subdivisions or strata title of property, amalgamations, building constructions, demolition, additions and/or property rezoning occur during the year. In such instances, the Shire amends the valuation on record and recalculates the rates for the affected properties for the purpose of issuing an interim rate notice.

A new rating category of 'GRV – Transient Workers Accommodation' (TWAs) is proposed for the 2019/20 rating structure. The application to the Minister for change of valuation method for TWAs was approved by the Minister on 27 November 2018.

Council is considering a separate Unimproved Valuations (UV) category with a lower rate in the dollar for Exploration / Prospecting Licences. For 2019/20 Council will maintain one UV Mining / Industrial category and reconsider the change again in the 2020 Rating Strategy.

## Rating Structure (Continued)

Consideration has also been given to a change to method of valuation for UV Tourism to GRV due to infrastructure improvements in place at each property. As with UV Mining it is recommended Council consider the change when formulating the 2020 Rating Strategy.

The proposed General Rating structure for the 2019/20 Proposed Differential Rates is as follows:

- GRV Properties
  - GRV Residential / Community
  - o GRV Commercial / Industrial / Tourism
  - o GRV Transient Workforce Accommodation
- UV Properties
  - UV Mining / Industrial
  - o UV Pastoral
  - O UV Tourism

NB: The rating structure retains a minimum for each category with GRV-Residential / Community applying a Lesser Minimum for those properties located in the Wittenoom townsite. With the recent introduction of the Wittenoom Closure Bill 2019, rating of properties will go ahead until such time the Bill is enacted and the Shire is informed by the Valuer General Office (VGO) the properties are no longer rateable.

#### Differential Rates - Gross Rental Value (GRV)

Council intends to adopt differential rating principles for GRV category properties based upon the land use as follows:

#### **GRV Commercial/Industrial**

DIFFERENTIAL RATE	RATE IN THE \$	GENERAL MINIMUM PAYMENT \$	LESSER MINIMUM PAYMENT \$
GRV Commercial/Industrial	0.065926	1,262.50	N/A

This rate is applicable to properties that have a predominant land use of commercial or industrial, including Hotels, Shops, Restaurants and Offices as well as Roadhouses, Tourist Centres, Caravan Parks and Holiday Accommodation.

The reason for the rate in the dollar applied to the GRV Commercial / Industrial category land is to reflect the financial impact and costs these activities have on Shire infrastructure and services.

Differential Rates - Gross Rental Value (GRV) (Continued)

#### GRV Commercial/Industrial (Continued)

The objective is to raise revenue to contribute toward associated costs, but not limited to, rubbish collection in relevant areas, town planning control costs, health inspections and administration costs, complexity in building control, traffic volumes and vehicle mass due to commercial and industrial activity, parking facilities, traffic management, pedestrian access, commercial and industrial signage, visitor servicing and street furniture.

#### **GRV Residential/Community**

DIFFERENTIAL RATE	RATE IN THE \$	GENERAL MINIMUM PAYMENT \$	LESSER MINIMUM PAYMENT \$	
GRV Residential/Community	0.102364	1,262.50	727.50	

This differential rate is applicable to properties that have a predominant land use of residential, or used by organisations involved in activities for community benefit including Arts and Craft facilities, Youth Centres, Day Care Centres, Sporting Grounds/Clubs (that do not run a commercial business/kitchen) and health & emergency service facilities.

The reason the GRV Residential/Community rate in the dollar applied is to reflect the financial impact and costs to provides community services and activities as well as maintain the Shire's infrastructure. Also to further the Shire's strategic goals to encourage and support residential development in the town sites and organisations that contribute toward a safe, healthy, cohesive and vibrant community.

#### **GRV Transient Workforce Accommodation**

DIFFERENTIAL RATE	RATE IN THE \$	GENERAL MINIMUM PAYMENT \$	LESSER MINIMUM PAYMENT \$	
GRV Transient Workforce Accommodation	0.131845	1,262.50	N/A	

This differential rate is applicable to properties that have a predominant land use of transient workforce accommodation.

The reason the GRV Transient Workforce Accommodation rate in the dollar applied is to reflect the financial impact and costs to infrastructure and facilities available to FIFO workers in the same manner they are available to other residents of the Shire. TWA properties have the potential to have a greater impact on Council assets and services than other properties due to the high density number of occupants in a relatively small land parcel e.g. bus coaches of FIFO workers using local roads. Therefore a higher differential rate is proposed compared to other GRV rating categories.

#### Differential Rates – Unimproved Values (UV)

Council intends to adopt differential rating principles for UV category properties based upon the land use of each property as follows:

## **UV Mining/Industrial**

DIFFERENTIAL RATE	RATE IN THE \$	GENERAL MINIMUM PAYMENT \$	LESSER MINIMUM PAYMENT \$	
UV Mining/Industrial	0.369571	1,262.50	N/A	

This rate is applicable to properties with a land use associated with mining tenements (including Exploration Licences, General Purpose Leases, Mineral Leases, Mining Leases, Petroleum Exploration Permits, Petroleum Production Licences) and for Industrial properties with a mining purpose/mining infrastructure predominate use (including crown leases).

The reason a higher rate has been applied to the UV Mining/Industrial category land is to reflect the additional financial impact mining and related industries have on Shire infrastructure and services relevant to other land use types.

The objective is to raise a higher level of rate revenue from mining and related infrastructure properties than from other UV General category properties to contribute toward current and future costs associated with the provision of civil infrastructure for services and facilities including, but not limited to, transport, recreation, community and leisure facilities, waste management and planning and development costs.

## **UV Pastoral**

DIFFERENTIAL RATE	RATE IN THE \$	GENERAL MINIMUM PAYMENT \$	LESSER MINIMUM PAYMENT \$
UV Tourism	0.062196	1,262.50	N/A

This rate is applicable to tourism ventures located within the Shire issued with an unimproved valuation. The land is predominately used for providing a tourism service, including Caravan Parks and Holiday Accommodation.

## Differential Rates – Unimproved Values (UV) (Continued)

The reason for a lower rate applied to the UV Tourism category, as compared to UV Mining/Industrial, is to reflect the lower level of impact these activities have on general infrastructure and facilities including road infrastructure, recreation facilities and the permanent nature of the business activity relevant to mining and related industry.

The reason for a higher rate applied to the UV Tourism category as compared to UV Pastoral is to achieve an average rate yield more comparable to other Tourism properties with a GRV valuation.

The objective is to raise less revenue from UV Tourism properties than Mining/Industrial properties but more than UV Pastoral properties.

#### **UV Tourism**

DIFFERENTIAL RATE	RATE IN THE \$	GENERAL MINIMUM PAYMENT \$	LESSER MINIMUM PAYMENT \$	
UV Pastoral	0.169018	1,262.50	N/A	

This rate is applicable to properties issued with pastoral leases granted by the State Government.

The reason for the lower rate applied, as compared to UV Mining / Industrial, to the UV Pastoral category is to:

- Recognise the impact of fluctuations in climatic conditions have on the financial capacity to pay;
- The lower level of impact pastoral activities generally have on infrastructure and facilities such as road infrastructure and recreation facilities; and
- The permanent nature of the business activity relevant to mining and related industries.

#### Minimum Payments

Applying a minimum payment seeks to ensure all ratepayers contribute a minimum amount to basic services and facilities. The Council has determined two levels of General minimums and one lesser minimum.

#### **General Minimum Payments**

A General minimum of \$1,262.50 has been applied to properties in the following differential rate categories:

- GRV Commercial/Industrial;
- GRV Transient Workers Accommodation;
- UV Mining/Industrial;
- UV Pastoral; and
- UV Tourism areas.

# Differential Rates – Unimproved Values (UV) (Continued)

## General Minimum Payments (Continued)

Another General minimum of \$1,010 has been set for GRV Residential/Community.

## Lesser Minimum Payment

A Lesser minimum of \$727.50 has been set for Wittenoom properties to reflect the special circumstances attributable to Wittenoom properties in relation to the status of the townsite (i.e. de-gazettal). This is set at a 25% discount to GRV Residential/Community minimum payment level.

27.6.2 an insurer under any policy effected by the Lessee under this Lease refuses indemnity or reduces the sum payable under the policy because of any act, omission or default of the Lessee or an Authorised Person.

#### Lessee to terminate

27.7 If the Lessee considers the damage to the Leased Premises renders it impractical or undesirable to carry out the Reinstatement Works, the Lessee may terminate this Lease by giving not less than 30 days' notice to the Lessor and, at the expiration of that notice, this Lease will terminate.

### **Antecedent breaches**

27.8 No liability will attach to either party because of termination of this Lease under this clause 27 but that termination will be without prejudice to the rights of either party for any antecedent breach or non-observance of any provision on this Lease.

### **Dispute Resolution**

- 27.9 Each Valuer appointed under clause 27.3 shall:
  - 27.9.1 act as an expert and not as an arbitrator; and
  - 27.9.2 provide his or her determination and the reasons for his or her determination of the extent of an abatement and the period of abatement, in writing within 10 business days of his or her appointment.
- 27.10 Upon determination of the extent of an abatement and the period of abatement being finally determined then on the date upon which the immediately subsequent instalment of Rent is due and payable under this Lease:
  - 27.10.1 the Lessee shall pay the Lessee; or
  - 27.10.2 the Lessee shall refund to the Lessee,

as the case requires, the difference between what the Lessee has actually paid pursuant to this Lease from the date of service of the Damage Notice and what the Lessee is determined to have actually been liable to pay after the abatement.

### Lessee not obliged to reinstate

27.11 Nothing in this Lease obliges the Lessee to reinstate the Leased Premises or the means of access to them.

# **Proceeds of insurance**

27.12 If the Leased Premises are damaged or destroyed and this Lease is terminated under this clause 27, the Lessee will have no interest in the insurance proceeds.

# 28 Resumption of Leased Premises

28.1 If the Land or any part of the Leased Premises is resumed by any Relevant Authority so as to render the Leased Premises inaccessible or substantially unfit for the occupation of the Lessee, this Lease may be terminated without compensation or other liability by either the Shire or the Lessee by 30 days' notice to the other Party but without affecting the rights of either Party against the other in respect of any previous breaches of the provisions of this Lease.

# 29 Holding Over

- 29.1 If the Lessee continues to use the Leased Premises after the expiry of the Term with the consent of the Shire the Lessee will be a monthly Lessee of the Shire on the following basis:
  - 29.1.1 the Lessee must pay to the Shire the same rent as the then Rent payable by the Lessee immediately prior to expiry of the Term;
  - 29.1.2 the Rent will continue to be reviewed on each Review Date in the same manner as set out in clause 6 of this Lease;
  - 29.1.3 Lessee's right to remain in possession of the Leased Premises is subject to the continued performance of the Lessee's Obligations; and
  - 29.1.4 the monthly tenancy created by this clause may be terminated by either Party giving 1 months' notice of termination to the other Party at any time.

### 30 Notices

### **Giving notices**

- Any notice or communication given to a Party under this Lease is only given if it is in writing and sent in one of the following ways:

# Copies of notices etc

30.5 If a Party is required by any term of this Lease to give a copy of any notice or communication to a person the failure to give the copy of it to the person may not be raised to rebut that it was effectively given.

# 31 Caveats and registration of Lease

### Registration

- 31.1 The Lessee may register this Lease (with the written consent of the Lessor and the Minister for Lands) but must not lodge an absolute caveat over the Leased Premises to protect the interest of the Lessee under this Lease and the Lessee must surrender any registered lease and withdraw any caveat lodged by or on behalf of the Lessee over the Leased Premises on the termination of this Lease.
- In consideration of the Shire leasing the Leased Premises to the Lessee, the Lessee irrevocably appoints the Shire and every officer of the Shire as defined by the *Corporations Act 2001* (Cth) to be the Lessee's attorney, in the name and on behalf of the Lessee, and as the act and deed of the Lessee to sign and lodge at Landgate, Perth, a surrender of lease and a withdrawal of any caveat lodged by or on behalf of the Lessee and not surrendered or withdrawn on the termination of the Lease, and the Lessee:
  - 31.2.1 undertakes to ratify all that the attorney does or causes to be done under or by virtue of this clause; and
  - 31.2.2 indemnifies the Shire in respect of any loss arising from any act done under or by virtue of this clause, and the Shire's costs and expenses of and incidental to the surrendering of this Lease and withdrawing of any caveat lodged by or on behalf of the Lessee affecting the Leased Premises.

### Lessee must withdraw Caveat and any registered Encumbrances

- 31.3 The Lessee on or before the end or earlier termination of this Lease must:
  - 31.3.1 withdraw any caveat lodged by the Lessee over the Leased Premises;
  - 31.3.2 discharge any mortgage or other registered Encumbrance relating to any liability of the Lessee registered over the Leased Premises;
  - 31.3.3 surrender any registered lease over the Leased Premises;
  - 31.3.4 execute a withdrawal of caveat in a form approved or any other document that may be required to remove any Encumbrance on the certificate of title for the Leased Premises, and to execute a deed or surrender of lease in the form approved or any other document that may be required in order to remove any lease or notification of it as an encumbrance on the Certificate of Title for the Leased Premises; and
  - 31.3.5 if requested by the Shire, do all things necessary to assist in the cancellation of any qualified title for the Leased Premises.
- The Lessee indemnifies, and shall keep indemnified, the Shire against all loss or damage suffered by the Shire as a result of the Lessee's failure to comply with section 31.2.1 on or before termination of this Lease.

# 32 Special Conditions

- 32.1 The Parties acknowledge and agree that the Special Conditions form part of this Lease.
- In the event that the Special Conditions are inconsistent with the terms of the Lease, then the Special Conditions shall prevail to the extent of such inconsistency.

# 33 Discretion of the Shire in its capacity as a Relevant Authority

33.1 Nothing in this Lease shall fetter or be construed as an attempt to fetter the discretion or the powers of the Shire in its capacity as a Relevant Authority under any Written Law and in particular does not fetter the Shire in its capacity as a Relevant Authority with regard to the approval or imposition of conditions on any approval required for the development of the Land or carrying out of any alterations, additions or improvements on the Leased Premises in accordance with the terms of this Lease.

### 34 Miscellaneous

### Approvals and consents

- 34.1 Unless this Lease expressly provides otherwise, a Party may give or withhold an approval or consent in that Party's absolute discretion and subject to any conditions determined by the Party. A Party is not obliged to give its reasons for giving or withholding a consent or approval or for giving a consent or approval subject to conditions.
- Where this Lease refers to a matter being to the 'satisfaction' of a Party, this means to the satisfaction of that Party in its absolute discretion.

#### **Entire agreement**

34.3 This Lease contains everything the Parties have agreed in relation to the subject matter it deals with. No Party can rely on an earlier written document or anything said or done by or on behalf of another Party before this Lease was executed.

#### **Further acts**

34.4 Each party must at its own expense promptly execute all documents and do or use reasonable endeavours to cause a third party to do all things that another Party from time to time may reasonably request in order to give effect to, perfect or complete this Lease and all transactions incidental to it.

### Governing law and jurisdiction

34.5 This Lease is governed by the law of Western Australia. The Parties submit to the non-exclusive jurisdiction of its courts and courts of appeal from them. The Parties will not object to the exercise of jurisdiction by those courts on any basis.

### Joint and individual liability and benefits

34.6 Except as otherwise set out in this Lease, any agreement, covenant, representation or warranty under this Lease by two or more persons binds them jointly and each of them individually, and any benefit in favour of two or more persons is for the benefit of them jointly and each of them individually.

# Severability

34.7 Each provision of this Lease is individually severable. If any provision is or becomes illegal, unenforceable or invalid in any jurisdiction it is to be treated as being severed from this Lease in the relevant jurisdiction, but the rest of this Lease will not be affected. The legality, validity and enforceability of the provision in any other jurisdiction will not be affected.

#### Counterparts

34.8 This Lease may be executed in any number of counterparts each of which is an original and all of which constitute one and the same instrument.

#### **Variation**

No variation of this Lease will be of any force or effect unless it is in writing and signed by each Party to this Lease.

#### **Waivers**

- 34.10 A waiver of any right, power or remedy under this Lease must be in writing signed by the Party granting it. A waiver is only effective in relation to the particular obligation or breach in respect of which it is given. It is not to be taken as an implied waiver of any other obligation or breach or as an implied waiver of that obligation or breach in relation to any other occasion.
- 34.11 The fact that a Party fails to do, or delays in doing, something the Party is entitled to do under this Lease does not amount to a waiver.

### **EXPLANATORY MEMORANDUM**

#### Wittenoom Closure Bill 2018

In its prime, between the late 1940s and early 1960s, Wittenoom was one of the largest and most vibrant towns in the Pilbara. However, following the closure of Wittenoom Gorge blue asbestos mine in 1966 and increasing evidence of the risks posed by asbestos, the Government of Western Australia began phasing the town out in 1978. The presence of airborne asbestos fibres in Wittenoom presents a serious risk to the health and safety of all residents in, and visitors to, Wittenoom. The Wittenoom Closure Bill (Bill) will facilitate the closure of the former Wittenoom townsite.

The State Government has long been managing the health and safety risks associated with Wittenoom by degazetting the Wittenoom townsite, removing it from maps and signs, and informing visitors to the area of the hazards of Wittenoom. The State has been buying back the land in Wittenoom in order to bring the whole area under State management.

Despite extensive negotiations and offers of compensation, there still remain five people who own a total of 17 lots in Wittenoom. Three people reside in Wittenoom. The State may only demolish the remaining buildings, close the townsite and commence managing the risks posed by the area once all of the freehold land in Wittenoom has been revested in the State.

The Bill provides for the compulsory acquisition of the 17 remaining freehold lots in Wittenoom and fixes the compensation payable in respect of them. The usual regime for compulsory acquisition of land by the State is contained in the *Land Administration Act 1997* (LAA). The Bill provides for the use of the compulsory acquisition provisions in the LAA by allowing the Wittenoom land to be taken as if for a public work.

The Bill modifies the usual LAA taking provisions for the sake of efficiency. As the purpose of the taking is ultimately to ensure the health and safety of the public, including the current residents of Wittenoom, an abridged taking process is warranted. The compensation provided for is generous.

#### Part 1 - Preliminary

#### Clause 1 Short Title

Provides that the name of this bill when enacted is the *Wittenoom Closure Act 2018* (the Act).

#### Clause 2 Commencement

#### Provides that:

- 1. Part 1 comes into operation on the day on which the Act receives Royal Assent; and
- 2. The rest of the Act comes into operation on the day after the day on which the Act receives Royal Assent.

#### Clause 3 Terms Used

This clause sets out the definitions of terms which are used in the Bill. In most cases the definition will be the same as that used in the LAA.

"Wittenoom land" is defined to mean the lots set out in Schedule 1. These are the lots in Wittenoom which remain in private freehold ownership and which are to be compulsorily acquired pursuant to the provisions of this Bill.

#### Clause 4 Purpose of Act

The purpose of the Act is to facilitate the closure of the former townsite of Wittenoom by enabling the remaining freehold lots in Wittenoom to be compulsorily acquired under Part 9 of the LAA. The provisions of Part 9 of the LAA is the usual way by which the State compulsorily acquires land.

Once the land has reverted to Crown land, the State will be able to manage all of the land in Wittenoom, including demolishing improvements and managing the risks posed by the area.

#### Clause 5 Act Binds Crown

This Act binds the Crown.

#### Part 2 – Compulsory acquisition of Wittenoom land

#### Clause 6 Wittenoom land may be taken under LA Act Pt. 9

LAA Part 9 only authorises the compulsory acquisition of land in certain circumstances, primarily where the acquisition is for a public work as defined in the *Public Works Act 1902*. The taking of land for health, safety or environmental reasons is not a public work. Clause 6(1) allows for the Wittenoom land to be taken as if for a public work so that the taking provisions of Part 9 LAA may apply.

It is not proposed to take native title rights and interests, or mining, petroleum and geothermal energy rights, so the taking of these rights and interests is not authorised by the Bill.

#### Clause 7 Application of LA Act Pt. 9

The Minister for Lands is to be the acquiring authority. This means that the Minister for Lands is the person with the statutory authorisation to undertake, construct or provide a public work under section 161 of the LAA.

The taking is to be done as expeditiously as possible because of the public benefit of closing Wittenoom. Clause 7 disapplies or modifies the application of some of the usual taking processes required under the LAA. The LAA is otherwise to apply with any necessary changes.

In usual circumstances, compulsory acquisitions are commenced with the issue and service of a Notice of Intention to Take (NOITT). There will be no requirement for a NOITT in respect of the taking of Wittenoom land. This is primarily for efficiency since the Bill is itself notice that the land will be taken. No objections will be permitted because of the overriding public policy reasons for the land being taken. Accordingly, sections 170, 171, 175, 177(1)(b) of the LAA which relate to the service of NOITTs and objections to NOITTs are excluded from having any application to the taking of Wittenoom land.

Section 176 of the LAA will not apply as there is no need for a clause allowing the proprietor to take small remainders of land. The intention is that the entire lot will be taken so that after the takings there will not be any land in Wittenoom left in fee simple ownership.

The taking contemplated by the Bill will be going ahead in order to achieve the State's objective of closing Wittenoom. Section 181 LAA provides for compensation if the taking order is amended or annulled. As the taking of Wittenoom land will be going ahead, section 181 of the LAA will not apply to the Wittenoom takings.

Section 186(3)(b) requires notice to be given about the procedures and compensation available on early entry onto freehold land. As the usual procedures and compensation do not apply, this section will also not be applicable.

Sections 189, 190 and 191 are all about offering back the land if and when it is no longer required for the public work. The extent of the contamination and consequent management of Wittenoom in order to protect the health and safety of the public is such that the land can never be offered back.

Compensation will be assessed and paid in accordance with Part 3 of the Bill rather than Part 10 of the LAA. Therefore:

- 1. Section 168(1)(b) of the LAA about obtaining written consent of the person of the taking of the interest with compensation to be provided under Part 10; and
- 2. Section 168(2) of the LAA requiring proprietors to be advised of procedures under Part 9 and 10 for taking and compensation

will not apply to the taking of Wittenoom land.

Sections 169(1), 177(5) and 179(b) of the LAA are modified to reflect the fact that compensation Part 10 of the LAA does not apply but compensation for the taking of Wittenoom land will be assessed and paid in accordance with Part 3 of the Bill.

#### Clause 8 Notice of intention in relation to Wittenoom Land

This clause provides that a NOITT is deemed to be registered in relation to the Wittenoom land. The Minister may then make a taking order for Wittenoom land under section 177 of the LAA and enter the land to inspect or survey the land under sections 184(1) and (2) of the LAA.

#### Clause 9 Taking orders in relation to Wittenoom land

This clause allows for a taking order to be made under section 177 of the LAA, without there having been a NOITT, by deeming the taking order to be consistent with a NOITT registered against the land the subject of the taking order.

# Clause 10 Disclosure under Contaminated Sites Act 2003 s. 68 not required

Section 68(1) of the *Contaminated Sites Act 2003* requires a fee simple owner of a site that has been classified as "contaminated – remediation required" to disclose that to any purchaser of that land. This clause provides that the owners of Wittenoom Land do not need to disclose the contamination if the State enters into an agreement to purchase the land under section 168(1) of the LAA. The requirement for disclosure is unnecessary in this instance as the State is acquiring the land, and is already aware of the contamination.

#### Part 3 - Compensation

#### Clause 11 No compensation except as provided in this Part

This clause provides that the compensation provisions of Part 10 of the LAA do not apply to takings under the Bill. Instead, compensation for the taking of Wittenoom land is solely governed by Part 3 of the Bill.

#### Clause 12 Compensation for fee simple in Wittenoom land

This clause sets out the compensation payable by the State to the landowners whose land is taken pursuant to the Bill. The amount of compensation has been set as follows:

- 1. \$325,000 for a lot on which the fee simple owner resides. Additionally, that owner will receive \$50,000 for solatium and moving expenses.
- 2. \$65,000 for a lot which is improved, but is not the fee simple owner's primary residence.
- 3. \$30,000 for vacant land.

The 17 remaining lots are owned by 5 owners, of which 3 live there, so some of the fee simple owners will receive compensation in respect of more than one lot. Officers of the Department of Planning, Lands and Heritage have determined which lots are occupied, which are improved and which are vacant by site inspections and their ongoing negotiations with the current and former residents of Wittenoom. The amounts payable as compensation are generous.

### Clause 13 Apportionment of rates and taxes

This clause is modelled on section 242 of the LAA. It provides for the apportionment of rates and taxes between the State and the former owner.

#### Clause 14 Payment of Compensation

This clause obliges the Minister for Lands to pay compensation following the taking of Wittenoom land. Payment of compensation is conditional upon the former fee simple owner vacating that land and giving possession to the Minister. The exception to this is the payment of the \$50,000 for solatium and moving expenses which will be paid prior to the vacation of the premises to enable the owner to move.
